**The Racial Contract** Charles W. Mills, 2014-05-29 The Racial Contract puts classic Western social contract theory deadpan to extraordinary radical use With a sweeping look at the European expansionism and racism of the last five hundred years Charles W Mills demonstrates how this peculiar and unacknowledged contract has shaped a system of global European domination how it brings into existence whites and non whites full persons and sub persons how it influences white moral theory and moral psychology and how this system is imposed on non whites through ideological conditioning and violence The Racial Contract argues that the society we live in is a continuing white supremacist state Holding up a mirror to mainstream philosophy this provocative book explains the evolving outline of the racial contract from the time of the New World conquest and subsequent colonialism to the written slavery contract to the separate but equal system of segregation in the twentieth century United States According to Mills the contract has provided the theoretical architecture justifying an entire history of European atrocity against non whites from David Hume's and Immanuel Kant's claims that blacks had inferior cognitive power to the Holocaust to the kind of imperialism in Asia that was demonstrated by the Vietnam War Mills suggests that the ghettoization of philosophical work on race is no accident This work challenges the assumption that mainstream theory is itself raceless Just as feminist theory has revealed orthodox political philosophy's invisible white male bias Mills's explication of the racial contract exposes its racial underpinnings Claude McKay, Rebel Sojourner in the Harlem Renaissance Wayne F. Cooper, 1996-02 Cooper paints a meticulous and absorbing portrait of McKay's restless artistic intellectual and political odyssey The definitive biography on McKay Choice Although recognized today as one of the genuine pioneers of black literature in this century the author of If We Must Die Home to Harlem Banana Bottom and A Long Way from Home among other works Claude McKay 1890-1948 died penniless and almost forgotten in a Chicago hospital In this masterly study Wayne Cooper presents a fascinating detailed account of McKay's complex chaotic and frequently contradictory life In his poetry and fiction as well as in his political and social commentaries McKay searched for a solid foundation for a valid black identity among the working class cultures of the West Indies and the United States He was an undeniably important predecessor to such younger writers of the Harlem Renaissance as Langston Hughes and Countee Cullen and also to influential West Indian and African writers such as C L R James and Aim C saire Knowledge of his life adds important dimensions to our understanding of American radicalism the expatriates of the 1920s and American literature Mr Cooper's most original contribution is his careful and perceptive analysis of McKay's nonfiction writing especially his social and political commentary which often contained prophetic statements on a range of important social political and historical issues New York Times Book Review **Black American Writers, Bibliographical Essays, vol 2: Richard Wright, Ralph Ellison, James Baldwin & Amiri Baraka** NA NA, 2015-12-22 **Democracy's Literature** Patrick J. Deneen, Joseph Romance, 2005-07-28 American literature is profoundly almost inescapably political America's most thoughtful authors long

ago realized that it was through the novel the novella and the story that philosophic education of America's citizens would best be undertaken In this fascinating new anthology of original essays ten leading scholars explore the ways in which American civic education has been informally advanced through literature Delving into the works of authors ranging from Mark Twain to William Faulkner to Octavia Butler these essays reflect on the close relationship between democracy and literature They convey an understanding that the greatest American literary works are also works of profound philosophical insight Through careful analysis Democracy's Literature illustrates that democracy and literature are natural partners forging a relationship that America's greatest authors have long realized in their subtle efforts to craft a democratic public philosophy

**Normalcy Never Again** A. Christian van Gorder, Lewis T. Tait, 2025-03-31 Stock worn exhausted and generalized diatribes against racism litter the American horizon Instead of reiterating these arguments the authors of Normalcy Never Again share fresh constructive and proactive perspectives in hopes of reinvigorating our nation's ongoing conversation about racist oppression This book is at times personal and painfully honest but it is always passionate about telling the truth and forging pathways forward through specific challenges met with Afrocentric solutions Readers will gain not only a renewed challenge rooted in heuristic insights but also a greater degree of historical insight intercultural understanding and sturdy non artificial hope

**Amiri Baraka** Jerry Watts, 2001-08 In a chapter sure to prove controversial Watts links Baraka's famous misogyny to an attempt to bury his own homosexual past

**Anticolonial Form** Alexandra Reza, 2024-01-24 Anticolonial Form Literary Journals at the End of Empire addresses the relationship between culture and politics in two journals published in Europe by African writers Presence Africaine launched in Paris in 1947 and Mensagem published between 1948 and 1964 in Lisbon Grounded in extensive archival work the book argues for a comparative and transnational approach to postcolonial literary studies for the significance of the literary journal as a key form in the development of African writing in French Portuguese and English and for a historically and geographically contingent understanding of the relationships between literature culture and politics This book takes up the idea of articulation to bring forward the contingent and fugitive connections that networks of literary journals fostered between francophone anglophone and lusophone writers in the conjuncture of decolonization in the 1950s and 1960s It argues that comparison as a praxis and a method was central to the anticolonial charge of those journals on whose pages we see an iterative back and forth between writing from and about different parts of the colonial world a recursive effort to establish how ideas and analyses developed in one part of the colonial world could travel and be adopted and adapted in others Many scholars have argued convincingly that the institutionalized practice of comparison in the academic field of comparative literature is itself imbricated with histories of colonialism Reza's argument takes on a particular significance in the context of that critique as the anticolonial comparison on which she focuses offers a different tradition of relational praxis from which to think about connection and comparison itself
