Nobody Dies In A Casino:

Nobody Dies in a Casino Marlys Millhiser, 2013-05-07 Charlie stay out of this Vegas may be a great place to have fun but it s a bad place to get involved If only she s listened to her conscience But literary agent Charlie Greene never listens This time Charlie needs a break She s overworked at the office and at home between placating crotchety clients trying to sell books during tough times and dealing with her teenage daughter and widowed mother So vacationing in Las Vegas sounds like heaven until she witnesses a murder on the Las Vegas strip But just as she decides to let it go the ante is upped when the only cop who hears her eyewitness account is killed in an accident Before Charlie s vacation is over this complex and marvelously drawn case will involve corrupt casino owners and their henchmen a foolishly arrogant film director a psychic gambler and an oddball assortment of characters obsessed with Area 51 All in all it s Marlys Millhiser and Charlie Greene and her overactive conscience at their quirky best Mystery Women, Volume Three (Revised) Colleen Barnett, 2010-12-31 Like other fictional characters female sleuths may live in the past or the future They may represent current times with some level of reality or shape their settings to suit an agenda There are audiences for both realism and escapism in the mystery novel It is interesting however to compare the fictional world of the mystery sleuth with the world in which readers live Of course mystery readers do not share one simplistic world They live in urban suburban and rural areas as do the female heroines in the books they read They may choose a book because it has a familiar background or because it takes them to places they long to visit Readers may be rich or poor young or old conservative or liberal So are the heroines What incredible choices there are today in mystery series This three volume encyclopedia of women characters in the mystery novel is like a gigantic menu Like a menu the descriptions of the items that are provided are subjective Volume 3 of Mystery Women as currently updated adds an additional 42 sleuths to the 500 plus who were covered in the initial Volume 3 These are more recently discovered sleuths who were introduced during the period from January 1 1990 to December 31 1999 This more than doubles the number of sleuths introduced in the 1980s 298 of whom were covered in Volume 2 and easily exceeded the 347 series and some outstanding individuals described in Volume 1 which covered a 130 year period from 1860 1979 It also includes updates on those individuals covered in the first edition changes in status short reviews of books published since the first edition through December 31 2008 Killer Commute Marlys Millhiser, 2000-10-14 Another fabulous addition to Millhiser s acclaimed series Killer Commute is a comical ride through a mystery sure to be a smash with both long time fans and those just making Charlie Greene s acquaintance Recovering from last year s Las Vegas trip from hell Long Beach literary agent Charlie Greene is looking forward to spending this year s vacation at home No manuscript reading no needy clients no killer commute for a whole week just some good old fashioned rest and relaxation But before Charlie s peaceful vacation even starts her daughter s rambunctious cat Tuxedo causes her to stumble across the body of neighbor Jeremy Fielder murdered in the front seat of his truck And investigating officers are quick to remind Charlie that this isn t her first

dead body Now their quiet Southern California suburban community is becoming more hectic than rush hour on the L A freeway as Charlie and her zany neighbors face off against nosy police officers insatiable reporters and a killer determined to drive them away **Crime Fiction and Film in the Southwest** Steve Glassman, Maurice J. O'Sullivan, 2001 When Joe Leaphorn and Jim Chee Tony Hillerman's oddly matched tribal police officers patrol the mesas and canyons of their Navajo reservation they join a rich tradition of Southwestern detectives In *Crime Fiction and Film in the Southwest* a group of literary critics tracks the mystery and crime novel from the Painted Desert to Death Valley and Salt Lake City In addition the book includes the first comprehensive bibliography of mysteries set in the Southwest and a chapter on Southwest film noir from Humphrey Bogart's tough hood in *The Petrified Forest* to Russell Crowe's hard nosed cop in *L A Confidential*

Students, Not Bad Schools Robert Weissberg,2019-01-22 Americans are increasingly alarmed over our nation s educational deficiencies Though anxieties about schooling are unending especially with public institutions these problems are more complex than institutional failure Expenditures for education have exploded and far exceed inflation and the rising costs of health care but academic achievement remains flat Many students are unable to graduate from high school let alone obtain a college degree And if they do make it to college they are often forced into remedial courses Why despite this fiscal extravagance are educational disappointments so widespread In Bad Students Not Bad Schools Robert Weissberg argues that the answer is something everybody knows to be true but is afraid to say in public America s educational woes too often reflect the demographic mix of students Schools today are filled with millions of youngsters too many of whom struggle with the English language or simply have mediocre intellectual ability Their lackluster performances are probably impervious to the current reform prescriptions regardless of the remedy s ideological derivation Making matters worse retention of students in school is embraced as a philosophy even if it impedes the learning of other students Weissberg argues that most of America s educational woes would vanish if indifferent troublesome students were permitted to leave when they had absorbed as much as they could learn they would quickly be replaced by learning hungry students including many new immigrants from other countries American education survives since we import highly intelligent technically skillful foreigners just as we import oil but this may not last forever When educational establishments get serious about world class mathematics and science and permit serious students to learn problems will dissolve Rewarding the smartest not spending

fortunes in a futile quest to uplift the bottom should become official policy This book is a bracing reminder of the risks of political manipulation of education and argues that the measure of policy should be academic achievement
