Non Governmental Organizations And Health In Developing Countries:

Non-Governmental Organizations and Health in Developing Countries A. Green, A. Matthias, 1996-12-03 Non governmental organizations NGOs are increasingly recognised as playing a significant role in the health sector in developing countries This book examines the background to the growth both in the sector and interest in it the strengths and weaknesses of NGOs and the arguments for and against their use for different aspects of the health sector It focuses particularly on the relationship between the State and non governmental organizations and the issues critical to the development of policies towards the sector

Non-governmental Organizations and Health in Developing Countries Andrew Green, Ann Matthias, 1997 Non governmental organizations NGOs are increasingly recognised as playing a significant role in the health sector in developing countries This book examines the background to the growth both in the sector and interest in it the strengths and weaknesses of NGOs and the arguments for and against their use for different aspects of the health sector It focuses particularly on the relationship between the State and non governmental organizations and the issues critical to the development of policies towards the sector

Public Policy Toward Non-Governmental Organizations in Developing Countries William Jack, 2016 If a developing country government is not good at providing public services such as health care education and social protection would NGOs be better at doing so What advantages do NGOs have over for profit providers of publicly funded services And considering the importance of donor funding which is better for delivering such services an international NGO or a grassroots NGO Jack presents two descriptive models of nongovernmental organizations and poses normative questions about public policy toward NGOs In situations in which optimal government intervention in a distorted or inequitable economy employs an NGO like body he considers which kinds of NGO might be used First in many developing countries NGOs participate in the delivery of what are essentially private goods in particular health care and education In an economy without NGOs there may be good redistributive and efficiency reasons for the government to provide these goods in kind But if direct government provision of such services is ineffective or inefficient when is contracting out to an NGO like institution preferable to using a traditional for profit firm Another way to frame this is to ask What is the optimal taxation and regulation of private providers of publicly financed services NGOs also provide useful real and financial links with external donors They are used to provide services the government favors and donors are willing to fund In this model the service provider is chosen to yield the best outcome for both government and donor In this context Jack compares an international NGO and a grassroots organization It may be more efficient to transfer donor funds through an international NGO than through a local NGO but when donor government cooperation fails a project implemented by an international NGO is effectively killed If a project implemented by a local organization can limp along this otherwise less efficient organization might be preferred This paper product of Public Service Delivery Development Research Group is part of a larger effort in the group to understand the role of NGOs in delivering basic public services The author may be contacted

at wjj georgetown edu Non-Governmental Organizations and Development David Lewis, Nazneen Kanji, 2009-09-10 Non governmental organizations NGOs are high profile actors in the field of international development both as providers of services to vulnerable individuals and communities and as campaigning policy advocates This book provides a critical introduction to the wide ranging topic of NGOs and development Written by two authors with more than twenty years experience of research and practice in the field the book combines a critical overview of the main research literature with a set of up to date theoretical and practical insights drawn from experience in Asia Europe Africa and elsewhere It highlights the importance of NGOs in development but it also engages fully with the criticisms that the increased profile of NGOs in development now attracts Non Governmental Organizations and Development begins with a discussion of the wide diversity of NGOs and their roles and locates their recent rise to prominence within broader histories of struggle as well as within the ideological context of neo liberalism It then moves on to analyze how interest in NGOs has both reflected and informed wider theoretical trends and debates within development studies before analyzing NGOs and their practices using a broad range of short case studies of successful and unsuccessful interventions David Lewis and Nazneen Kanji then moves on to describe the ways in which NGOs are increasingly important in relation to ideas and debates about civil society globalization and the changing ideas and practices of international aid The book argues that NGOs are now central to development theory and practice and are likely to remain important actors in development in the years to come In order to appreciate the issues raised by their increasing diversity and complexity the authors conclude that it is necessary to deploy a historically and theoretically informed perspective This critical overview will be useful to students of development studies at undergraduate and masters levels as well as to more general readers and practitioners The format of the book includes figures photographs and case studies as well as reader material in the form of summary points and questions Despite the growing importance of the topic no single short up to date book exists that sets out the main issues in the form of a clearly written academically informed text until now *Public Policy Toward Non-governmental Organizations in Developing Countries* William Jack, 2001 If a developing country government is not good at providing public services such as health care education and social protection would NGOs be better at doing so What advantages do NGOs have over for profit providers of publicly funded services And considering the importance of donor funding which is better for delivering such services an international NGO or a grassroots NGO The Right to Health Judith Asher, 2010-11-11 The alarmingly low health status of millions of people in many developing countries is now recognised as a major obstacle to the process of development In response increasing numbers of non governmental organizations are championing the right to health of the disadvantaged vulnerable and those living in poverty They are using the right to health in their struggle for access to quality health services as well as the underlying determinants of health such as safe drinking water and adequate sanitation In other words the right to health and other fundamental human rights are seen as a way of promoting development In a clear style and accessible format this

unique timely and practical Manual shows health professionals their associations and other interested non governmental organizations some of the practical ways in which they can promote protect and monitor the right to health in their communities and countries It considers the obligations of states in relation to individuals within their borders as well as the human rights responsibilities of states beyond their borders As befits a human rights manual it has a particular preoccupation with the right to health of the vulnerable marginalized and otherwise disadvantaged groups and those living in poverty

Non-Governmental Organizations in World Politics Peter Willetts, 2010-12-15 Non governmental organizations NGOs from Amnesty International and Oxfam to Greenpeace and Save the Children are now key players in global politics This accessible and informative textbook provides a comprehensive overview of the significant role and increasing participation of NGOs in world politics Peter Willetts examines the variety of different NGOs their structure membership and activities and their complex relationship with social movements and civil society He makes us aware that there are many more NGOs exercising influence in the United Nations system than the few famous ones Conventional thinking is challenged in a radical manner on four questions the extent of the engagement of NGOs in global policy making the status of NGOs within international law the role of NGOs as crucial pioneers in the creation of the Internet and the need to integrate NGOs within mainstream international relations theory This is the definitive guide to this crucial area within international politics and should be required reading for students NGO activists and policy makers

Non-governmental Organizations (NGOs) and Sustainable Development in Sub-Saharan Africa Robert A. Dibley, 2008-01-01 Written to provide guidance for civil society organizations and their client groups this book examines the role of NGOs in the development processes on the African continent It raises questions about the influence of funding agencies over the NGOs they support and explores the challenges NGOs face The book argues that increased knowledge and cooperation on all parts is essential to achieve sustainable development This book also concludes that sustainable development activities are not beneficial to every community in Africa Taking into consideration globalization and studies of sub Saharan countries this book concludes that new models of leadership are necessary for the success of Africa and NGOs are a vital part of achieving that development
