Migration Italy Graziella Parati, 2013-12-31 In terms of migration Italy is often thought of as a source country a place from which people came rather than one to which people go However in the past few decades Italy has indeed become a destination for many people from poor or war torn countries seeking a better life in a stable environment Graziella Parati's *Migration Italy* examines immigration to Italy in the past twenty years and explores the processes of cultural hybridization that have occurred Working from a cultural studies viewpoint Parati constructs a theoretical framework for discussing Italy as a country of immigration She gives special attention to immigrant literature positing that it functions as an act of resistance a means to talk back to the laws that regulate the lives of migrants Parati also examines Italian cinema demonstrating how native and non native filmmakers alike create parallels between old and new migrations complicating the definitions of sameness and difference These definitions and the complexities inherent in the different cultural legal and political positions of Italy's people are at the heart of *Migration Italy* a unique work of immense importance for understanding society in both modern day Italy and indeed the entire European continent

Edward Aspinall, 2009. Islam and Nation presents a fascinating study of the genesis, growth, and decline of nationalism in the Indonesian province of Aceh. **Medieval Frontiers: Concepts and Practices** David Abulafia, Nora Berend, 2017-03-02. In recent years, the medieval frontier has been the subject of extensive research. But the term has been understood in many different ways: political boundaries, fuzzy lines across which trade, religions, and ideas cross; attitudes to other peoples and their customs. This book draws attention to the differences between the medieval and modern understanding of frontiers, questioning the traditional use of the concepts of frontier and frontier society. It contributes to the understanding of physical boundaries as well as metaphorical and ideological frontiers, thus providing a background to present-day issues of political and cultural delimitation. In a major introduction, David Abulafia analyses these various ambiguous meanings of the term frontier in political, cultural, and religious settings. The articles that follow span Europe from the Baltic to Iberia, from the Canary Islands to central Europe, Byzantium and the Crusader states. The authors ask what was perceived as a frontier during the Middle Ages. What was not seen as a frontier despite the usage in modern scholarship? The articles focus on a number of themes to elucidate these two main questions. One is medieval ideology. This includes the analysis of medieval formulations of what frontiers should be and how rulers had a duty to defend and/or extend the frontiers; how frontiers were defined, often in a different way in rhetorical/ideological formulations than in practice; and how in certain areas frontier ideologies were created. The other main topic is the emergence of frontiers: how medieval people created frontiers to delimit areas; how they understood and described frontiers. The third theme is that of encounters and a questioning of medieval attitudes to such

encounters To what extent did medieval observers see a frontier between themselves and other groups and how does real interaction compare with ideological or narrative formulations of such interaction
