television are popular in the 1990s thanks to the success of Chris Carter's *The X-Files* such has not always been the case. Creators Rod Serling, Dan Curtis, William Castle, Quinn Martin, John Newland, George Romero, Stephen King, David Lynch, Wes Craven, Sam Raimi, Aaron Spelling and others have toiled to bring the horror genre to American living rooms for years. This large scale reference book documents an entire genre from the dawn of modern horror television with the watershed Serling anthology *Night Gallery* 1970 a show lensed in color and featuring more graphic makeup and violence than ever before seen on the tube through more than 30 programs including those of the 1998-1999 season. Complete histories, critical reception, episode guides, cast crew and guest star information as well as series reviews are included along with footnotes, a lengthy bibliography and an in depth index. From *Kolchak: The Night Stalker* to *Millennium* from *The Evil Touch* to *Buffy the Vampire Slayer* and *Twin Peaks*. **Terror Television** is a detailed reference guide to three decades of frightening television programs both memorable and obscure.

**War of the Worlds** John L. Flynn, 2005-06. Earth invaded by Mars. Millions incinerated by heat ray. Panic grips nation as Martian tripods advance on Washington. Remember the headlines: They said it wouldn't happen here and then wave after wave the Martians attacked the Earth with a vengeance. H.G. Wells' great novel *The War of the Worlds* chronicled the first wave. Then Orson Welles' 1938 radio broadcast followed by George Pal's 1953 movie *The Martians* kept coming. This book is a tribute to Wells and those radio, television, comic book and film adaptations that have been inspired by it. This second edition includes material on the Steven Spielberg blockbuster with Tom Cruise, the two *Pendragon* adaptations, *Mars Attacks!*, *Independence Day*, *The Great Martian War 1913-1917*, *War of the Worlds*, *Goliath*, the 2019 BBC miniseries, the 2019 8 part Fox Studio Canal series and plenty more.

**CLONES: The Anthology** Daniel Arthur Smith, Rysa Walker, R.D. Brady, Susan Kaye Quinn, Samuel Peralta, Michael Patrick Hicks, Nathan M. Beauchamp, P.K. Tyler, Hank Garner, Joshua Ingle, 2016-05-24.

**Dark Moon** Mary Bennett, David S. Percy, 2001. As the dust settles on the 30th anniversary of Apollo 11, information is now coming to light that throws into serious doubt the authenticity of the Apollo record. New evidence clearly suggests that NASA hoaxed the photographs taken on the surface of the Moon. These disturbing findings are supported by detailed analysis of the Apollo images by professional photographer David S. Percy, ARPS, and physicist David Groves, PhD. The numerous inconsistencies clearly visible in the Apollo photographic account are quite irrefutable. Recent research indicates that the errors evidenced in *DARK MOON* were deliberately planted by individuals determined to leave clues to the faking in which they were unwillingly involved. *DARK MOON* is the answer to the question: did the Apollo missions really land a man on the Moon and return him alive and well to Earth or is the record incorrect?

**The Roswell Legacy** Jesse Marcel, Linda Marcel, 2008-01-01. Enhanced with photos and illustrations, this account tells what intelligence officer Major Jesse Marcel witnessed at Roswell prior to and after the crash of the most controversial UFO in U.S. history including the physical characteristics of the craft and the items found at the debris field.

**Brainwashing** David Seed, 2004. An examination of the literary and cinematic representations of brainwashing during the Cold War era. CIA

operative who was a tireless campaigner against communism it took hold quickly and became a means to articulate fears of totalitarian tendencies in American life David Seed traces the assimilation of the notion of brainwashing into science fiction political commentary and conspiracy narratives of the Cold War era He demonstrates how these works grew out of a context of political and social events and how they express the anxieties of the time The Manchurian Candidate Seed provides new interpretations of writers such as Orwell and Burroughs within the history of psychological manipulation for political purposes using declassified and other documents to contextualise the material he explores the shifting view points of how brainwashing is represented changing from an external threat to American values to an internal threat against individual American liberties by the U S government will welcome this study **Desolation Argonauts** Clive Radford, 2022-08-01

Pipedream meets reality along Route 66 Charged up with expectation Henry Collins a man with a subconscious Magnum fixation and his band of argonauts explore the beat generation trail Searching for the ghosts of Jack Kerouac and Allen Ginsberg they rub shoulders with next generation beats in roadhouses and speakeasies and survivors from the Dust Bowl and the Great Depression Recognising their romantic visions of beatdom are tainted with fallacy and paradox after six weeks on Route 66 travelling from Chicago to LA and returning to the Windy City on a northerly route they exit the world of intellectual and down and out beats flushed with an appreciation that no counterculture no matter how seductive approaches perfection **The Myth and Mystery of UFOs** Thomas E. Bullard, 2016-10-17

When United Airlines workers reported a UFO at O'Hare Airport in November 2006 it was met with the typical denials and hush up that usually accompany such sightings But when a related story broke the record for hits at the Chicago Tribune's website it was clear that such unexplained objects continued to occupy the minds of fascinated readers Why wonders Thomas Bullard don't such persistent sightings command more urgent attention from scientists scholars and mainstream journalists The answer in part lies in Bullard's wide ranging magisterial survey of the mysterious frustrating and ever evolving phenomenon that refuses to go away and our collective efforts to understand it In his trailblazing book Bullard views those efforts through the lens of mythmaking discovering what UFO accounts tell us about ourselves our beliefs and the possibility of visitors from beyond Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology that defines such encounters as somehow alien and how it views relentless official denial as a part of conspiracy to hide the truth He also describes how UFOs have catalyzed the evolution of a new but highly fractured belief system that borrows heavily from the human past and mythic themes and which UFO witnesses and researchers use to make sense of such phenomena and our place in the cosmos Bullard's book takes in the whole spectrum of speculations on alien visitations and abductions magically advanced technologies governmental conspiracies varieties of religious salvation apocalyptic fears and other paranormal experiences Along the way Bullard investigates how UFOs have inspired books movies and television series blurred the boundaries between science science fiction and religion and crowded the Internet with websites and

discussion groups From the patches of this crazy quilt he posits evidence that a genuine phenomenon seems to exist outside the myth Enormously erudite and endlessly engaging Bullard s study is a sky watcher s guide to the studies stories and debates that this elusive subject has inspired It shows that despite all the competing interests and errors clouding the subject there is substance beneath the clutter a genuinely mysterious phenomenon that deserves attention as more than a myth
