which different cultural norms and different ways of speaking can be effectively explored explained and taught The book discusses data from a wide range of languages including English Italian Russian Polish Yiddish Hebrew Japanese Korean and Walmatjari an Australian Aboriginal language and it shows that the meanings expressed in human interaction and the different cultural scripts prevailing in different speech communities can be described and compared in a way that is clear simple rigorous and free of ethnocentric bias by using a natural semantic metalanguage based on empirically established universal human concepts As the book shows this metalanguage can be used as a basis for teaching successful cross cultural communication and education including the teaching of languages in a cultural context Play Index Estelle A. Fidell,1973
