'Non-Lethal' Weapons N. Davison, 2009-06-17 This book provides an up to date analysis of the development and deployment of non lethal weapons by police and military organizations It reviews the key technologies issues and dangers with particular attention to the development of drugs lasers microwaves and acoustics as incapacitating weapons

Nonlethal weapons terms and references Robert J. Bunker, 1999 *Non-lethal Weapons as Legitimising Forces?* Brian Rappert, 2004-11-23 As mankind finds ever more impious ways to kill and maim some look to non lethal weapons as a fix Brian Rappert discusses the technologies involved and the ethics of for example blinding someone with a laser leaving them blind forever versus killing them outright

The Future of Non-lethal Weapons Nick Lewer, 2017-09-29 These essays explore the increase in interest in non lethal weapons Such devices have meant that many armed forces and law enforcement agencies are able to act against undesirables without being accused of acting in an inhumane way Topics for discussion in this volume include an overview of the future of non lethal weapons emerging non lethal technologies military and police operational deployment of non lethal weapons a scientific evaluation of the effectiveness of non lethal weapons changes in international law needed to take into account non lethal technologies developments in genomics leading to new chemical incapacitants implications for arms control and proliferation the role of non lethal weapons in human rights abuses conceptual theoretical and analytical perspectives on the nature of non lethal weapons development

Non-Lethal Weapons David A. Koplow, 2006-04-03 Too often military and law enforcement authorities have found themselves constrained by inadequate weaponry An emerging category of non lethal weapons carries promise for resolving this dilemma proffering new capabilities for disabling opponents without inflicting death or permanent injury This array of much more sophisticated technologies is being developed and could emerge for use by soldiers and police in the near future These augmented capabilities carry both immense promise and grave risks they expand the power of law enforcement and military units enabling them to accomplish assigned missions with greater finesse and reduced casualties But they may also be misused increasing maligned applications and inspiring leaders to over rely upon a myth of bloodless combat This book explores the emerging world of non lethal weapons by examining a series of case studies recent real world scenarios from five confrontations around the world where the availability of a modern arsenal might have made a difference Army AL & T, 2004

Enabling Technologies and Design of Nonlethal Weapons Glenn T. Shwaery, John G. Blitch, Carlton Land, 2006 Proceedings of SPIE present the original research papers presented at SPIE conferences and other high quality conferences in the broad ranging fields of optics and photonics These books provide prompt access to the latest innovations in research and technology in their respective fields Proceedings of SPIE are among the most cited references in patent literature

High-power Electromagnetic Radiators D. V. Giri, 2004 Nonlethal weapons are going to play an increasingly important role in combat and in civil conflict in the coming years They offer a way of controlling dissent and insurgencies without

increasing antagonism particularly in peacekeeping operations They prevent the unnecessary loss of life among the non combatant population of adversaries and they decrease the number of casualties due to friendly fire The need for new nonlethal weapons technologies has been well documented by researchers and policymakers High powered electromagnetic radiators are aimed at addressing that need Beginning with a brief survey of the history of warfare D V Giri systematically examines various nonlethal weapons technologies emphasizing those based on electromagnetics His systematic review of high power electromagnetic radiators is organized by frequency coverage and level of sophistication of underlying technologies He provides many examples of complete systems going from wall socket to radiated waves Giri s focus on electromagnetics makes this book essential reading for researchers working with high power microwave and electromagnetic pulse technologies as well as antenna engineers Infantry ,2000 **Ghost Guns** Mark A. Tallman,2020-08-13 With thorough analysis and balanced reporting Ghost Guns Hobbyists Hackers and the Homemade Weapons Revolution is an essential resource for readers seeking to understand the rise of homemade firearms and future options for managing them For more than a century strict gun control was possible because firearms were produced in centralized industrial factories Today the Fourth Industrial Revolution combining old and new technologies threatens to upend this arrangement An increasing number of hobbyists makers technology provocateurs and sophisticated criminals are proving that you don t need a factory to make guns anymore The security challenges of this transformation are increasingly apparent but the technologies behind it hold tremendous potential and while ignoring the security implications would entail risks the costs of new policies also must be evaluated Do it yourself or DIY weapons will bring significant ramifications for First and Second Amendment law international and homeland security crime control technology privacy innovation and the character of open source culture itself How can a liberal society adjust to technologies that make it easier to produce weapons and contraband Informative and thought provoking Ghost Guns Hobbyists Hackers and the Homemade Weapons Revolution carefully analyzes the technical legal social political and criminological trends behind this challenging new area of illicit weapons activity **Strategic Assessment** National Defense University. Institute for National Strategic Studies,1995 The Executive Protection Professional's Manual Philip Holder,Donna Lea Hawley,1997-09-02 The Executive Protection Professional s Manual not only explains what it takes to be an executive protection professional but provides other valuable information as well including tips on defensive tactics bomb searches searching for bugging devices firearms training defensive and evasive driving and advance reconnaissance This unique book also discusses important career information such as how to select the area of executive protection in which you would like to work how much money you should make the interview and stories from real life experiences of an EPP **Law Enforcement Management and Administrative Statistics** ,1997 **Law Enforcement Management and Administrative Statistics 1997** Brian A. Reaves,Andrew L. Goldberg,1999-08 As of June 1997 there were more than 700 general purpose State and local law enforcement agencies with

