Nueva Cuestión Social La:

La nueva cuestión social Pierre Rosanvallon, 1995-03-01 El Estado providencia está siempre en crisis Pero está cambiando de naturaleza Más allá de los acuciantes problemas de financiamiento y gestión más allá de los interrogantes planteados sobre la eficacia del sistema de redistribución lo que se pone en tela de juicio son los principios organizadores de la solidaridad y la concepción misma de los derechos sociales La crisis es ahora de orden filosófico Está ligada al advenimiento de una nueva cuestión social Ya no se trata únicamente como hace diez años de relegitimar el Estado providencia Frente a las fracturas sociales de la década del ochenta la intervención pública en efecto recupera toda su justificación Hoy en día hay que proceder a una refundación intelectual y moral Pierre Rosanvallon explora en este libro las formas que podrá asumir un Estado providencia activo vinculado al desarrollo de la ciudadanía social Invita en especial a enriquecer la noción de derecho social a reformular la definición de lo justo y lo equitativo a reinventar las formas de la solidaridad Esta búsqueda es indisociable de una práctica más activa de la democracia y de una idea renovada de la nación Este libro propone una rediscusión de conjunto de la cuestión social Prolonga y renueva profundamente los análisis ahora ya clásicos que el autor había realizado en La crisis del Estado providencia

Leandri, Pilar González Bernaldo de Quirós, Juan Suriano, 2010 En la segunda mitad del siglo XIX tuvo lugar en Argentina un proceso histórico que permitió la consolidación de un concepto de sociedad, el mantenimiento de la cohesión social y la aparición de una acción colectiva y de una implicación pública. Los autores de este libro sostienen esta teoría de la existencia de una cuestión social temprana en la ciudad de Buenos Aires por lo que proponen un análisis de esta realidad social argentina y se preguntan por la invención de lo social y su conversión en problema. Para ello analizan distintos ámbitos como la beneficencia, paradigma de acción social comunal, la higiene y la salud, espacio de control de la pobreza que impulsó redes de interdependencia social, claves la educación, ámbito donde primero confluyeron el afán de control, un discurso de los derechos sociales y la presunción de la obligación pública, o como la crisis de 1890 afectó a los trabajadores y a las representaciones de las elites sobre ellos reorientando la cuestión social hasta convertirla en cuestión obrera. **La gente o el capital** José Luis Coraggio, 2004. The Balance between Worker Protection and Employer Powers Nuno Cerejeira Namora, Duarte Abrunhosa e Sousa, 2019-01-17 This book analyses the most important problems and challenges of the current labour market from the point of view of the balance between the parties of the employment contract. The contributions here are related to various pressing topics including for example the future of work and worker protection on an international level against the strengthening of employers' powers. In addition, the nature and limits of employers' power, non-competition contractual clauses and workers' rights in the face of new communication and information technologies are also discussed. The contributors are drawn from several countries such as Portugal, Spain, Bolivia, Italy, Mexico and Switzerland. The book will appeal to lawyers, legal experts, human resources experts, economists, judges, academia and staff from companies and trade unions and employers' representation. The volume features insights and contributions in different languages with chapters in Spanish 12, English 4 and Portuguese 5.
