parallel passages as perfectly deliberate rather than composer errors to be standardized Among the multiplicity of sources consulted are piano roll recordings of three of the Nocturnes by the composer himself A new edition of Faur s Thirteen Nocturnes has long been needed to clean up literally hundreds of old misprints and dubieties Indeed towards the end of his life Faur prepared a corrected edition of his first eight Nocturnes but this went so badly wrong that he tried just before he died to block its publication Undeterred the publisher concerned Hamelle issued it in that state in 1924 and that s what s been available since cluttered since the 1950s by editorial fingering The new London Peters edition which replaces the Leipzig one has compared all known manuscripts and prints from Faur s lifetime along with some piano rolls recorded by Faur and memoirs and scores marked up by pianists who worked with him A few of Faur s own printed copies survive showing numerous written corrections by him that never made it into the 1924 re edition and which are now printed for the first time The preface includes some performing advice that can be traced back to Faur it bears out his wish to have his music played in time and up to
