1. INTRODUCTION

In the arena of international relations, interactions between states and the reflections of these interactions at the global level determine the complexity of contemporary world politics. In this context, the emergence of states and various actors with different ideologies, strategies and policies throughout history has deeply affected world politics. In this complexity, the Non-Aligned Movement has gained a unique position in the international relations scene and become an important stakeholder of this dynamic process. (Aghayarov, M. 2022)

The evolution of the Non-Aligned Movement throughout history has witnessed important periods of global politics and kept pace with changing dynamics. In the post-Cold War period, in an environment where polarization between the great powers reached its peak, the Non-Aligned Movement built its own identity by adopting the principle of neutrality. This identity aims to contribute to the international system by focusing on basic principles such as independence, peace and security. (Jazić, Z. 2005)

The main purpose of this article is to examine the Non-Aligned Movement from a broad perspective, its historical background, basic principles and effects on international politics in detail. In this context,

Non-Aligned Movement Summits Jovan Cavoški, 2022-05-19 Using newly declassified documents from Serbian British Indian Chinese Myanmar U S and Soviet archives Non Aligned Movement Summits shows how the Non Aligned Movement NAM gradually evolved into the third force of Cold War politics enveloping most of the post colonial and non bloc world Jovan Cavo ki follows the evolution of the NAM through its summits and other gatherings during which major political decisions pertaining to the destiny of the Third World were made These events were scrutinized by all major powers and had a corresponding effect on their policies From the Belgrade Conference in 1961 until 1989 all major Third World and non bloc nations met to demonstrate to the Eastern and Western Blocs that they were independent active

and respected participants in world affairs Cavo ki shows how these summits were also closely related to events occurring in the relationship between the two blocs providing opportunities for non bloc actors to influence the global balance of power By moving the focus of 20th century international history away from the bloc nations and instead giving developing nations in Africa and Asia due attention this book provides a fresh perspective on Cold War history and fills a significant gap in the literature It is an important study for all students and scholars of the Cold War and international history **Trends in Latin American International Relations** Peter Birle, Claudia Zilla, 2025-10-09 Since the beginning of US President Donald Trump's second term the already volatile international order has faced increasingly disruptive developments and fundamental challenges This volume outlines and analyses the role of Latin America as a whole and of individual countries including Argentina Brazil Chile Colombia and Mexico in the new global dis order The book is divided into three parts The first contains contributions on regional dynamics in Latin America What do global developments mean for Latin America's development options What are the consequences for Latin American regionalism Why have regional democracy clauses repeatedly proved ineffective The second part examines the role of external actors in Latin America the USA China the European Union and Russia The third section analyses the foreign policies of single states and asks what role concepts such as active non alliance and feminist foreign policy play for Latin America In their concluding remarks the editors analyse the potential consequences of Trump's policies for the topics covered in the volume after the first 100 days of his Administration The volume provides an up to date theory based examination of key issues in Latin American international relations and is essential reading for scholars students policymakers and others interested in Latin American international relations