100 or more full time sworn personnel that included 50 or more uniformed officers responding to calls for service These larger agencies collectively employed about 381 000 full time sworn personnel including about 226 000 officers assigned to respond to calls for service Nearly all of these agencies provided data in response to this survey Includes sections showing data on personnel expenditures and pay operations and equipment computers and information systems and policies and programs Hundreds of statistical tables **Law Enforcement Management and Administrative Statistics, 1997** Brian Reaves, Andrew L. Goldberg, 1999 As of June 1997 there were more than 700 general purpose State and local law enforcement agencies with 100 or more full time sworn personnel that included 50 or more uniformed officers responding to calls for service These larger agencies collectively employed about 381 000 full time sworn personnel including 226 000 officers assigned to respond to calls for service Nearly all the agencies provided data in response to the 1997 Law Enforcement Management and Administrative Statistics survey sponsored by the Bureau of Justice Statistics Survey respondents included 454 municipal police departments 167 county sheriff departments 30 county police departments and the 49 primary State law enforcement agencies operating in each State except Hawaii Detailed statistics are provided on police personnel expenditures and pay operations equipment computers and information systems policies and programs community policing and State agencies The survey questionnaire is appended The Ballad of Dinah Caldwell Kate Brauning, 2021-11-23 Nothing is more dangerous than a girl with nothing left to lose Dinah Caldwell has been filling her father's role since he abandoned their family four years ago She and her grief stricken mom run their subsistence farm deep in the Ozarks making sure her younger brother never has to worry Until the day Gabriel Gates who owns everyone in Charlotte County kills her mother to steal her family's well Homeless heartbroken and alone Dinah only has a single razor sharp goal revenge And now that Gates has put a ten thousand dollar bounty on her head she can't trust anyone but she also can't take down the most powerful man in the mountains by herself Her only allies are Kara Dinah's best friend and secret crush and Johnny a young bootlegger who has as much reason to hate Gates as Dinah does With their help and resources and maybe even love she can spark a revolution and set the whole county free if their combined secrets don't get them all killed first *Bulletin of the Atomic Scientists*, 1994-09 *Thin Blue Lie* Matt Stroud, 2019-03-19 A wide ranging investigation of how supposedly transformative technologies adopted by law enforcement have actually made policing worse lazier more reckless and more discriminatory American law enforcement is a system in crisis After explosive protests responding to police brutality and discrimination in Baltimore Ferguson and a long list of other cities the vexing question of how to reform the police and curb misconduct stokes tempers and fears on both the right and left In the midst of this fierce debate however most of us have taken for granted that innovative new technologies can only help During the early 90s in the wake of the infamous Rodney King beating police leaders began looking to corporations and new technologies for help In the decades since these technologies have in theory given police powerful previously unthinkable faculties the ability to incapacitate a

suspect without firing a bullet Tasers the capacity to more efficiently assign officers to high crime areas using computers Compstat and with body cameras a means of defending against accusations of misconduct But in this vivid deeply reported book Matt Stroud shows that these tools are overhyped and in many cases ineffective Instead of wrestling with tough fundamental questions about their work police leaders have looked to technology as a silver bullet and stood by as corporate interests have insinuated themselves ever deeper into the public institution of law enforcement With a sweeping history of these changes Thin Blue Lie is a must read for anyone seeking to understand how policing became what it is today
