Globalising Sociolinguistics Dick Smakman, Patrick Heinrich, 2015-05-15 This book challenges the predominance of mainstream sociolinguistic theories by focusing on lesser known sociolinguistic systems from regions of Africa Asia the Caribbean South America the European Mediterranean and Slavic regions as well as specific speech communities such as those speaking Nivkh Jamaican Creole

North Saami and Central Yupik In nineteen chapters the specialist authors look at key sociolinguistic aspects of each region or speech community such as gender politeness strategies speech patterns and the effects of social hierarchy on language concentrating on the differences from mainstream models The volume introduced by Miriam Meyerhoff has been written by the leading expert of each specific region or community and includes contributions by Rajend Mesthrie Marc Greenberg and Daming Xu This publication draws together connections across regions communities and considers how mainstream sociolinguistics is incomplete or lacking It reveals how lesser known cultures can play an important role in the building of theory in sociolinguistics *Globalising Sociolinguistics* is essential reading for any researcher in sociolinguistics and language variation and will be a key reference for advanced sociolinguistics courses *Interviews with M.A.K. Halliday* J. R.

Martin, 2013-02-28 This volume gathers together 14 interviews with M A K Halliday the founder of systemic functional linguistics SFL recorded over four decades the most recent of which was conducted in 2011 and published here for the first time In these engaging conversations with colleagues Halliday explores his own development as a student of language in Britain and China the evolution of SFL theory around the world its place in the field of general linguistics and its many sites of application The dialogic mode enacted here allows Halliday to touch on many points of personal history and intellectual challenge that have not been addressed in formal publications in his books or collected papers including answers to the many thought provoking questions his colleagues had waited sometimes years to ask Accordingly each chapter offers a fresh illuminating window on the innovative thinking and assured convictions of this towering figure in linguistics **New**

Horizons in Linguistics 2, 1987 *The Dative* William Van Belle, Willy Van Langendonck, 1996-03-20 Since antiquity scholars have been fascinated by the phenomena of case The explanation for this fascination is as Hjelmslev already pointed out over fifty years ago the fact that he who can unravel the meaning of case relations has the key to language structure as a whole For over three years a team of twenty scholars affiliated with the Linguistics Department of Leuven University in Belgium has concentrated on case phenomena in different languages both Indo and non Indo European It is the first time that such a large scale investigation into case has been undertaken Noteworthy is also its reliance on computer stored corpora of authentic material The results are published as a series *Case and Grammatical Relations across Languages* of which the first volume a bibliography appeared in 1994 The first volume on the dative case contains 13 articles each of which gives a detailed syntactic semantic description of the dative or its counterparts in a particular language In addition to the lexico syntactic frames in which they occur a number of textual and extra linguistic factors are taken into account Languages investigated are English K Davidse German L Draye Dutch W Van Belle W Van Langendonck Afrikaans L G de Stadler Latin W Van Hoecke French L Melis Spanish N Delbecque B Lamiroy Portuguese R de Andrade Polish B Rudzka Ostyn Hungarian G T th Pashto W Skalmowski Hebrew P Swiggers and Orizaba Nahuatl D Tuggy *Relations and Functions within and around Language* David Lockwood, Michael Cummings, Peter Fries, William Spruiell, 2005-05-01 Currently there is a

movement in linguistics towards careful use of corpora in linguistic and text analysis which has involved both written and spoken corpora and those which combine spoken and written text Most text analyses address written texts often literary works but detailed discussion of the language of a single oral text from multiple perspectives has rarely been published This book is among the first to integrate the analysis of the language of spoken and written texts It describes language as a network of functional relations involving a context which is also a network of functional relations The essays in Part One present several perspectives on the theory of language as functional relations those in Part Two discuss a single oral text using a variety of functional perspectives All of the essays are by linguists interested in oral and written texts who have achieved international recognition in their fields Illustrated in this book are cognitive social construction social praxis and anthropological approaches to the description of text

Thematic Structure and Para-Syntax: Arabic as a Case Study James Dickins, 2020-03-05 Thematic Structure and Para Syntax Arabic as a Case Study presents a structural analysis of Arabic providing an alternative to the traditional notions of theme and rheme Taking Arabic as a case study this book claims that approaches to thematic structure propounded in universalist linguistic theories of which Hallidayan systemic functional linguistics is taken as an illustrative example are profoundly wrong It argues that in order to produce an analysis of thematic structure and similar phenomena which is not undermined by its own theoretical presuppositions it is necessary to remove such notions from the domain of linguistic and semiotic theory The book initially focuses on Sudanese Arabic because this allows for a beautifully clear exposition of general principles before applying these principles to Modern Standard Arabic and some other Arabic varieties This book will be of interest to scholars in Arabic linguistics linguistic theory and information structure

What is the Matter with Communicative Competence? Reinhold Peterwagner, 2005 This book integrates recent findings of linguistic research into ELT Its aim is to introduce future teachers to the complex concept of communicative competence to critically analyse learners teaching learning deficiencies in the light of the requirements they are expected to meet at the school leaving exams or at university entry to offer suggestions about how to remedy these shortcomings and also to provide teaching and testing materials
