NORDIC WORLD HERITAGE AWARD

PRESENTED BY THE NORDIC WORLD HERITAGE ASSOCIATION

The Nordic World Heritage Award Winner 2024

WORLD HERITAGE SITE FORTRESS OF SUOMENLINNA, FINLAND

Ehrensård Society

25 years of Suomenlinna Adventure Tour for Children

The Award is granted for long standing commitment to inform the public about the Suomenlinna fortress and its history. The Ehrensård Society has provided the Adventure tours for Children for 25 years at the fortress where the OUV is explained for various age groups with learning by doing method. The mix of theatre professionals, historians and service providers along with the drama and costumes makes for a unique way of interpreting the OUV of the Suomenlinna fortress.

Nordic World Heritage:

Our Nordic Heritage Leif Anker, Ingalill Snitt, 1997 Om de 18 nordiske sevrdigheder som er p UNESCO s World Heritage liste Verdensarv i Norden 2004, 2005 *The 1972 World Heritage Convention* Francesco Francioni, Federico Lenzerini, 2023 This commentary examines the Convention Concerning the Protection of the World Cultural and Natural Heritage the UNESCO World Heritage Convention fifty years after its adoption It explores the new challenges which have arisen in the management of world heritage sites and the Convention s impact on the evolution of international heritage law

Managing Natural World Heritage ICCROM, ICOMOS, IUCN, 2012-06-30 **Understanding World Heritage in Europe and North America** UNESCO, 2016-05-02 *World Heritage Review*, 2016 Many Voices, One Vision: The Early Years of the World Heritage Convention Christina Cameron, Mechthild Rössler, 2016-05-13 In 1972 UNESCO put in place the World Heritage Convention a highly successful international treaty that influences heritage activity in virtually every country in the world Focusing on the Convention s creation and early implementation this book examines the World Heritage system and its global impact through diverse prisms including its normative frameworks constituent bodies programme activities personalities and key issues The authors concentrate on the period between 1972 and 2000 because implementation of the World Heritage Convention during these years sets the stage for future activity and provides a foil for understanding the subsequent evolution in the decade that follows This innovative book project seeks out the voices of the pioneers some 40 key players who participated in the creation and early implementation of the Convention and combines these insightful interviews with original research drawn from a broad range of both published and archival sources The World Heritage Convention has been significantly influenced by 40 years of history Although the text of the Convention remains unchanged the way it has been implemented reflects global trends as well as evolving perceptions of the nature of heritage itself and approaches to conservation Some are sounding the alarm claiming that the system is imploding under its own weight Others believe that the Convention is being compromised by geopolitical considerations and rivalries This book stimulates reflection on the meaning of the Convention in the twenty first century World Heritage in Europe today Galland, Pierre, Lisitzin, Katri, Oudaille-Diethardt, Anatole, Young, Christopher, 2016-02-02 UNESCO publication released on 18 February 2016 brings together insights from States Parties Site Managers and other stakeholders involved in the protection conservation and management of World Heritage properties in the region It gives an in depth look at the current trends and practices while presenting a clear vision for future priorities Publisher s description *World Heritage Conservation* Claire Cave, Elene Negussie, 2017-10-12 The UNESCO World Heritage Convention has become one of the most successful UN instruments for promoting cultural diplomacy and dialogue on conservation of cultural and natural heritage This book provides an overview of the convention through an interdisciplinary approach to conservation It shows that based on the notion of outstanding universal value and international cooperation for the protection of heritage the convention provides a platform for

sustainable development through the conservation and management of heritage of significance to humanity With increasing globalization of heritage World Heritage Conservation is reviewed as an emerging interdisciplinary field of study creating new opportunities for inclusive heritage debate both locally and globally requiring common tools and understanding With over a thousand properties inscribed on the World Heritage List from biologically diverse sites such as the Central Amazon Conservation Complex to the urban landscape of the metropolis of Rio de Janeiro the book will help students researchers and professionals in the identification protection conservation and presentation of World Heritage Targeted at a diversity of disciplines the book critically describes the strategies for implementing the convention and the processes of heritage governance for sustainable development

