Music

The background of the cover is a vibrant purple. It is decorated with various musical-themed illustrations in a lighter shade of purple. These include a large treble clef on the left, a violin in the upper center, an acoustic guitar in the lower center, a saxophone in the lower right, and several musical notes of different sizes scattered throughout. The word 'Music' is written in a large, green, cursive font with a slight 3D effect, positioned centrally over the illustrations.

Children's Books in Print, 2007 ,2006 **Teaching English for the Real World** Joe Nutt,2020-05-15 So much of the teaching in schools of how the English works does not prepare students for the real world So little has changed in exams the curriculum or the way people think about English teaching in several decades This book is Joe Nutt s attempt to help schools redress that dramatic imbalance It s not in any sense a practical teaching guide only for English teachers nor is it full of hints and tips lesson plans and schemes of work Teaching English for the Real World is a far wider consideration of what schools and English teachers should be doing if they wish to prepare secondary school children to be successful and effective users of English in the real world of work higher education and adult life they will all too soon enter If you are an English teacher by the time you finish reading Teaching English for the Real World you should be better prepared to deliver lessons that those you teach will forever be grateful for The book consists of four main sections English in context towards the GCSE choosing texts and technology matters It starts by putting English clearly into context through a range of current examples It urges teachers to consider the complex role English usage plays on everything from the side of a bus through tissue thin social media garish slideshows and perky TED talks to the hundreds of pages of research or official reports so often used as the basis for serious political policy and commercial decision making It will then examine the classroom status quo and instead of the unrealistic and damaging focus on experiment and creativity instead of requiring them to write newspaper articles stories or speeches the main deliverables in any English GCSE exam the book will argue that teachers should think carefully about how to connect what children write with who they are and where they really want to publish The next section deals with choices of texts There is a place for children to be taught to write well by example but there are challenging questions to ask about much of the material routinely chosen How often are texts and authors selected for study for reasons that have absolutely nothing whatsoever to do with knowledge or linguistic skill and everything to do with politics Even exam boards are guilty of this The final section examines the relationship between English and the technology real people use to produce it It reflects on how technology has impacted on the quality of the reading experience itself and argue that there is a crisis in reading in secondary schools with many children sailing through exams yet leaving school as disinterested and even poor readers And it suggests how teachers might approach introducing these different risks to children and equip them best to make sound judgements about the way they write and communicate for personal and employment purposes in adult life
