European Integration Klaus-Dieter Borchardt, Commission of the European Communities, 1995

The European integration process, from 1945 to the 21st century Nathalie CupCaKey, 2013-04-10 Essay from the year 2012 in the subject History of Europe European Postwar Period grade 65 100 University of Southampton language English abstract The Second World War was an utterly brutal episode in the history of Europe which would leave its marks for the next half century that followed It had altered the ethnic structure of Europe through population movements and mass murder transforming pre war Europe into a completely different continent In 1945 the European countries were weakened and divided by two super powers the USA on the Western side and the USSR in the East In the following decades Europe will slowly regain confidence the experienced defeat of war brought many countries to place their hope in a unified Europe in which civil wars like the previous two would become impossible The wish to pacify the continent gained in strength and this was the backdrop for the idea of forming a European Community This paper will demonstrate through chronological phases how the integration process of the EU took place while focusing on the various driving forces actors that spurred the community's growth without forgetting to look at the different concerns that darkened the bright horizon of the Union From 1945 to 1959 Common strife towards pacifism and beginnings of cooperation With the common aim of ending the frequent and bloody wars that have shattered most European countries and which were at its highest during the Second World War 1939 1945 the European Union seemed like a bright and promising project even if European leaders were facing heavy challenges since the Yalta summit in 1945 Europe was divided between the United

States and the USSR both retaining control over the Western and the Eastern part of the continent respectively This brought about several conditions and changes for the European countries they were bound to be dominated by the US economically as well as militarily the loss of their status as a Great Power was very painful especially for Britain and France who also gradually lost most of their colonies In spite of a certain number of draw backs the US tutelage also had its good points In the year 1947 for instance the Marshall Plan was set up by the US in order to help Europe recover after the war This strategy was also meant to encourage cooperation between the recipient nation and that was very important so as to bond the two bitter enemies France and Germany and avoid another outbreak of violence in the future Warleigh 2004 *European Integration: Past, Present and Future Perspectives* Llokman Mirtezani, 2024-06-21 This book is a volume consisting of several chapters that address various topics related to the European Union development integration or the future of the member states in this large family The book analyzes the most important current issues concerning the European Union It is comprised of seven chapters that cover significant points in economic development politics and other sensitive issues such as corruption and the fight against organized crime The first chapter is perhaps chosen to be the first because it directly addresses an issue related to the fundamental freedom of movement which is also the main goal of the EU the movement of persons and services and something that characterizes and encompasses the topic of globalization and the respect for human rights There are also current topics related to the future of the EU s green policies for climate sustainability including the specific agreement between the EU and Ukraine The subsequent chapters address topics related to the proper functioning of European institutions as well as the criteria and standards set by the EU for membership in this large family of democratic states The last chapter presents some data and information on EU missions in the candidate countries especially the Western Balkans The authors used analyzed a lot of sources like the Stabilization and Association Agreement the Berlin Plus Agreement the Copenhagen criteria the Green Deal etc
