Culture and Customs of Zambia Scott D. Taylor,2006-10-30 Zambia stands out in Africa as one of the continent s most peaceful countries In its early years as an independent state Zambia became a regional bulwark against imperialism and colonial domination and South African apartheid Today it stands out as an important example of Africa s recent democratization experiencing both incredible success as well as some notable setbacks The country is also one of the most urbanized in Sub Saharan Africa As a result of this urban influx Zambia s diverse ethno linguistic groups interact regularly Moreover many contemporary Zambian households especially those in cities are also exposed to the media technology and influences of western urbanized cultures from Internet cafes to hip hop music The interesting ways that tradition and modernity conflict and combine in contemporary Zambia are prime considerations in this book This book explores Zambia s culture with an eye toward its historical experiences and its particular endowments It focuses on how traditional and modern interact and sometimes collide in the country through topics such as religion gender roles and family cuisine the arts literature and more The major groups are examined to give the reader an idea about how many Zambians live

Struggles for Home Stef Jansen,Staffan Löfving,2008-10-01 Based on anthropological studies across the globe this book explores the social practice of home making amongst people whose lives are characterized by movement and violence Social scientific and policy understandings of home and migration tend to focus on territory culture and nation often carrying

implicit sedentarist assumptions of a naturalised link between people and particular places This book challenges such views drawing attention instead to unpredictable forms of dwelling in the often violent processes that connect yet differently affect the movement of people and capital Taking seriously the political implications of this challenge the authors do not resort to a free floating placeless approach Instead through the detailed ethnography of lived experiences of displacement and emplacement Struggles for Home investigates the power sedentarism may have to provide or prohibit hope Research conducted in Sri Lanka Bosnia Herzegovina Zambia Cyprus the Palestinian West Bank Guatemala and amongst Romanians and Moroccans in Spain articulates a novel theoretical framework for the development of a critical political anthropology of one of the most controversial and fascinating issues of our time the remaking of home in migration **The Magic of**

African Magic Heidi Holland, 2012-09-26 Africa's traditional beliefs including ancestor worship divination and witchcraft continue to dominate its spiritual influences Readers in search of a better understanding of the continent will be enriched by this book's timely exploration of sub Saharan Africa's natural philosophy The author's meticulous research reveals that whereas technology driven Western societies prefer to rely largely on logical explanations many Africans continue to obey their intuition trusting in images dreams and divination to rationalise misfortune and illness African Magic explains why so many Africans understand the relationship between people and unfortunate events not through the Western concept of chance in the case of accidents or germ theory in the case of illness but through belief in witchcraft The book records a collection of true stories which illustrate this traditional belief system Included are the famous Malawian diviner whose prophecies were considered so accurate that people flocked from neighbouring countries to consult him a group of Western

trained Mozambican psychologists who successfully refined cross cultural therapy by working with traditional healers to combat post traumatic stress syndrome among child soldiers Ghanaian and Zimbabwean witches living in a nightmare world where popular belief becomes their reality and a Zambian archbishop whose attempt to embrace traditional African beliefs provoked serious conflict within his Christian church

The Anthropology of Magic Susan Greenwood, 2009-11-01 Magic is arguably the least understood subject in anthropology today Exotic and fascinating it offers us a glimpse into another world but it also threatens to undermine the foundations of anthropology due to its supposed irrational and non scientific nature Magic has thus often been explained away by social or psychological reduction The Anthropology of Magic redresses the balance and brings magic as an aspect of consciousness into focus through the use of classic texts and cutting edge research Suitable for student and scholar alike The Anthropology of Magic updates a classical anthropological debate concerning the nature of human experience A key theme is that human beings everywhere have the potential for magical consciousness Taking a new approach to some perennial topics in anthropology such as shamanism mythology witchcraft and healing the book raises crucial theoretical and methodological issues to provide the reader with an engaging and critical understanding of the dynamics of magic

Mutale: Religiosity in African Christian Churches , 2023-06-27 In this book Tresphor Mutale critically examines contemporary African Christianity through the leadership from prophets men of God pastors seers and more The book looks at the rationality of apparently irrational religious expressions and experiences in the name of religion It analyses the irrationalities using the spectacles of African Traditional Religions ATR especially with respect to the importance of rituals From the vantage point of rituals there is sense in nonsense and some of the irrational religious expressions being experienced today become rational The book raises the aspect of authority of ritual leadership in ATR and how this symbol holds authority in Christianity today and how it has power to influence believers Mutale argues that African Christianity and how it is experienced today point to the deeper influence of African Traditional Religions The book provokes many questions about the power of African symbolisms their application in Christianity and how Christianity through the lenses of African Traditional Religions is able to relate and influence other areas of society like economics politics and sociality The book draws on and enriches perspectives on religion and religiosity with the depth of Mutale's ability to bring into conversation anthropological philosophical sociological and theological approaches

world Brian Paul Levack, 2001 *The Language of Faith in Southern Africa: Spirit World, Power, Community, Holism*
Hermen Kroesbergen, 2019-12-12 The aim of this book is to provide a way to do justice to an African language of faith In systematic theology anthropology and philosophy of religion similar debates about how to interpret an African language of faith are ongoing Trying to avoid the othering discourses of past generations scholars are careful to take seriously what people in Africa say without portraying people s beliefs as weird or backward Yet in their desperate attempts to avoid othering these theologians anthropologists and philosophers often painfully misconstrue the language of faith in Africa Understanding the language of faith in Southern Africa is not an easy task How should we take seriously the form of language that often seems so strange and different I argue that after African inculturation theology and black liberation theology a better way to make sense of being a Christian in Southern Africa is to pay close attention to people s language of faith The way in which people speak of the spirit world or powers in Africa appears strange to outsiders and the sense of community and the holistic worldview differentiates the African way of life from its Euro American counterparts When proper attention is paid to the use of concepts like spirit world power community and holism language of faith in Southern Africa is neither as strange as it may seem nor as romantic By investigating these distinguishing concepts that colour language of faith in Southern Africa this book contributes to future projects of both fellow theologians who try to construct a contemporary African theology and those who are interested in theology in Africa given the well known southward shift of the centre of gravity of Christianity *Jesus and Magic* Richard A Horsley, 2015-04-30 It has become standard in modern interpretation to say that Jesus performed miracles and even mainline scholarly interpreters classify Jesus s healings and exorcisms as miracles Some highly regarded scholars have argued more provocatively that the healings and exorcisms were magic and that Jesus was a magician As Richard Horsley points out if we make a critical comparison between modern interpretation of Jesus s healing and exorcism on the one hand and the Gospel stories and other ancient texts on the other hand it becomes clear that the miracle and magic are modern concepts products of Enlightenment thinking Jesus and Magic asserts that Gospel stories do not have the concepts of miracle and magic What scholars constructed as magic turns out to have been ritual practices such as songs incantations medicines potions and appeals to higher powers for protection Horsley offers a critical reading of the healing and exorcism episodes in the Gospel stories This reading reveals a dynamic relationship between Jesus the healer the trust of those coming for healing and their support networks in local communities Horsley s reading of the Gospel stories gives little or no indication of divine intervention Rather the healing and exorcism stories portray healings and exorcisms
