MacKendrick, *Roman Cities* Pierre Grimal, 1983 *Roman Cities* combines G Michael Woloch's translation of *Les villes romaines* Pierre Grimal's noted French work on Roman city planning archaeology and urban history with Woloch's additional notes and descriptions of the cities mentioned by Grimal as well as other important Roman cities The book provides a brief history and description of more than a hundred Roman cities an extensive master bibliography and a comprehensive glossary *Roman Cities* will interest both scholars and students of Roman history and archaeology city planning urban geography and the social sciences The glossary and bibliography make the book of value to specialists pursuing a particular topic and to students history buffs and amateur archaeologists seeking to broaden their understanding of the Roman city planning methods that are such an integral part of our modern urban heritage *Roman Cities* provides the first comprehensive study in English of major Roman cities including an excellent coverage of the Roman legacy which was transmitted to medieval and modern trends in architecture and urban planning

Ancient African Religions Robert M. Baum, 2024 This book examines the history of religions in Africa from the burial practices of the earliest humans to the rise of centralized theocratic kingdoms like ancient Egypt up to the rise of Islam in the Seventh Century [Historical Dictionary of the Berbers \(Imazighen\)](#) Hsain Ilahiane, 2017-03-27 Berbers also known as Imazighen are the ancient inhabitants of North Africa but rarely have they formed an actual kingdom or separate nation state Ranging anywhere between 15 50 million depending on how they are classified the Berbers have influenced the culture and religion of Roman North Africa and played key roles in the spread of Islam and its culture in North Africa Spain and Sub Saharan Africa Taken together these dynamics have over time converted to redefine the field of Berber identity and its socio political representations and symbols making it an even more important issue in the 21st century This second edition of *Historical Dictionary of the Berbers* contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 200 cross referenced entries on important personalities places events institutions and aspects of culture society economy and politics This book is an excellent resource for students researchers and anyone wanting to know more about the Berbers

[Ancient Urban Planning in the Mediterranean](#) Samantha L. Martin-McAuliffe, Daniel M. Millette, 2017-12-06 *New Directions in Urban Planning in the Ancient Mediterranean* assembles the most up to date research on the design and construction of ancient cities in the wider Mediterranean In particular this edited collection reappraises and sheds light on lost Classical plans Whether intentional or not each ancient plan has the capacity to embody specific messages linked to such notions as heritage and identity Over millennia cities may be divested of their buildings and monuments and can experience periods of dramatic

rebuilding but their plans often have the capacity to endure As such this volume focuses on Greek and Roman grid traces both literal and figurative This rich selection of innovative studies explores the ways that urban plans can assimilate into the collective memory of cities and smaller settlements In doing so it also highlights how collective memory adapts to or is altered by the introduction of re aligned plans and newly constructed monuments Historical Dictionary of Libya Ronald Bruce St John,2014-06-04 Of all the states of the Middle East and North Africa Libya has long been the country about which the least is known It is only in recent times that scholars and the general public alike have begun to appreciate the complexity of Libya s turbulent history including the recent February 17th Revolution in 2011 when protests broke out throughout Libya demanding better living conditions and more job opportunities When the Qaddafi regime responded with force killing scores of unarmed civilians the protesters called for regime change In what came to be known as the February 17th Revolution the Qaddafi regime was overthrown and Qaddafi was killed in October 2011 In July 2012 the Libyan people elected a General National Congress charged with overseeing the drafting of a new constitution and the election of a national government This fifth edition of Historical Dictionary of Libya covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 400 cross referenced entries on important personalities politics economy society conflicts and the culture of Libya This book is an excellent access point for students researchers and anyone wanting to know more about Libya The Bread Makers Jared T. Benton,2020-12-14 Bread was the staple of the ancient Mediterranean diet It was present in the meals of emperors and on the tables of the poorest households In many instances a loaf of bread probably constituted an entire meal As such bread was both something that unified society and a milieu through which social and ethnic divisions played out Similarly bakers were not a monolithic demographic They served both the rich and the poor but some bakers clearly operated within regional traditions Some lived in big cities and others lived in small towns Some bakers made flat breads and others made leavened loaves Some made coarse brown loaves and others specialized in fancier white breads This book offers new methods and new ways of framing bread production in the Roman world to reveal the nuances of an industry that fed an empire Inscriptions Roman law and material remains of Roman period bakeries are combined to expose the cultural context of bread making the economic context of commercial baking the social hierarchy within the workforces of bakeries and the socio economic strategies of Roman bakers

Vespasian Barbara Levick,2016-10-04 From a pre eminent biographer in the field this volume examines the life and times of the emperor Vespasian and challenges the validity of his perennial good reputation and universally acknowledged achievements Levick examines how this plebeian and uncharismatic Emperor restored peace and confidence to Rome and ensured a smooth succession how he coped with the military political and economic problems of his reign and his evaluation of the solutions to these problems before she finally examines his posthumous reputation Now updated to take account of the past 15 years of scholarship and with a new chapter on literature under the Flavians Vespasian is a fascinating study for

