Magistrates Tale:

The Magistrate's Tale Trevor Grove, 2012-08-07 When Trevor Grove was called up for Jury service he became so intrigued with the justice system that he wrote a successful book about it *The Jurymans Tale* Now he s joined the magistracy and gives a fascinating funny and insightful account of just how the magistracy works at a time of great change Lay magistrates deal with more than 95 per cent of all criminal cases in England and Wales yet they are all volunteers drawn from local communities with no legal training or special qualifications and are not paid a penny for what they do Astonishingly little is known about what it is like to serve as a magistrate Each year 5 000 people apply to become magistrates only 25 per cent are successful This book is the first for many years to shed light on the experience Interweaving his own personal experience of becoming a magistrate in north London with general observations relevant interviews and a little history Trevor Grove takes us on a fascinating journey into this extraordinary and unique institution He has visited courts all over the country to talk to magistrates and observe how crimes and criminals differ from region to region and how the benches dealing with them differ too He has visited jails and Young Offenders Institutions and he has interviewed all of the principal players from the Lord Chief Justice and Home Secretary to more integral characters such as justices clerks ushers probation officers local police and offenders His journey uncovers a remarkable act of national faith in the good sense of ordinary people which says a great deal more about the strength and health of our democracy than is sufficiently appreciated **G. local administration Describing the magistracy as a great national institution independent respected and a true people's court John Hosking nevertheless decries a halving of its size closure of courthouses remote services and increasing reliance on professional judges rather than community volunteers Though much has changed for the better to increase competency meet criticism and maintain integrity the book explains how other developments have challenged the very status of the lay magistracy and made inroads into one of the most cherished principles of our democracy public participation in the justice system Extracts It ill behoves politicians and reformers to support actions which may be designed to improve the justice system as a whole but which devalue the magistracy in the process Likewise the sustainability of the magistracy can only be assured if the popular demands of the present are met without compromising the future of the whole institution In addition to its unquestioned integrity and independence the most persuasive reason for having a lay magistracy is that it manifestly does a good job at a very low cost

Chaucer at Large Steve Ellis, 2000 Offered as part of the sixcentenary commemoration of Chaucer's death this very readable study examines Chaucer's impact on the academic and non academic worlds of the 19th and 20th centuries Chronological chapters assess Chaucer's impact on the Pre Raphaelites on W B Yeats on Edwardian children's stories and on post World War One authors Ellis also considers modern translations and contrasts the relationship between academia's interest in Chaucer and his representation in the media and in historical fiction since the Second World War

Access to Justice in Magistrates' Courts Lucy Welsh, 2022-01-27 This book examines access to justice in summary criminal proceedings by considering the ability of defendants to play an active and effective role in the process Access to justice refers not just to the availability of legally aided representation but also to the ability of defendants to understand and effectively participate in summary criminal proceedings more generally It remains a vital principle of justice that justice should not only be done but should also be seen to be done by all participants in the process The book is based on socio legal research The study is ethnographic based on observation conducted in four magistrates courts in South East England and interviews with both defence lawyers and Crown prosecutors Setting out an argument that defendants have always been marginalised through particular features of magistrates court proceedings such as courtroom layout and patterns of behaviour among the professional workgroups in court the political climate in relation to defendants and access to justice that has persisted since 2010 has further undermined the ability of defendants to play an active role in the process Ultimately this book argues that recent governments have demanded ever more efficiency and cost saving in criminal justice In that context principles that contribute to access to justice for defendants have been seriously undermined
