a place shaped by the fissures of modernity and the dynamics of cultural conflict and exchange A richly illustrated work of cultural history this first book length treatment explores the important yet neglected role Hispano artists played in shaping the world of modernism in twentieth century New Mexico A Contested Art places Hispano artists at the center of narratives about modernism while bringing Hispano art into dialogue with the cultural experiences of Mexicans Chicanas/os and Native Americans In doing so it rewrites a chapter in the history of both modernism and Hispano art Published in cooperation with The William P Clements Center for Southwest Studies Southern Methodist University Perspectives on Ancient Maya Rural Complexity Samuel V. Connell, Gyles Iannone, 2003-12-01 Settlement archaeology in the Maya area has focused much of its attention on the polar extremes of the settlement continuum As a result of this urban rural bias a whole range of complex rural settlements remain under explored The chapters in this volume highlight the variable quality of these middle level settlements **New Mexico's Sanctuaries, Retreats, and Sacred Places**, 2001 An illustrated guide to New Mexico's best opportunities for worship meditation retreat or community celebration with more than 100 listings including information on ancient petroglyphs and ruins natural wonders shrines historic churches retreats and ranches **Gordon R.
