Economy and Society in Central and Eastern Europe Daniel Dumitran, Valer Moga, 2013 The analysis of societies transformations and the influence on the modernization of Central and Eastern Europe economies between the pre modern period and the 20th century is a useful tool for understanding contemporary trends in the region particularly since the debates on economic and social reconstruction find their counterpart in modern state construction projects The history of this region of Europe described as a space of ethnic religious and cultural diversity is illustrated in this book through the dimension of territory population and consumption The book s contributions were presented at an international conference in Alba Iulia Romania in April 2013 Series Eastern Europe Osteuropa Vol 8 Practices of Diplomacy in the Early Modern World c.1410-1800 Tracey A. Sowerby, Jan Hennings, 2017-05-12 Practices of Diplomacy in the Early Modern World offers a new contribution to the ongoing reassessment of early modern international relations and diplomatic history Divided into

three parts it provides an examination of diplomatic culture from the Renaissance into the eighteenth century and presents the development of diplomatic practices as more complex multifarious and globally interconnected than the traditional state focussed national paradigm allows The volume addresses three central and intertwined themes within early modern diplomacy who and what could claim diplomatic agency and in what circumstances the social and cultural contexts in which diplomacy was practised and the role of material culture in diplomatic exchange Together the chapters provide a broad geographical and chronological presentation of the development of diplomatic practices and through a strong focus on the processes and significance of cultural exchanges between polities demonstrate how it was possible for diplomats to negotiate the cultural codes of the courts to which they were sent This exciting collection brings together new and established scholars of diplomacy from different academic traditions It will be essential reading for all students of diplomatic history **Magyar művelődéstörténeti lexikon: Reneszánsz-Szeben nyomdászata** Péter Kőszeghy,2010 *The Ever-Reviving Phoenix* Béla Mihalik,2024-04-22 For more than four and a half centuries the Jesuits in Hungary were forced to repeatedly recommence their activities due to wars uprisings and political conflicts The Society of Jesus first settled in Hungary in 1561 during the period of Ottoman conquest Despite their difficulties in a war torn country a network of Jesuit colleges was established as part of the Austrian Province and the eighteenth century was a period of cultural and scientific prosperity for the Jesuits in Hungary The Suppression of 1773 however abruptly suspended this tradition for eighty years After they resettled in Hungary in 1853 the Jesuits searched for new ways of apostolic work The independent Hungarian Jesuit Province was established in 1909 The totalitarian regimes of the twentieth century posed fresh challenges During the Communist period the Hungarian Jesuit Province was forced to split up into two sections The Jesuits in exile and those who remained in Hungary were reunited in 1990 **The Medieval Networks in East Central Europe** Balazs Nagy,András Vadas,Felicitas Schmieder,2018-11-09 Medieval Networks in East Central Europe explores the economic cultural and religious forms of contact between East Central Europe and the surrounding world in the eight to the fifteenth century The sixteen chapters are grouped into four thematic parts the first deals with the problem of the region as a zone between major power centers the second provides case studies on the economic and cultural implications of religious ties the third addresses the problem of trade during the state formation process in the region and the final part looks at the inter and intraregional trade in the Late Middle Ages Supported by an extensive range of images tables and maps Medieval Networks in East Central Europe demonstrates and explores the huge significance and international influence that East Central Europe held during the medieval period and is essential reading for scholars and students wishing to understand the integral role that this region played within the processes of the Global Middle Ages *Christian-Muslim Relations.