Global Heritage Lynn Meskell, 2015-06-22 Examines the social cultural and ethical dimensions of heritage research and practice and the underlying international politics of protecting cultural and natural resources around the globe Focuses on ethnographic and embedded perspectives as well as a commitment to ethical engagement Appeals to a broad audience from archaeologists to heritage professionals museum curators to the general public The contributors comprise an outstanding team representing some of the most prominent scholars in this broad field with a combination of senior and emerging scholars and an emphasis on international contributions

Urban Heritage in Europe Gábor Sonkoly, 2023-04-17 Urban heritage which is part of the conceptual expansion of cultural heritage has become an extraordinarily complex notion Any aspect of urban life and experience can become heritage and this heritage is then continuously reinterpreted and exploited as a source not only for a city's identification but also for its cultural and economic innovation This book provides a detailed overview of Central European urban heritage It examines the key aspects of urban heritage tangible monumental natural landscape world heritage urban quarter and heritage experience dark heritage The regimes of urban heritage approach retraces 200 years of the development of European urban heritage to understand how it has become so significant and how it could integrate practically every area of urban existence The novelty of the book is the interpretation of this development as a process of successive and integrating regimes which are examined through the changing urban heritage agency and discourse Through the examples of European cities and towns such as Belgrade Budapest Gdansk Krakow Ljubljana Subotica Szentendre Vienna but also Edinburgh Nordic cities and Rome these changes reveal their inner complexities and become comparable in an interdisciplinary analysis Further a particular aspect of the history of these cities is revealed through the development of their own urban heritage The book is primarily aimed at academics researchers and postgraduate students of cultural and economic geography cultural history culture and heritage management modern and contemporary history as well as urban history planning and sociology

Preparing World Heritage Nominations Duncan Marshall, Unesco, World Heritage Centre, International Centre for the Study of the Preservation and the Restoration of Cultural Property, International Council on Monuments and Sites, International Union for Conservation of Nature and Natural Resources, 2011

World Heritage Management and Human Rights Stener

Ekern, William Logan, Birgitte Sauge, Amund Sinding-Larsen, 2016-03-22 This book focuses on the balance between protecting human rights and protecting world heritage sites It concerns itself with the idea that the management of heritage properties worldwide may fail to adequately respect traditional entitlements and rights of individuals and communities living within or being affected by changes in the use of these spaces It also explores the concept that the international heritage field has limited knowledge and awareness of this challenge The volume argues that the dilemmas in question result from different conceptualisations of the key terms of rights heritage and community among different groups and across political and cultural boundaries In so far as culture is what enables us to read the meanings involved the ultimate questions are those that ask whose power is contested when one meaning is fixed and the heritage of one group of humans is given the right to have its symbolic representation enjoyed and protected The included case studies give vivid examples of this This book was originally published as a special issue of the International Journal of Heritage Studies International Law and the Protection of Cultural Heritage Craig Forrest, 2012-08-06 The world's cultural heritage is under threat from war illicit trafficking social and economic upheaval unregulated excavation and neglect Over a period of almost fifty years the United Nations Educational Scientific and Cultural Organisation has adopted five international conventions that attempt to protect this cultural heritage This book comprehensively and critically considers these five UNESCO cultural heritage conventions The book looks at the conventions in the context of recent events that have exposed the dangers faced by cultural heritage including the destruction of cultural heritage sites in Iraq and the looting of the Baghdad museum the destruction the Buddhas of Bamiyan in Afghanistan the salvage of artefacts from the RMS Titanic and the illicit excavation and trade in Chinese Peruvian and Italian archaeological objects As the only existing work to consider all five of the cultural heritage conventions adopted by UNESCO the book acts as an introduction to this growing area of international law However the book does not merely describe the conventional principles and rules but critically evaluates the extent to which these international law principles and rules provide an effective and coherent international law framework for the protection of cultural heritage It is suitable not only for those schooled in the law but also for those who work with cultural heritage in all its manifestations seeking a broad but critical consideration of this important area of international law Cultural Tourism bob Mckercher, Hilary du Cros, 2012-10-02 Examine cultural tourism issues from both sides of the industry Unique in concept and content Cultural Tourism The Partnership Between Tourism and Cultural Heritage Management examines the relationship between the sectors that represent opposite sides of the cultural tourism coin While tourism professionals assess cultural assets for their profit potential cultural heritage professionals judge the same assets for their intrinsic value Sustainable cultural tourism can only occur when the two sides form a true partnership based on understanding and appreciation of each other's merits The authors one a tourism specialist the other a cultural heritage management expert present a model for a working partnership with mutual benefits integrating management theory and practice from both

