## **Maharashtras Contribution To Music:**

**Maharashtra's Contribution to Music** Vāmana Harī Deśapāṇḍe, 1972      **Hindustani Music in the 20th Century** W. van der Meer, 2012-12-06 AIM In spite of a reasonably extensive literature in English and Indian vernaculars there are extremely few books on Indian music that can be considered of a scientific standard I found when I took up an interest in Indian music in 1967 that even protracted reading of the studies in English was not conducive to an understanding of the principles of performance Most of my study and research have been devoted to the gradual refinement of this very understanding In the course of time it also became obvious that different scholars and different musicians held divergent views on many basic concepts of Indian music Therefore one of my tasks was to assess the degree of variability in Indian music As a corollary I wanted to know how this variability could manifest itself as change in a relatively short and well documented period It is often assumed that traditional cultures as e g in India are rather inert and that the art forms hardly ever change This study proves the contrary Indian music has a strong vitality If we examine the different treatises through the centuries this vitality would appear to be a basic characteristic I felt that at least an effort to discover the roots of such change would be valuable as a contribution to the study of art history and possibly to the sociology of culture      *The Garland Encyclopedia of World Music* Alison Arnold, 2017-09-25 In this volume sixty eight of the world s leading authorities explore and describe the wide range of musics of India Pakistan Bangladesh Sri Lanka Kashmir Nepal and Afghanistan Important information about history religion dance theater the visual arts and philosophy as well as their relationship to music is highlighted in seventy six in depth articles      **The Life of Music in North India** Daniel M. Neuman, 1990-03-15 Daniel M Neuman offers an account of North Indian Hindustani music culture and the changing social context of which it is part as expressed in the thoughts and actions of its professional musicians Drawing primarily from fieldwork performed in Delhi in 1969 71 from interviewing musicians learning and performing on the Indian fiddle and speaking with music connoisseurs Neuman examines the cultural and social matrix in which Hindustani music is nurtured listened and attended to cultivated and consumed in contemporary India Through his interpretation of the impact that modern media educational institutions and public performances exert on the music and musicians Neuman highlights the drama of a great musical tradition engaging a changing world and presents the adaptive strategies its practitioners employ to practice their art His work has gained the distinction of introducing a new approach to research on Indian music and appears in this edition with a new preface by the author      **The Garland Encyclopedia of World Music: South Asia : the Indian subcontinent** Bruno Nettl, Alison Arnold, Ruth M. Stone, James Porter, Timothy Rice, 1998 First published in 2000 Routledge is an imprint of Taylor Francis an informa company      *Musicophilia in Mumbai* Tejaswini Niranjana, 2020-02-28 In *Musicophilia in Mumbai* Tejaswini Niranjana traces the place of Hindustani classical music in Mumbai throughout the long twentieth century as the city moved from being a seat of British colonial power to a vibrant postcolonial metropolis Drawing on historical archives

newspapers oral histories and interviews with musicians critics students and instrument makers as well as her own personal experiences as a student of Hindustani classical music Niranjana shows how the widespread love of music throughout the city created a culture of collective listening that brought together people of diverse social and linguistic backgrounds This culture produced modern subjects Niranjana calls musicophiliacs whose subjectivity was grounded in a social rather than an individualistic context By attending concerts learning instruments and performing at home and in various urban environments musicophiliacs embodied forms of modernity that were distinct from those found in the West In tracing the relationship between musical practices and the formation of the social subject Niranjana opens up new ways to think about urbanity subjectivity culture and multiple modernities

**Two Men and Music** Janaki Bakhle,2005-10-20 A provocative account of the development of modern national culture in India using

classical music as a case study Janaki Bakhle demonstrates how the emergence of an Indian cultural tradition reflected colonial and exclusionary practices particularly the exclusion of Muslims by the Brahmanic elite which occurred despite the fact that Muslims were the major practitioners of the Indian music that was installed as a Hindu national tradition This book lays bare how a nation's imaginings from politics to culture reflect rather than transform societal divisions
