

# NORMATIVE ETHICS

Normative ethics is focused on exploring what actions are morally correct or incorrect and how one ought to conduct themselves in various situations.

## DEFINITION

According to Bishai (2021), normative ethics "...is the branch of philosophical ethics that investigates the set of questions that arise when considering how one ought to act, morally speaking" (p. 155).

## TYPES

- **Virtue ethics:** places emphasis on character and values
- **Deontology:** emphasizes the importance of following moral rules
- **Consequentialism:** emphasizes the importance of the consequences of an action

**The Normative Animal?** Neil Roughley, Kurt Bayertz, 2019 An interdisciplinary group of scholars investigates the claim that humans are essentially normative animals They do so by looking at the nature and relations of three types of norms or putative norms social moral and linguistic and asking whether they might be different expressions of one basic structure unique to humankind

**Motivation of Health Behavior** Paul W. O'Neal, 2007 In psychology motivation refers to the initiation direction intensity and persistence of behaviour Geen 1995 Motivation is a temporal and dynamic state that should not be confused with personality or emotion Motivation is having the desire and willingness to do something A motivated person can be reaching for a long term goal such as becoming a professional writer or a more short term goal like learning how to spell a particular word Personality invariably refers to more or less permanent characteristics of an individual's state of being e.g. shy extrovert conscientious As opposed to motivation emotion refers to temporal states that do not immediately link to behaviour e.g. anger grief happiness This important book is dedicated to motivation of health behaviours

Handbook of Behavior Therapy in Education S.N. Elliott, F. Gresham, J.C. Witt, 2013-11-11 What do we know about behavioral analysis and intervention in educational settings Given that educational institutions were among the first to embrace the new technology of behavior change in the late 1950s and early 1960s it is apparent that we have had the opportunity to learn a great deal The evolution of the field of behavior therapy has witnessed a change in the behavior therapist from an adolescent fascination with repeatedly demonstrating the effectiveness of the new technology to a mature recognition of the complex implications of the behavioral paradigm for individuals systems and society Many facts now taken for granted were considered impossibilities a mere two decades ago In her 1986 presidential address to Division 25 of the American Psychological Association Beth Sulzer Azaroff reviewed a number of changes in attitude in education that were strongly influenced by behavior therapy Most educators now agree that a everyone can learn b complex skills can be taught c precise general and durable performance can be taught and d barriers to learning can be overcome In addition we would add that behavior therapy is being applied to increasingly more complex human problems such as social skill deficits internalizing disorders and dysfunctional systems and organizations
