Pluta,2011-04 In building their profession around carefully selected interpretations of the work of Adam Smith Alfred Marshall and others mainstream economists have embraced such concepts as the invisible hand equilibrium consumer rationality the marginal productivity theory the inevitability of diminishing returns and the fiction of pure competition In contrast the evolutionary economics of Thorstein Veblen and Clarence Ayres challenges all of these concept as unproven and capable of telling us little or nothing about the actual operation of the economy Using the evolutionary framework *Human Progress Amid Resistance to Change* argues that all cultures since prehistory have faced two opposing forces technology including human knowledge and institutions rooted in ceremonialism The former is dynamic forward looking accepting of change cumulative one discovery builds on another and the major cause of human progress The latter is static and consists of all customs traditions superstitions rituals ceremonies taboos and past binding religious beliefs that resist change The book illustrates in detail how these competing forces have interacted throughout the history of the human race and how

mainstream economics fails to grasp the significance of their combined effects      Absolute Reality in the Qur'an Masudul Alam Choudhury,2016-09-14 This book studies the absolute reality of the Qur'an which is signified by the struggle of truth against falsehood in the framework of monotheistic unity of knowledge and the unified world system induced by the consilience of knowledge In such a framework the absolute reality reveals itself not by religious dogmatism Rather the methodology precisely comprises its distinctive parts These are namely the primal ontology as the foundational explained axiom of monotheistic unity the secondary ontologies as explanatory replications of the law of unity in the particulars of the world system epistemology as the operational model and phenomenology as the structural nature of events induced by the monotheistic law that is by knowledge emanating from the law The imminent methodology remains the unique explanatory reference of all events that take place advance and change in continuity across continuums of knowledge space and time

Jewish-Muslim Relations and Migration from Yemen to Palestine in the Late Nineteenth and Twentieth Centuries Ari Ariel,2013-12-05 In Jewish Muslim Relations and Migration from Yemen to Palestine in the Late Nineteenth and Twentieth Centuries Ari Ariel analyzes the impact of local regional and international events on ethnic and religious relations in Yemen and Yemeni Jewish migration patterns Previous research has dealt with single episodes of Yemenite migration during limited spans of time Ariel instead provides a broad sweep of the migratory flows over the 70 year time span during which most of Yemen's Jews moved to Palestine and then Israel He successfully avoids the polemic nature of much of the literature on Middle Eastern Jewry by focusing on the social economic and political transformations that provoked and then sustained this migration      **How Economics Forgot History** Geoffrey M Hodgson,2001-08-23 Hodgson calls into question the tendency of economic method to explain all economic phenomena using the same catch all theories He argues that you need different theories and that historical contexts must be taken into account
