Nominalism And Literary Discourse New Perspectives Critical Studies 1:

Nominalism and Literary Discourse, 2021-11-01 Influential accounts of European cultural history variously suggest that the rise of nominalism and its ultimate victory over realist orientations were highly implemental factors in the formation of Modern Europe since the later Middle Ages but particularly the Reformation Quite probably this is a simplification of a state of affairs that is in fact more complex indeed ambiguous However if there is any truth in such propositions which have after all been made by many prominent commentators such as Panofsky Heer Blumenberg Foucault Eco Kristeva we may no doubt assume that literary texts will have responded and in turn contributed in a variety of ways to these processes of cultural transformation It seems of considerable interest therefore to take a close look at the complex precarious position which literature as basically a symbolic mode of signification held in the perennial struggles and discursive negotiations between the semiotic twin paradigms of nominalism and realism This collection of essays many of them by leading scholars in the field is a first comprehensive attempt to tackle such issues by analyzing representative literary texts in terms of their underlying semiotic orientations specifically of nominalism but also by studying pertinent historical theoretical and discursive co n texts of such developments in their relation to literary discourse At the same time since literary nominalism and realism are conceived as fundamentally aesthetic phenomena instantiating a genuinely literary debate over universals consistent emphasis is placed on the discursive dimension of the texts scrutinized in an endeavour to re orient and consolidate an emergent research paradigm which promises to open up entirely new perspectives for the study of literary semiotics as well as of aesthetics in general Historical focus is provided by concentrating on the English situation in the era of transition from late medieval to early modern c 1350 1650 but readers will also find contributions on Chr tien de Troyes and Rabelais as well as on the aftermath of the earlier debates as exemplified in studies of Locke and post modern critical altercations respectively which serve to point up the continuing relevance of the issues involved A substantial introductory essay seeks to develop an overarching theoretical framework for the study of nominalism and literary discourse in addition to offering an in depth exploration of the nominalism realism complex in its relation to literature An extensive bibliography and index are further features of interest to both specialists and general readers

Biblical Readings and Literary Writings in Early Modern England, 1558-1625 Victoria Brownlee, 2018-03-30 The Bible had a profound impact on early modern culture and bible reading shaped the period s drama poetry and life writings as well as sermons and biblical commentaries This volume provides an account of the how the Bible was read and applied in early modern England It maps the connection between these readings and various forms of writing and argues that literary writings bear the hallmarks of the period s dominant exegetical practices and do interpretative work Tracing the impact of biblical reading across a range of genres and writers the discussion demonstrates that literary reimaginings of and allusions to the Bible were common varied and ideologically evocative The book explores how a series of popularly interpreted biblical narratives were recapitulated in the work of a

diverse selection of writers some of whom remain relatively unknown In early modern England the figures of Solomon Job and Christ's mother Mary and the books of Song of Songs and Revelation are enmeshed in different ways with contemporary concerns and their usage illustrates how the Bible's narratives could be turned to a fascinating array of debates In showing the multifarious contexts in which biblical narratives were deployed this book argues that Protestant interpretative practices contribute to and problematize literary constructions of a range of theological political and social debates Seeing Through the Veil Suzanne Conklin Akbari, 2004-01-01 During the later Middle Ages new optical theories were introduced that located the power of sight not in the seeing subject but in the passive object of vision This shift had a powerful impact not only on medieval science but also on theories of knowledge and this changing relationship of vision and knowledge was a crucial element in late medieval religious devotion In Seeing through the Veil Suzanne Conklin Akbari examines several late medieval allegories in the context of contemporary paradigm shifts in scientific and philosophical theories of vision After a survey on the genre of allegory and an overview of medieval optical theories Akbari delves into more detailed studies of several medieval literary works including the Roman de la Rose Dante's Vita Nuova Convivio and Commedia and Chaucer's dream visions and Canterbury Tales The final chapter Division and Darkness centres on the legacy of allegory in the fifteenth century Offering a new interdisciplinary synthetic approach to late medieval intellectual history and to major works within the medieval literary canon Seeing through the Veil will be an essential resource to the study of medieval literature and culture as well as philosophy history of art and history of science She, this in Blak Thomas Hill, 2013-10-18 She This in Blak takes a fresh look at Chaucer's great Trojan romance Troilus and Criseyde in light of recent scholarship on late scholastic discourses on representation and causality as they pertain to human perception and judgment This study also contributes to a growing literature on the impact of scholastic psychological theory upon contemporary cultural forms by examining the way in which late medieval accounts of perception and cognition can illuminate the construction of the poem's subjects including one of the most compelling and controversial figures in medieval literature Chaucer's Criseyde By examining Chaucer's depiction of Troilus Pandarus and Criseyde within this contemporary cultural context She This in Blak offers a better grounded and more historically illuminating view of the poem than is provided by psychological readings based on modern constructions of intentionality **"She, this in Blak"** Thomas Edward Hill, 2006 Publisher description

C. Spearing,2005-10-27 This book investigates how subjectivity is encoded in the texts of a wide variety of medieval narratives and lyrics not how they express the subjectivity of individuals but how subjectivity escaping the bounds of individuality is incorporated in the linguistic fabric of their texts Most of the poems

discussed are in English and the book includes analyses of Chaucer's *Troilus and Criseyde*, *Man of Law's Tale* and *Complaint Unto Pity*, the works of the Pearl poet, *Havelok the Dane*, the lyric sequence attributed to Charles of Orleans, the earliest such sequence in English and many anonymous poems. It also devotes sections to Ovid's *Heroides* and to poems by the troubadour Bernart de Ventadorn. For the first time it brings to bear on medieval narratives and lyrics a body of theory which denies the supposed necessity for literary texts to have narrators or speakers and in doing so reveals the implausibilities into which a dogmatic assumption of this necessity has led much of the last century's criticism.

Allegorie Ulla Haselstein, 2016-06-06. Das Symposium resümiert Perspektiven auf die Allegorie im Anschluss an Benjamin und de Man und entwickelt sie weiter. Die Allegorie wird dabei als Reflexion des Zeichens im Zeichen aufgefasst. Mit selbstreflexiven Praktiken des Fragments, des Zitats, der Collage oder beispielsweise einer ironisch ausgestellten Metanarrativität und Metafiktionalität haben Moderne und Postmoderne zu einer Wiederkehr der Allegorie als analytischer Kategorie Anlass gegeben. Sie macht auch diejenigen Zeichenpraktiken neu lesbar, die zuvor als mimetisch begriffen worden sind. Der Schwerpunkt des Bandes liegt auf kulturwissenschaftlichen und historischen Fragestellungen. Themen sind u.a. die Allegorie als eine Technik des Erinnerns, Aneignens, Durchdringens und Berlagerns von Kulturen, die symbolische Selbstverständigung kultureller Kollektive mittels allegorischer Narrative, die Diskurse, in denen die Allegorie im Feld historischer Konkurrenzbegriffe diskutiert wird, allegorische Verfahren des Verrätsels und Verbergens im Sinne des Geheimnisses oder der Chiffre. Anhand exemplarischer Analysen von Texten, Bildern und multimedialen Inszenierungen werden die allegorischen Formen des Zeigens und Bedeutens in einem historisch je spezifischen sozialen Feld der Kunst und Kulturproduktion situiert.

perspectives and stakes of the field This book is an expert produced reliable and reader friendly orientation to the many new areas of research Latin American Studies now encompasses and evidence of the dynamism of this complex field
