*A Desktop Guide for Nonprofit Directors, Officers, and Advisors* Jack B. Siegel, 2006-05-11 How to keep any nonprofit out of trouble running smoothly and accomplishing its mission Jack Siegel lawyer accountant management consultant and computer whiz takes the putative director or officer of a nonprofit organization on a useful and often entertaining voyage throughout the realm of the tax exempt organizations universe pointing out its quirks foibles and legal liabilities along the way His handbook will make mandatory and arresting reading for those who are already serving as trustees directors officers and key employees of exempt organizations particularly charitable ones Siegel's goal in which he succeeds is to help directors and officers of nonprofit organizations make better decisions The book is full of large policy analyses and paragraphs on the details such as board size board committees board meeting formats the contents of minutes and the duties of officers Salted with some excellent real life examples what also sets this book apart from most in its genre is the tone the writing style the brusqueness the bluntness He complains that too many directors check their good judgment at the boardroom door He advises individuals who desire agreement and demand adulation to stay off boards he insists on commitment and institutional tension with the executive director He warns prospective directors that some organizations want in addition to time and judgment either your money or your ability to raise money To my delight he extols the virtues of some level of expenditures for qualified lawyers and accountants Please join me in adding this most helpful handbook to your nonprofit library Bruce R Hopkins Attorney at Law author of *The Law of Tax Exempt Organizations Eighth Edition* and *Starting and Managing a Nonprofit Organization A Legal Guide Fourth Edition* *America Beyond Capitalism* Gar Alperovitz, 2011 *America Beyond Capitalism* is a book whose time has come Gar Alperovitz's expert diagnosis of the long term structural crisis of the American economic and political system is accompanied by detailed practical answers to the problems we face as a society Unlike many books that reserve a few pages of a concluding chapter to offer generalized tentative solutions Alperovitz marshals years of research into emerging new economy strategies to present a comprehensive picture of practical bottom up efforts currently underway in thousands of communities across the United States All democratize wealth and empower communities not corporations worker ownership cooperatives community land trusts social enterprises along with many supporting municipal state and longer term federal strategies as well *America Beyond Capitalism* is a call to arms an eminently practical roadmap for laying foundations to change a faltering system that increasingly fails to sustain the great American values of equality liberty and meaningful democracy **Book Review Index** ,2002 **Encyclopedia of Business Information Sources** Gale Group, 2003 Each updated edition identifies nearly 35 000 live print and electronic sources of information listed under more than 1 100 alphabetically arranged subjects industries and business concepts and practices Edited by business information expert James Woy **Statistical Reference Index ...
