**Normality, Abnormality, and Pathology in Merleau-Ponty** Susan Bredlau, Talia Welsh, 2022-02-01 Maurice Merleau Ponty's work draws our attention to how the body is always our way of having a world and never merely a thing in the world Our conception of the body must take account of our cultures our historically located sciences and our interpersonal relations and cannot reduce the body to a biological given Normality Abnormality and Pathology in Merleau Ponty takes up Merleau Ponty's phenomenology of the body to explore the ideas of normality abnormality and pathology Focusing on the lived experiences of various styles of embodiment the book challenges our usual conceptions of normality and abnormality and shows how seemingly objective scientific research such as the study of pathological symptoms is inadequate to the phenomena it purports to comprehend The book offers new insights into our understandings of health and illness ability and disability and the scientific and cultural practices that both enable and limit our capacity for diverse experiences

**The Primacy of Movement** Maxine Sheets-Johnstone, 2011-07-06 This expanded second edition carries forward the initial insights into the biological and existential significances of animation by taking contemporary research findings in cognitive

science and philosophy and in neuroscience into critical and constructive account It first takes affectivity as its focal point elucidating it within both an enactive and qualitative affective kinetic dynamic It follows through with a thoroughgoing interdisciplinary inquiry into movement from three perspectives mind brain and the conceptually reciprocal realities of receptivity and responsivity as set forth in phenomenology and evolutionary biology respectively It ends with a substantive afterword on kinesthesia pointing up the incontrovertible significance of the faculty to cognition and affectivity Series A

**Limit-Phenomena and Phenomenology in Husserl** Anthony J. Steinbock, 2017-08-18 Recent discussions around limit problems namely the questions concerning what can appear in phenomenological reflection as well as what phenomenology as philosophical reflection can handle call for a concerted treatment of the problem of limit phenomena In this important new book Anthony J Steinbock a leading voice in contemporary phenomenology explores that question in the context of an interrelated series of problems in Husserl's phenomenology Representing a continued struggle with these insights and problems the first section sketches out the problem of limit phenomena and addresses generally that rich estuary of liminal experience that commanded Husserl's attention in his research manuscripts The book goes on to offer a correlative reflection on the issue of method and finally explores a specific set of what have been called recently limit problems within phenomenology relating to the problem of individuation and on a more personal level vocation This rich and

timely volume offers an excellent demonstration of phenomenology in practice

**Working with Children and Young People** Lindsay O'Dell, Stephen Leverett, 2018-06-26 Traditional ways of working with children and young people are giving way to new practices Where practice solutions previously tended to be imposed on children and young people professionals are now looking to engage them as vital partners in actively negotiated and co constructed models of working Combining social ecological and social constructionist perspectives drawn from a range of academic and practice disciplines Working with Children and Young People explores and interrogates how ideas about childhood policy and professional discourses change over time and in turn affect the issues faced by young people and their families In particular this important text Develops a critical and reflective approach to knowledge and practice explored vividly across a wide range of practice settings Presents

a new vision where the focus is centrally on the child or young person and where dominant ideas are challenged Explores how key concerns such as professional power and children s rights embed themselves in working relationships Working with Children and Young People provides an innovative critical framework for all students on vocational and professional courses involving work with children and young people It also offers illuminating reading for practitioners working with the 0 18 age group whether in the statutory voluntary or private sectors

**The Ethics of Genetic Screening** Ruth F. Chadwick, Darren Shickle, H.A. Ten Have, Urban Wiesing, 2013-03-09 This collection of essays represents the work produced in the course of a three year project funded by the Commission of the European Communities under the Biomed I programme on the ethics of genetic screening entitled Genetic screening ethical and philosophical perspectives with special reference to multifactorial diseases The short title of the project was Euroscreen thereafter known as Euroscreen I in the light of the fact that a second project on genetic screening was subsequently funded The project was multinational and multidisciplinary and had as its objectives to examine the nature and extent of genetic screening programmes in different European countries to analyse the social policy response to these developments in different countries and to explore the applicability of normative ethical frameworks to the issues The project was led by a core group who had oversight of the project and members of which have acted as editors for this volume Darren Shickle edited the first section Henk ten Have the second Ruth Chadwick and Urban Wiesing the third and final part The volume opens with an overview of genetic screening and the principles available for addressing developments in the field with special reference to the Wilson and Jungner principles on screening The first of the three major sections thereafter includes papers on the state of the art in different countries together with some analysis of social context and policy