Scott Bowie, *The Invention of the Maghreb* Abdelmajid Hannoum, 2021-06-10 Under French colonial rule the region of the Maghreb emerged as distinct from two other geographical entities that too are colonial inventions the Middle East and Africa In this book Abdelmajid Hannoum demonstrates how the invention of the Maghreb started long before the conquest of Algiers and lasted until the time of independence and beyond to our present Through an interdisciplinary study of French colonial modernity Hannoum examines how colonialism made extensive use of translations of Greek Roman and Arabic texts and harnessed high technologies of power to reconfigure the region and invent it In the process he analyzes a variety of forms of colonial knowledge including historiography anthropology cartography literary work archaeology linguistics and racial theories He shows how local engagement with colonial politics and its modes of knowledge were instrumental in the modern making of the region including in its postcolonial era as a single unit divorced from Africa and from the Middle East *Tripolitania* David J. Mattingly, 2003-09-02 Lepcis Magna one of the greatest of the Roman cities of North Africa and one of the most famous archaeological sites in the Mediterranean was situated in the region of Tripolitania Birthplace of the Emperor Septimius Severus the city has yielded many well preserved monuments from its Roman past Mattingly presents valuable information on the pre Roman tribal background the urban centres the military frontier and the regional economy He reinterprets many aspects of the settlement history of this marginal arid zone that was once made prosperous and considers the wider themes of Romanization frontier military strategy and economic links between provinces and sources of elite wealth **Ancient Cities** Charles Gates, 2013-04-15 Well illustrated with nearly 300 line drawings maps and photographs *Ancient Cities* surveys the cities of the ancient Near East Egypt and the Greek and Roman worlds from an archaeological perspective and in their cultural and historical contexts Covering a huge area geographically and chronologically it brings to life the physical world of ancient city dwellers by concentrating on evidence recovered by archaeological excavations from the Mediterranean basin and south west Asia Examining both pre Classical and Classical periods this is an excellent introductory textbook for students of classical studies and archaeology alike *Antonia Augusta* Nikos Kokkinos, 1992 Nikos Kokkinos presents a portrait of the most influential Roman matron of her time the daughter of Mark Antony and the great grandmother of Nero In addition to being pivotal to the political shifts of the Empire Antonia was strongly involved in many aspects of business life and thus her career has an important bearing on contemporary perceptions of the position of Roman women Marshalling many diverse archaeological source materials the

author has produced a book which places Antonia firmly in the social context of her day *Rome in Africa* Susan Raven, 2012-12-06 Nearly three thousand years ago the Phoenicians set up trading colonies on the coast of North Africa and ever since successive civilizations have been imposed on the local inhabitants largely from outside Carthaginians Romans vandals Byzantines Arabs TURks French and Italians have all occupied the region in their time The Romans governed this part of Africa for six hundred cities twelve thousand miles of roads and hundreds of aqueducts some fifty miles long The remains of many of these structures can be seen today At the height of its prosperity during the second and third centuries AD the area was the granary of Rome and produced more olive oil than Italy itself The broadening horizons of the Roman Empire provided scope for the particular talents of a number of Africa s sons the writers Terence and Apuleius the first African Roman Emperor Septimius Severus famous Christian theologians like Tertullian and Saint Augustine these are just some who rose to meet the challenges of their age **Ancient Dynasties** John D. Grainger, 2019-01-30 A guide to the over 150 families that ruled the Classical world from the 10th century BC to the 8th century AD from western Europe to central Asia Ancient Dynasties is a unique study of the ruling families of the ancient world known to the Greeks and Romans The book is in two parts The first offers analysis and discussion of various features of the ruling dynasties including the leading families of republican Rome It examines patterns similarities and contrasts categorizes types of dynasty and explores common themes such as how they were founded and maintained the role of women and the various reasons for their decline The second part is a catalog of all the dynasties over 150 of them known to have existed between approximately 1000 BC and AD 750 from the Atlantic Ocean to Baktria roughly modern Afghanistan It provides genealogical tables as well as information on where and when they held power Altogether Ancient Dynasties offers an invaluable reference to ancient history buffs interested in the families that wielded power in the Classical world The World of the Early Christians Joseph F. Kelly, 2017-03-15 Like every lost world the world of the early Christians was a combination of the foreign and the familiar the unique and the commonplace In *The World of the Early Christians* Joseph Kelly introduces and explains the world of the early Christians and while he examines the differences between our two societies he also stresses our similarities The early Christians were people like us trying to make their way in life There are many introductions to the world of the early Christians but few if any deal with its historical background and the basic questions non specialists ask Why did the Christians use philosophy at al Didn t it make everything confusing Why didn t they just stay with the Bible In *The World of the Early Christians* Kelly answers such preliminary questions and concentrates on the fundamental issue of why Christians used philosophy rather than simply listing the philosophies they used Not only do most people know little about the early Christians they often have erroneous views about them For example many modern Christians think their ancient spiritual ancestors were impoverished uneducated people from the lowest strata of Roman society *The World of the Early Christians* addresses some of these misconceptions by considering the historical evidence available about these people Similarly Kelly

also explains some ancient topics such as magic and astrology and considers how they can be misleading to modern students. He then describes the early Christians' relationships with other groups such as Jews, pagans, and members of popular and official cults and then explores the intellectual and cultural lives of the early Christians. Students and anyone interested in understanding the now lost world of early Christianity will appreciate this volume's straightforward treatment of this essential background material. Kelly touches upon topics treated by the other volumes in the *Message of the Fathers of the Church* series. He refers to original sources in translation unless no translation is available and he includes bibliographic references for further research. In a direct and easy manner, Kelly brings to life for us today the rich world of the early Christians. Chapters are: Who Were the Early Christians; How Do We Know About the Early Christians; The Physical World; Others; Intellectual and Cultural Life; Living in the World; and A Brief History of Early Christianity.
