## **Nobody Gave Me Permission Memoirs Of A Harlem Activist:**

Nobody Gave Me Permission Ora Mobley Sweeting, 2000 This book is a fascinating account of a black woman's career and personal life as a noted human rights activist and freedom fighter in Harlem New York City from the early 1950s until the late 1980s It delicately portrays the development of Harlem as the northern hub of an urban based and international rights movement while carefully highlighting critical social developments as decentralization of local schools and renaming of public institutions such as hospitals for distinguished black leaders The pulse of emotional times are well documented like the Black Consciousness period of the 1960s when urban riots engulfed America's cities in New York Washington D C Newark Detroit and Watts Los Angeles Pivotal figures who made an indelible stamp during this epoch are highlighted such as Adam Clayton Powell the controversial congressman and Malcolm X Ora knew and consulted closely with these leaders She was elected to the first independent New York City School Board in 1970 and played a pivotal role in the tumultuous struggle for local control of education resources and self governance that underscored the decentralization movement In the meantime against the wishes of the political establishment she spearheaded in Harlem the effort to elect as mayor the Republican moderate candidate John V Lindsay This personalized and insightful work is a valuable primer for understanding the intricacies in the development of people whose actions have an impact on the national and international scene but maintaining at the same time faith with the view that all politics is local

*To Stand and Fight* Martha Biondi, 2009-06-30 The story of the civil rights movement typically begins with the Montgomery bus boycott of 1955 and culminates with the 1965 voting rights struggle in Selma But as Martha Biondi shows a grassroots struggle for racial equality in the urban North began a full ten years before the rise of the movement in the South This story is an essential first chapter not only to the southern movement that followed but to the riots that erupted in northern and western cities just as the civil rights movement was achieving major victories Biondi tells the story of African Americans who mobilized to make the war against fascism a launching pad for a postwar struggle against white supremacy at home Rather than seeking integration in the abstract black New Yorkers demanded first class citizenship jobs for all affordable housing protection from police violence access to higher education and political representation This powerful local push for economic and political equality met broad resistance yet managed to win several landmark laws barring discrimination and segregation To Stand and Fight demonstrates how black New Yorkers launched the modern civil rights struggle and left a rich legacy
