**Nomads and Empire Builders** Carleton Beals, 1961      **The Rebel Scribe** Christopher Neal, 2022-01-27

Carleton Beals was among America's most distinctive foreign correspondents. His colorful, combatively critical reporting of U.S. intervention in Latin America had a fearless energy and authority that won him millions of readers. He interviewed the Nicaraguan rebel leader Sandino in the camp from which he fought thousands of U.S. marines in 1928, covered two revolutions in Cuba in 1933 and 1959, and interpreted the Mexican Revolution for American readers. Beals's dispatches and features appeared regularly in the *Nation*, *New Republic*, *Current History*, and the *Progressive*, and often in the *New York Times*. *Time* magazine called him the best informed and the most awkward living writer on Latin America. Forty books, including chronicles, political analysis, and novels drawn mostly from his travels and wide-ranging contacts in what he called America South, made that characterization apt. But Beals was also an eyewitness reporter on Mussolini's rise in Italy. He wrote on U.S. topics too, such as Louisiana's Huey Long and the environmental damage and rural migration in the 1930s caused by emerging agribusiness in America's South and West. Many of his books were best sellers, their evidence-based assessments earning at least grudging respect even among those who took issue with his indictments of U.S. economic and government elites. At once biography and analytical history, *The Rebel Scribe* tells the story of a fiercely independent nonconformist. It probes Beals's interactions with political leaders, democrats, demagogues, populists, and revolutionaries and reveals how his ability to immerse himself in their societies gave his accounts a palpable authenticity and time has shown a prescience that is almost prophetic. Christopher Neal's layered narrative traces how Beals identified patterns of political behavior and concepts that later became fully fledged schools of thought, such as the idea of a Third World dependency theory, U.S. neo-imperialism, and aspects of critical theory. His story sheds light on the evolution of U.S. foreign policy and intervention from Mexico and Nicaragua in the 1920s to Cuba and Vietnam in the 1960s. It reveals the fraught trail that faced and still faces contrarian journalists who challenge conventional assumptions while also showing how probing journalism drives change.

[In the Shadow of Quetzalcoatl](#) Merilee Grindle, 2023-11-07

The gripping story of a pioneering anthropologist whose exploration of Aztec cosmology, rediscovery of ancient texts, and passion for collecting helped shape our understanding of pre-Columbian Mexico. Where do human societies come from? The drive to answer this question inspired a generation of archaeologists and treasure seekers who, following Darwin, began to look beyond the Bible for the origins of civilizations. Proud, disciplined, ferociously territorial, the inimitable Zelia Nuttall threw herself into the study of Mexico's past, eager to bring the tools of science to the study of ancient civilizations. A child of the San Francisco Gold Rush, Zelia immersed herself in the tales of conquistadores and pored through records of the Inquisition. She knew Nahuatl, the language of the Aztec and Toltec, and was skilled at deciphering their pictographic stories. She was also conversant with their gods and myths, as well as the stars by which they regulated their rituals and other activities. The first to fully decode the Aztec calendar stone, Zelia Nuttall was a protégé of Frederick

Putnam who offered her a job at Harvard's Peabody Museum But as a divorced mother with a dwindling fortune she preferred to live in Mexico her mother's birthplace where she became a vital bridge between Mexican and American anthropologists through war and revolution The first biography of a true original In the Shadow of Quetzalcoatl reveals how from the 1880s to the 1930s scholar collectors like Zelia Nuttall shaped America's museums Merilee Grindle captures the appeal and contradictions of this trailblazing woman who contributed so much to the new field of anthropology until a newly professionalized generation trained in universities overshadowed her remarkable achievements **Giants, Fallen Angels, and the Return of the Nephilim** Dennis Lindsay, 2018-08-21 Read this book and have your eyes opened to the end time shifts that await mankind *U.S. Geological Survey Bulletin*, 1983 **Gazetteer of Planetary Nomenclature 1994** Geological Survey (U.S.), 1995 Information about all names of topographic and albedo features on planets and satellites that the International Astronomical Union has approved from its founding in 1919 through its triennial meeting in 1994 World Military History Annotated Bibliography Barton Hacker, 2004-12-01 Military institutions and methods of warfare in the non Western world from antiquity through the early 20th century provide the chief subjects of this annotated bibliography of works published before 1967 Especially rich in references to periodical literature it emphasizes military organization and relationships between military and other social institutions rather than wars and battles The bibliography comprises seven parts 1 general and comparative topics including works on the social cultural and biological causes of war 2 the ancient world 3 western Eurasia since antiquity 4 eastern Eurasia since antiquity 5 sub Saharan Africa and Oceania 6 pre Columbian America and 7 Indians in post contact America **Travelers' Tales Brazil** Annette Haddad, Scott Doggett, 2004 With stories ranging from delightful to funny to cautionary and inspiring these tales about Brazil explore the many facets of the country from the biggest freshwater fish and the rivers they live in to the world's largest jungle Illustrations maps **Catalog of the Latin American Collection** University of Texas at Austin.