disciplines Cultural Tourism is the first book to combine the different perspectives of tourism management and cultural heritage management It examines the role of tangible physical evidence of culture and intangible continuing cultural practices knowledge and living experiences heritage describes the differences between cultural tourism products and cultural heritage assets and develops a number of conceptual models including a classification system for cultural tourists indicators of tourism potential at cultural and heritage assets and assessment criteria for cultural and heritage assets with tourism potential Cultural Tourism examines the five main constituent elements involved in cultural tourism cultural and heritage assets in tourism sites such as the Royal Palace in Bangkok the Cook Islands and Alcatraz Prison in San Francisco tourism what it is how it works and what makes it a success five different types of cultural tourists consumption of products value adding and commodification integrating the first four elements to satisfy the tourist meet the needs of the tourism industry and conserve the intrinsic value of the asset Though tourism and cultural heritage management professionals have mutual interests in the management conservation and presentation of cultural and heritage assets the two sectors operate on parallel planes maintaining an uneasy partnership with surprisingly little dialogue Cultural Tourism provides professionals and students in each field with a better understanding of their own roles in the partnership bridging the gap via sound planning management and marketing to produce top quality long lasting cultural tourism products Now translated into simplified Chinese

Cultural Tourism Hilary du Cros, Bob McKercher, 2014-12-05 Cultural Tourism remains the only book to bridge the gap between cultural tourism and cultural and heritage management The first edition illustrated how heritage and tourism goals can be integrated in a management and marketing framework to produce sustainable cultural tourism The current edition takes this further to base the discussion of cultural tourism in the theory and practice of cultural and heritage management CM and CHM under the understanding that for tourism to thrive a balanced approach to the resource base it uses must be maintained An umbrella approach to cultural tourism represents a unique feature of the book proposing solutions to achieve an optimal outcome for all sectors Reflecting the many important developments in the field this new edition has been completely revised and updated in the following ways New sections on tangible and intangible cultural heritage and world heritage sites Expanded material on cultural tourism product development the cultural tourism market and consumer behaviour planning and delivery of exceptional experiences New case studies throughout drawn from cultural attractions in developing countries such as Southeast Asia China South Africa and the Pacific as well as from the developed world particularly the United States Britain Japan Singapore Australia and Canada Written by experts in both tourism and cultural heritage management this book will enable professionals and students to gain a better understanding of their own and each other's roles in achieving sustainable cultural tourism It provides a blueprint for producing top quality long term cultural tourism products

