Noir, Now and Then Ronald Schwartz, 2001-06-30 This examination of the cinematic style of film noir originals and their neo noir remakes compares thirty five films beginning with Billy Wilder's classic *Double Indemnity* and concluding with Jim McBride's *Breathless*. In depth analysis of the films explain the qualities and characteristics of film noir while providing critical readings of both the originals and the remakes. The most significant films since 1944 are reviewed and reveal the ever changing values in American society. As this study reveals the noir style significantly impacted American film and neo noir remakes attest to its continued popularity in cinematic art. This work will appeal to film scholars and to fans of film noir. Filmographies and video information follow each chapter. Appendices briefly explain the roots of many noir films discussed in the text along with their subsequent remakes.

Film Noir Homer B. Pettey, 2014-11-11 Explores the development of film noir as a cultural and artistic phenomenon. This book traces the development of what we know as film noir from the proto noir elements of Feuillade's silent French crime series and German Expressionism to the genre's mid twentieth century popularization and influence on contemporary global media. By employing experimental lighting effects, oblique camera angles, distorted compositions and shifting points of view, film noir's style both creates and comments upon a morally adumbrated world where the alienating effects of the uncanny, the fetishistic and the surreal dominate. What drew original audiences to film noir is an immediate recognition of this modern social and psychological reality. Much of the appeal of film noir concerns its commentary on social anxieties, its cynical view of political and capitalist corruption and its all too brutal depictions of American modernity. This book examines the changing, often volatile shifts in representations of masculinity and femininity as well as the genre's complex relationship with Afro American culture, observable through noir's musical and sonic experiments. Key features: Traces the history of film noir from its aesthetic antecedents through its mid century popularization to its influence on contemporary global media. Discusses the influence of literary and artistic sources on the development of film noir. Includes extensive bibliographies, filmographies and recommended noir film viewing. Concludes with a reflective chapter by Alain Silver and James Ursini on their own influential studies and collections on film noir criticism.
