Ages and Abilities: The Stages of Childhood and their Social Recognition in Prehistoric Europe and Beyond

Katharina Rebay-Salisbury, Doris Pany-Kucera, 2020-10-08 This volume explores social responses to stages of childhood from the late Neolithic to Classical Antiquity in Central Europe and the Mediterranean Comparing osteological and archaeological evidence as well as integrating images and texts authors consider whether childhood age classes are archaeologically recognizable The Ambivalence of Scarcity and Other Essays Paul Dumouchel, 2014-10-01 First published in French in

1979 The Ambivalence of Scarcity was a groundbreaking work on mimetic theory Now expanded upon with new specially written and never before published conference texts and essays this revised edition explores Ren Girard s philosophy in three sections economy and economics mimetic theory and violence and politics in modern societies The first section argues that though mimetic theory is in many ways critical of modern economic theory this criticism can contribute to the enrichment of economic thinking The second section explores the issues of nonviolence and misrecognition m connaissance which have been at the center of many discussions of Girard s work The final section proposes mimetic analyses of the violence typical of modern societies from high school bullying to genocide and terrorist attacks Politics Dumouchel argues is a violent means of protecting us from our own violent tendencies and it can at times become the source of the very savagery from which it seeks to protect us The book s conclusion analyzes the relationship between ethics and economics opening new avenues of research and inviting further exploration Dumouchel s introduction reflects on the importance of Ren Girard s work in relation to ongoing research especially in social sciences and philosophy **Catalogue of the Colonial Office Library,**