Rethinking Heritage for Sustainable Development Sophia Labadi, 2022-06-06 The Sustainable Development Goals SDGs adopted by the UN in 2015 have influenced the actions of international and

intergovernmental organisations and governments around the world and have dictated priorities for international aid spending Culture including heritage is often presented as fundamental to addressing the SDGs since 2010 the United Nations has adopted no fewer than five major policy recommendations that assert its importance as a driver and enabler of development Yet heritage is marginalized from the Sustainable Development Goals Rethinking Heritage for Sustainable Development constitutes a substantial and original assessment of whether and how heritage has contributed to three key dimensions of sustainable development namely poverty reduction gender equality and environmental sustainability within the context of its marginalisation from the Sustainable Development Goals and from previous international development agendas Sophia Labadi adopts a novel inclusive large scale and systematic approach providing the first comprehensive history of the international approaches on culture including heritage for development from 1970 to the present day This book is also the first to assess the negative and positive impacts of all the international projects implemented in sub Saharan Africa by a consortium of UN organisations that aimed to provide evidence for the contribution of heritage for development in time for the negotiation of the SDGs The book s conclusions provide recommendations for rethinking heritage for development while reflecting on the major shortcomings of the selected projects

The SAGE Encyclopedia of Economics and Society

Frederick F. Wherry,Juliet B. Schor, Consulting Editor,2015-09-01 Economics is the nexus and engine that runs society affecting societal well being raising standards of living when economies prosper or lowering citizens through class structures when economies perform poorly Our society only has to witness the booms and busts of the past decade to see how economics profoundly affects the cores of societies around the world From a household budget to international trade economics ranges from the micro to the macro level It relates to a breadth of social science disciplines that help describe the content of the proposed encyclopedia which will explicitly approach economics through varied disciplinary lenses Although there are encyclopedias of covering economics especially classic economic theory and history the SAGE Encyclopedia of Economics and Society emphasizes the contemporary world contemporary issues and society Features 4 volumes with approximately 800 signed articles ranging from 1 000 to 5 000 words each are presented in a choice of print or electronic editions Organized A to Z with a thematic Reader s Guide in the front matter groups related entries Articles conclude with References Future Readings to guide students to the next step on their research journeys Cross references between and among articles combine with a thorough Index and the Reader s Guide to enhance search and browse in the electronic version Pedagogical elements include a Chronology of Economics and Society Resource Guide and Glossary This academic multi author reference work will serve as a general non technical resource for students and researchers within social science programs who seek to better understand economics through a contemporary lens

World Heritage, Tourism and Identity Laurent Bourdeau,Maria Gravari-Barbas,2016-03-09 The remarkable success of the 1972 UNESCO Convention Concerning the Protection of World Cultural and Natural Heritage is borne out by the fact that nearly 1 000 properties have

now been designated as possessing Outstanding Universal Value and recognition given to the imperative for their protection. However, the remarkable success of the Convention is not without its challenges, and a key issue for many Sites relates to the touristic legacies of inscription. For many sites, inscription on the World Heritage List acts as a promotional device, and the management challenge is one of protection, conservation, and dealing with increased numbers of tourists. For other sites, designation has not brought anticipated expansion in tourist numbers and associated investments. What is clear is that tourism is now a central concern to the wide array of stakeholders involved with World Heritage Sites. **Climate**

Governance in the Arctic Timo Koivurova, E. Carina H. Keskitalo, Nigel Banks, 2010-03-12. Climate change is affecting the Arctic environment and ecosystems at an accelerating speed, twice the rate of the global average. This is opening the Arctic to transportation and resource development and creating serious challenges for local communities and indigenous peoples. Climate Governance in the Arctic considers two aspects of climate change from an institutional perspective. It focuses on how relevant regimes, institutions, and governance systems support mitigation of climate change. It also examines the extent to which the varying governance arrangements in the Arctic support adaptation and the development of adaptation processes for the region. The book's focus on Arctic governance offers unique insights within climate change mitigation and adaptation research.

Decoding **Nordic World Heritage**: Revealing the Captivating Potential of Verbal Expression

In a period characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its capability to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring. Within the pages of "**Nordic World Heritage**," a mesmerizing literary creation penned by way of a celebrated wordsmith, readers set about an enlightening odyssey, unraveling the intricate significance of language and its enduring impact on our lives. In this appraisal, we shall explore the book's central themes, evaluate its distinctive writing style, and gauge its pervasive influence on the hearts and minds of its readership.
