Nuestra America Tomo I:

Nuestra América (ensayo de psicología social). Carlos Octavio Bunge, 1905 *Nuestra América inventada.*
Imágenes de América Latina en los pensadores chilenos, **Of Summits and Sacrifice** Thomas Besom, 2010-01-01 In perhaps as few as one hundred years the Inka Empire became the largest state ever formed by a native people anywhere in the Americas dominating the western coast of South America by the early sixteenth century Because the Inkas had no system of writing it was left to Spanish and semi indigenous authors to record the details of the religious rituals that the Inkas believed were vital for consolidating their conquests Synthesizing these arresting accounts that span three centuries Thomas Besom presents a wealth of descriptive data on the Inka practices of human sacrifice and mountain worship supplemented by archaeological evidence Of Summits and Sacrifice offers insight into the symbolic connections between landscape and life that underlay Inka religious beliefs In vivid prose Besom links significant details ranging from the reasons for cyclical sacrificial rites to the varieties of mountain deities producing a uniquely powerful cultural history **The Flu Pandemic of 1918-1919** Maximiliano Fuentes Codera, 2023-10-20 Within the framework of a global political and sanitarian crisis that broke out in March 2020 this book proposes a new contemporary look at the great pandemic of the 20th century the Spanish flu of 1918 1919 Based on its impact in Spain the book offers a comparative and transatlantic perspective focused on the political and cultural impact of the pandemic in Europe and Latin America The book focuses on three aspects the overwhelming presence of influenza between 1918 and 1920 its oblivion and its political and cultural traces in the interwar decades and even more and its reappearance in the face of the COVID 19 These three aspects are interconnected through a comparative analysis of the crisis of liberalism and democracy of the 1920s and 1930s and the current populist wave that is affecting the world As such this book is of great value to those interested in social and medical history across Europe and Latin America through offering a fresh outlook on the effects of the pandemic of the 20th century in the wake of the COVID pandemic that swept across the world **Reconocimiento. ¿Un nuevo paradigma de la Filosofía Política y Social?** Sauerwald, Gregor, 2014-06-27 Han sido comprendidas las relaciones entre Europa y América Latina en el campo de la filosofía a como un legado bien o aporte cuya recepción fue siempre favorable o positivamente acogido sin contratiempos rupturas o diferencias mayores Para más de un autor América Latina ha recurrido a esta fuente de inspiración de la cultura occidental en forma permanente No han faltado autores que han mostrado más bien los diversos cortes resistencias y oposiciones que se habrán levantado en nuestro quehacer filosófico contra la imposición europea contra la herencia de recetas y fórmulas que permanentemente exporta el viejo continente A esta constructiva y ya centenaria tarea a este reconocimiento y diálogo que en algunos casos alcanzó nivel intercultural no exento de limitaciones y dificultades se suma en la actualidad la obra de Gregor Sauerwald quien destaca tanto por generar un clima de diálogo intercultural como por la continuidad sustentabilidad y la profundidad del diálogo entre la filosofía alemana y latinoamericana que él ha sabido impulsar como pocos Junto a los

desarrollos últimos de la teoría crítica Sauerwald enfrenta en crítica y diálogo una de las escuelas filosóficas latinoamericanas de mayor resonancia a partir de la década de los setenta la filosofía de la liberación Sauerwald insiste en la necesidad del diálogo entre el Sur y el Norte y el Norte y el Sur por el mismo hecho de que estamos viviendo en un global village compartiendo los mismos enemigos y problemas Mito suyo también ha sido mostrar la palpitante vigencia de la categoría del reconocimiento clave en la filosofía política actual en el Norte y que también ha ocupado lugar eminente en la discusión filosófica en el Sur dentro de la problemática de la filosofía y la praxis de la liberación En uno y otro caso los conflictos económicos políticos y sociales de acuerdo a su gramática podrán deletrearse como una lucha por el reconocimiento De ser así el espacio y el tiempo del reconocimiento podrán unirse y transformarse ahora sí en un diálogo que enriquezca a ambas partes

Energy Transitions in Latin America Lira Luz Benites Lazaro, Esteban Serrani, 2023-09-30 This book comprehensively analyzes the challenges and opportunities associated with transitioning to sustainable energy systems in Latin America Recognizing that energy transition goes beyond mere changes in energy systems it is also essential to address the imperative of ensuring a just transition and equitable benefits for all particularly for vulnerable populations This recognition emphasizes prioritizing social equity and inclusivity throughout the energy transition process By adopting a critical perspective grounded in multidisciplinary approaches from the social sciences the book delves into the complex energy transition issues exploring the broader social economic and political dimensions involved The book is divided into four parts Part I highlights the changing energy mix in Latin America and the geopolitical implications of the increasing reliance on renewable sources Part II examines the dilemmas faced by countries that rely on oil and gas revenues and the obstacles they face in transitioning to a low carbon economy Part III analyzes the production technology and costs as limits and opportunities for energy transition and adoption of renewable energies Finally part IV explores energy access and the democratization of energy generation in Latin America including efforts to address energy poverty the growth of distributed energy and prosumers

Energy Transitions in Latin America The Tough Route to Sustainable Development is a valuable resource that will benefit researchers in energy studies and policymakers alike It serves as a comprehensive guide for those seeking to navigate the complexities of energy transitions It is an essential source for fostering informed decision making and driving sustainable development in the region

Race, Rights and Rebels Julia Suárez-Krabbe, 2015-12-11 Human rights and development cannot be understood separately They are historically connected by the idea of race and have evolved concomitantly with the latter As the tools of race human rights and development have been forged in the effort to legitimize and maintain coloniality While rights and development can be used as tools to achieve protection specific political goals or access in the dominant society they limit radical social change because they are framed within a specific dominant ontology and sustain a particular political horizon This book provides an original analysis of the evolution of the overlapping histories of human rights and development through the prism of coloniality and offers an important contribution to the search for alternatives to these

through the lens of indigenous and other southern theories and epistemologies In this effort Julia Suarez Krabbe brings new perspectives to discussions pertaining to the decolonial perspective race knowledge pluriversality mestizaje and identity while elaborating on original philosophical concepts that can ground alternatives to human rights and development 7

ensayos de interpretación de la realidad peruana José Carlos Mariátegui, Elizabeth Garrels, 1979 **Past and Present Political Theology** Dennis Vanden Auweele, Miklos Vassányi, 2020-04-02 This book demonstrates how discussions of Political Theology have been a constant feature throughout philosophical modernity and that they continue to impact contemporary political debates By tracing the historical roots and detailing the contemporary outworking of Political Theology in Europe it contends that this growing field requires a broader canon in order for it to mature Political Theology is shown here to be about the diversity of relationships between religious beliefs and political orientations First engaging with historical debates chapters re examine the relationship between personal conviction and societal orientation on such topics as the will to believe evil individualism the relationship between church and state and the relationship between belief and natural science The volume then establishes the relevance of these debates for the present day As such it invites engagement on the back and forth between religion and politics in a liberal democracy and a communist state on how communitarianism relates to religious language on the diversity of Christian and Jewish political theology and the politics of toleration By broadening out the field of Political Theology this book offers the reader a more nuanced understanding of its sustained influence on public life As such it will be of interest to academics working in Political Theology but also Theology Philosophy and Political Science more generally **Anales de la Academia de ciencias médicas, físicas y naturales de la Habana** Academia de Ciencias Médicas, Físicas y Naturales de la Habana, 1910
