Repensar la sostenibilidad ENRÍQUEZ SÁNCHEZ José María ,DUCE DÍAZ Carmen ,MIGUEL GONZÁLEZ Luis Javier ,2021-01-11 La sostenibilidad cualidad de lo sostenible hace referencia a un proceso que puede alargarse en el tiempo Cuando este proceso lo referimos a cuestiones socio ecológicas comprobamos cómo desde hace ya largo tiempo no son pocas las voces acreditadas que han puesto sobre aviso del progresivo deterioro ecológico y sus consecuencias perjudiciales para la vida humana Nuestra obra parte de estas negatividades para repensar la idea de sostenibilidad en sus justos términos y así dar cabida a una variedad de aportaciones que ayuden a restituirlas dentro de los límites ecosistémicos *Militarized Lives in the Global South, Volume I* Monica Herz, Thiago Rodrigues, 2025-02-14 In this book we propose to tackle militarization trends in Latin America which include the presence of the military organizations in some vital national economic activities the ethics and aesthetics of the military in popular forms of entertainment the active engagement of military personnel in criminal activities the Armed Forces intervention in electoral processes the Armed Forces engagement in the cybersphere and cyberwarfare their participation in civil defense operations their emulation by militias gangs and other armed non state actors We shall consider militarization on multiple scales from the individual body and subjectification processes to international politics from the everyday experiences and practices to the development of national strategies in Latin America

and we shall avoid the dichotomy between a militarized moment and space and a demilitarized moment and space *Global Neoliberalism and Education and its Consequences* Dave Hill, Ravi Kumar, 2012-04-06 In this groundbreaking critique of neoliberalism in schooling and education an international cast of education policy analysts educational activists and scholars deftly analyze the ideologies underlying the global national and local neoliberalisation of schooling and education The thrilling scholarship that makes up *Global Neoliberalism and Education and its Consequences* exposes the machinations agenda and impacts of the privatising and merchandisation of education by the World Bank the General Agreement on Trade in Services GATS biased think tanks global and national corporations and capital and the full political spectrum of Neoliberal governments Including such topics as the increasing polarization of racialized and gendered social classes as a consequence of neoliberal policies the role and shape of markets and education in the era of globalised Capitalism the effects of the profit motive in higher education the impact of the Heritage Foundation in the USA and even a critical evaluation of education in Cuba readers are sure to find startling insight and provocative arguments throughout *Global Neoliberalism and Education and its Consequences* State Transformations: Classes, Strategy, Socialism , 2021-07-05 It is often remarked that critical and especially Marxist state theory began to lose its central place in the study of comparative politics in the 1980s Ironically this shift occurred just as neoliberal policies were transforming the social form and spatial scales of the state radically restructuring the practices of state economic intervention and extending the capabilities of the coercive arms of the state This volume addresses the impoverishment of state theory over the last decades and insists on the continued salience of class analysis to the study of states The book's title *State Transformations* reflects several central themes in the comparative study of states the neoliberal restructuring of capitalist states the changing economic and political architecture of imperialism and the prospects of a democratic transformation of capitalist states The essays collected here on these themes are in honor and memory of Leo Panitch whose influential body of work has shaped debates on the state imperialism and socialism over the past four decades Contributors are Clyde W Barrow Caio Bugiato Frank Deppe Ruth Felder Ana Garcia Sam Gindin Doug Henwood Martijn Konings Colin Leys Sebnem Oguz Bryan D Palmer Dennis Pilon Larry Savage Charles Smith Michalis Spourdalakis and Hilary Wainwright BRICS Patrick Bond, Ana Garcia, 2015-08-20 The rise of the BRICS a bloc of emerging economies comprised of Brazil Russia India China and South Africa is one of the defining features of the modern global economy This book explores these nations which seem to be growing at a much faster rate than the developed nations of the Eurozone and North America Will they drag the developed world out of the economic mire Will they force social change and innovation into the tired old world order And politically do they herald a new dawn for democracy or do they represent a continued political repression This edited collection answers these questions by offering critical analysis of the rise of the BRICS economies within the framework of a predatory exclusionary and unequal global capitalism From Chinese oil geopolitics to the ruinous mega events in Brazil the authors provide a new radical way of understanding these

controversial developments Towards Just and Sustainable Economies Peter North, Molly Scott Cato, 2017-04-19
