**Abstract**

The identification of NGOs that focus on integrated human development and encourage public participation particularly at the grass-root level has been a prominent feature in developing countries in the post-colonial era. Utilizing a qualitative methodology supplemented by secondary data, this article aims to assess the role of NGOs in stimulating development in post-1994 South Africa. While the developmental role of NGOs was limited during the apartheid era, the continuous social ills post the democratic era encompassing of unemployment,

Supporting Civil Society Laura Macdonald,2016-07-27 Many analysts are looking to non governmental organizations NGOs as the promoters of more equitable and democratic forms of development because of their status as actors in civil society Based on a critical evaluation of six rural development projects in Costa Rica and Nicaragua Supporting Civil Society shows that NGOs often perpetuate paternalism and dependency It is argued that both international and national NGOs need to support social movements which are best able to express the demands of people at the grassroots

Organizational Dimensions of Global Change David Cooperrider,Jane Dutton,1999-04-29 Organizational Dimensions of Global Change is the first book in a new series designed to facilitate across discipline and

national boundaries an emergent dialogue around the issue of global change and cooperative potential Written by an interdisciplinary group of leading scholars the book explores how organizational scholarship and thinking can inform an understanding of global change issues and examines the potential of cooperation as a practice an organizing accomplishment and as a value for understanding issues of global change It opens up conversations and research paths and addresses basic questions such as What do we mean by global change research What can organizational scholarship contribute to understanding the human dimensions of global change If we were to offer a priority agenda for research and inquiry what questions would we be asking and what kinds of research would have a high probability of making a large contribution to knowledge as well as a timely relevance for action Topics discussed include global women leaders corporations as agents of global change international networking the development of global environmental regimes and collaborative knowledge creation Organizational Dimensions of Global Change is an essential resource for students and scholars in the fields of organization and management science policy studies international relations and development studies earth systems science as well as the disciplines of sociology economics anthropology political science and psychology Legal and Organizational Practices in Nonprofit Management Pasquale Ferraro, 2021-10-25 Leaders of nonprofit organizations everywhere believe passionately in what they are doing They often put in long hours and with little or no remuneration they are willing to do everything and anything to further the work of their organizations In most Western countries nonprofit leaders have had easy access to myriad support agencies professional training and self help publications In developing countries this is not always the case The manager of a local regional or even national NGO rarely has formal training in the skills needed to manage efficiently Fortunately academic curricula designed specifically for the nonprofit sector are becoming more and more common in business schools around the world This development alone reflects the importance and validity that the sector has earned Governments everywhere are downsizing This process has inevitably shifted services that were once the province of government to non governmental entities If NGOs are to fill the void left by government they must not only achieve excellence in their substantive field but must also be capable of delivering services using sound business practices Otherwise they are doomed to failure The future of these organizations will depend upon their ability to manage their resources efficiently The topics covered in this volume among the first of its kind to be written by a European with extensive experience in developing and transition countries provide basic survival tactics for small organizations with limited staff and resources The practical advice given by the author will contribute to the sustainability of the many NGOs in developing and transition economy countries that are struggling to succeed under challenging odds African NGO Participation in Natural Resource Policy Reform J.
