Historical Dictionary of the Republic of Korea James E. Hoare,2020-10-13 South Korea Republic of Korea is the more successful of the two Koreas in both economic and political terms Even the Asian economic crisis of 1997 1998 which hit badly was weathered successfully and when the next crisis came along in 2007 South Korea coped better than many other countries This economic strength taken with the steady progress of democratization since 1987 indicates that when the peninsula is eventually reunified as one day it probably will be a new unified Korea will follow the South Korea model rather than that of North Korea This fourth edition of Historical Dictionary of the Republic of Korea contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities as well as aspects of the country s politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about the Republic of Korea

Nuclear Disarmament in the Twenty-first Century Wade L. Huntley,Mitsuru Kurosawa,Kazumi Mizumoto,2005-03-06 This work provides a comprehensive examination of the current state and future prospects for nuclear disarmament at the turn of the century The work juxtaposes a sober review of progress made during the last decade with a proactive agenda of proposals for new disarmament initiatives in the next decade Taken together the contributions to this volume suggest that contrary to current conventional wisdom the increasing global cache of nuclear weapons and the waning progress on nuclear disarmament of recent years need not become the defining features of the post Cold War era Rather by examining the new conditions that have emerged at the dawn of the of the 21st century through both national and issue based perspectives this work reveals how the likelihood of continuing uncertainty and change in world affairs creates opportunities as well as the need for renewed progress toward significant nuclear disarmament *US National Defense for the Twenty-first Century* Edward A. Olsen,2014-07-10 This provocative critique of Washington s current security policies draws on the arguments made by an array of non interventionist and conservative nationalist scholars It provides a blueprint for a more restrained and unilateral US role in global affairs

The Peninsula Question Yoichi Funabashi,2008-09-01 In

October 2002 the United States confronted North Korea with suspicions that Pyongyang was enriching uranium in violation of the Agreed Framework that the nations had worked out during the Clinton administration North Korea subsequently evicted international monitors and resumed its nuclear weapons program The Peninsula Question chronicles the resulting second Korean nuclear crisis Japanese journalist Yoichi Funabashi informed by interviews with more than 160 diplomats and decision makers from China Japan Russia South Korea and the United States provides a behind the scenes look at the negotiations to denuclearize the peninsula Between 2002 and 2006 a series of top level diplomats including the prime minister of Japan attempted to engage with North Korea Funabashi illustrates how the individual efforts of these major powers laid the groundwork for multilateral negotiations first as the trilateral meeting and then as the Six Party Talks The first four rounds of talks 2003 2005 resulted in significant progress Unfortunately a lack of implementation after that breakthrough ultimately led to North Korea's missile tests in July and subsequent nuclear tests in October 2006 The Peninsula Question provides a window of understanding on the historical geopolitical and security concerns at play on the Korean peninsula since 2002 Offering multiple perspectives on the second Korean nuclear crisis it describes more than just the U S and North Korean points of view It pays special attention to China's dealings with North Korea providing rare insights into the decision making processes of Beijing This is an important authoritative resource for understanding the crisis in Korea and diplomacy in Northeast Asia
