Nomads Of Eurasia:

Nomads of Eurasia Vladimir Nikolaevich Basilov,1989 Describes the lives of the nomadic peoples who traveled along the Silk Road and shows examples of their rugs clothing household furnishings and weaponry **Nomads of Eurasia** Vladimir N. Basilov,1989-01-01 **Peoples of the Steppe** David Curtis Wright,1998-01-01 The Role of Migration in the History of the Eurasian Steppe NA NA,2016-04-30 Throughout their entire history the sedentary civilizations of China and Europe had to deal with nomads and barbarians This unique volume explores their drastically different responses China chose containment while Europe chose expansion Migration played a crucial role in this interaction Issuing from two population centers the sedentary one in the West and the nomadic one in the East two powerful population streams confronted each other in the Eurasian Steppe This confrontation was a crucial factor in determining patterns of Eurasian history it destroyed existing states created new ones and drastically changed the balance of power Even today while Russian populations in Asia contract the population pressures in China and Central Asia continue to build and are likely to spill over across the border This book shows how we are witnessing the beginning of a new cycle of the age old contest **Ancient Nomads of the Eurasian and North American Grasslands** Elena Ponomarenko,Ian G. Dyck,2007 Nomadic lifestyles dependent on herd animals developed independently on the grasslands of Eurasia and North America about 5 000 years ago The landscapes that these peoples occupied were generally similar but the basis of their nomadism was quite different Eurasian steppe nomads relied on domestic sheep goats cattle and horses for their subsistence and on horses cattle and to a limited extent camels for their travel North American prairie nomads relied on wild bison for subsistence and on themselves and dogs for travel In comparing the two lifestyles this study shows that certain features such as the use of circular portable dwellings seasonal rhythms of movement and minimalist material cultures were quite similar but other features such as the use of metals access to urban civilizations the nature and scale of warfare and overall population sizes were very different Yet both kinds of nomadism dominated their respective landscapes until being supplanted by European or EuroAmerican expansionism between about 300 to 150 years ago *Nomads and Sedentary Societies in Medieval Eurasia* Peter B. Golden,1998 **History of Civilizations of Central Asia** Ahmad Hasan Dani,János Harmatta,1999-01-01 Nomads in the Sedentary World Anatoly M. Khazanov,Andre Wink,2012-10-12 Studies the role played by nomads in the political linguistic socio economic and cultural development of the sedentary world around them Spans regions from Hungary to Africa India and China and periods from the first millennium BC to early modern times **Routledge Handbook of the Global History of Warfare** Kaushik Roy,Michael W. Charney,2024-01-23 This handbook examines key aspects of the development of the global history of warfare and the changing patterns of warfare over time Although scholarship has long eschewed a chronological narrative of the evolution of warfare that privileges the Western experience global histories of warfare have had difficulty avoiding an overemphasis on the West The present volume is a collection of themes rather than a history per se it provides

important perspectives on the emergence of warfare as a global historical experience from the ancient past to the present day Drawing together numerous experts it tells a broader more inclusive story of the global human experience with wars and warfare The 35 chapters are organised in eight thematic parts Part I Origins of Warfare Part II Politics and Armed Forces in the Pre Modern Era Part III Steppe Nomads of Eurasia Part IV Naval Warfare and Piracy in the Pre Industrial World Part V The Impact of Gunpowder Part VI Transition from Industrial to Total War Part VII Wars of Decolonisation and Cold War Part VIII Postmodern New Wars These Parts offer an overview of the global experience of warfare to help readers understand how the wars and the militaries we see today have been shaped by historical developments across the globe This handbook will be of great interest to students of military history naval history strategic studies and world history in general

Fitful Histories and Unruly Publics: Rethinking Temporality and Community in Eurasian Archaeology, 2016-09-27 Fitful Histories and Unruly Publics re examines the relationship between Eurasia s past and its present by interrogating the social construction of time and the archaeological production of culture Traditionally archaeological research in Eurasia has focused on assembling normative descriptions of monolithic cultures that endure for millennia largely immune to the forces of historical change The papers in this volume seek to document forces of difference and contestation in the past that were produced in the perceptible engagements of peoples things and places The research gathered here convincingly demonstrates that these forces made social life in ancient Eurasia rather more fitful and its publics considerably more unruly than archaeological research has traditionally allowed Contributors are Mikheil Abramishvili Paula N Doumani Dupuy Magnus Fiskesj Hilary Gopnik Emma Hite Jean Luc Houle Erik G Johannesson James A Johnson Lori Khatchadourian Ian Lindsay Maureen E Marshall Mitchell S Rothman Irina Shingiray Adam T Smith Kathryn O Weber and Xin Wu

The Golden Deer of Eurasia Metropolitan Museum of Art (New York, N.Y.), 2000 Spectacular works of art were excavated between 1986 and 1990 from burial mounds at Filippovka in Russia on the border of Europe and Asia The objects were created from about the fifth to the fourth century B C by pastoral people who lived on the steppes near the southern Ural Mountains The large funerary deposits include wooden deerlike creatures with predatory mouths and elongated snouts and ears overlaid with sheets of gold and silver as well as gold attachments for wooden vessels and gold and silver luxury wares imported from Achaemenid Iran These treasures are now in the collection of the Archaeological Museum Ufa in the Russian republic of Bashkortostan The discoveries at Filippovka open a new chapter in the history of the material culture of the nomads who in the first millennium B C traversed the steppe corridor extending from the Black Sea region to China Yet the information provided by the Filippovka excavations is complicated and ambiguous The identity of the people represented by the finds remains uncertain but the forms and ornamentation of many works from Filippovka as well as the cemetery's location in the southern Urals argue for the cultural chronological designation of this material as Early Sarmatian Stylistic features however point also to the arts of Siberia Central Asia and China in the east and to the art of the Meotian Scythians in the west Imported Achaemenid goods raise questions about their place of production and about the circumstances that brought them to be included in tombs on the southern Ural steppes Finally robbers penetrated the burials in antiquity destroying much of the evidence necessary for understanding the Filippovka nomads religious and funerary practices These are among the issues addressed in this volume the catalogue for an exhibition at The Metropolitan Museum of Art that brings together the remarkable new material from Filippovka and from the incomparably rich collections of the State Hermitage Saint Petersburg related luxury objects found in graves of other Eurasian steppe tribes Gold and silver objects from the Scythian Black Sea tombs textiles and leather and wooden works from the Altai Mountains and gold and bronze pieces from the Caucasus Central Asia and Siberia illustrate developments in the art of the steppes in the centuries preceding the Filippovka burials in contemporary societies and in later centuries toward the turn of the first millennium B C These outstanding works not only place the Filippovka discoveries in their proper historical and cultural context but are themselves fascinating and enigmatic
