Nukerebuke Writers Artists Against Nuclear Energy Weapons:

An Energy Field More Intense Than War Michael True, 1995-11-01 American history abounds with a rich tradition of literature dealing with nonviolence In a work that spans from the seventeenth century to the present Michael True brings to light the strong but long neglected strain in American culture nonviolence as an active response to conflicts and divisiveness In identifying writings about action for social change he distinguishes literary works from peace advocacy and nonviolence and relates them to broad currents of United States history The Quakers of the 1680s and abolitionists of the 1850s the sanctuary Movement and Plowshares of the 1980s novelists from Nathaniel Hawthorne to Norman Mailer and poets from Walt Whitman to Denise Levertov all have written powerful works on nonviolent action Through this literature the author explores the beauty of an important theme in American literature At a time when people face widespread injustice True reminds us that nonviolence holds a significant place in our country's history **Bulletin of the Atomic Scientists**

, 1984-12 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world *Writing Ground Zero* John Whittier Treat, 1995 Treat summarizes the Japanese contribution to such ongoing international debates as the crisis of modern ethics the relationship of experience to memory and the possibility of writing history This Japanese perspective he shows both confirms and amends many of the assertions made in the West on the shift that the death camps and nuclear weapons have jointly signaled for the modern world and for the future **The**

contemporary Japanese fiction *Oe and Beyond* is a sampling of the best research and thinking on the current generation of Japanese writers being done in English. The essays in this volume explore such subjects as the continuing resonances of the atomic bombings, the notion of transnational subjects, the question of the de/canonization as well as the re/canonization of writers, the construction and deconstruction of gender models, the quest for spirituality amid contemporary Japanese consumer affluence, postmodernity and Japanese infantilism, the intertwining connections between history, myth making and discrimination, and apocalyptic visions of fin de siècle Japan. Contributors pursue various methodological and theoretical approaches to reveal the breadth of scholarship on modern Japanese literature. The essays reflect some of the latest thinking both Western and Japanese on such topics as subjectivity, gender, history, modernity and the postmodern. *Oe and Beyond* includes essays on Endo Shusaku, Hayashi Kyoko, Kanai Mieko, Kurahashi Yumiko, Murakami Haruki, Murakami Ryu, Nakagami Kenji, Oe Kenzaburo, Ohba Minako, Shimada Masahiko, Takahashi Takako, and Yoshimoto Banana. Contributors: Davinder L. Bhowmik, Philip Gabriel, Van C. Gessel, Adrienne Hurley, Susan J. Napier, Sharalyn Orbaugh, Jay Rubin, Atsuko Sakaki, Ann Sherif, Stephen Snyder, Mark Williams, Eve Zimmerman.

American Sublime Rob Wilson, 1991. Tracing ideas of the sublime in American literature from Puritan writings to the postmodern epoch, Rob Wilson demonstrates that the North American landscape has been the ground for political as well as aesthetic transport. He takes a distinctly historical approach and explores the ways in which experiences of the American landscape instill desire for other kinds of vastness: self-expansion, national expansion, and American political power. As Wallace Stevens put it, the American will takes dominion everywhere. Wilson sets the stage for his genealogy with a discussion of the classical notion of the sublime taken primarily from Longinus and the ways that notion was pragmatically transformed by its American setting and appropriated by American poets. He follows this transformation in successive chapters on the Puritans, Bradstreet, through the Naturalists, Livingston and Bryant, from the epitome of the American sublime, Whitman, to the greatest of the modernists, Stevens, and its present-day incarnations, Ashbery and others. Writing today under the sign of Hiroshima, contemporary writers must struggle with the concept of the sublime within a context of spiralling technologies and nuclear force that calls into question the long-standing American sacralization of power. Throughout *American Sublime*, Wilson engages in an original theoretical inquiry into the sublime as term, topic, complex and controversial idea in literary and critical history. Furthermore, he undertakes his historical study from an avowedly postmodern perspective, one that draws on and extends the work of Jameson, Lyotard, Foucault, Lentricchia, Harold Bloom, and others.
