Addressing South Africa's Moral Crisis Nico Vorster, 2025-08-22 This book attempts to understand and address the psycho social dynamics behind South Africa's moral crisis It describes South Africa as afflicted by state capture violence corruption and the looting of state infrastructure thirty years after the establishment of democracy It then provides a holistic social diagnosis of this problem that integrates the findings of different disciplines into an overall picture of the forces at work in South Africa's collective moral decline Ultimately this book engages with the deeper psycho social phenomena behind South Africa's moral decline arguing that the diagnostic question of why this moral decline has taken place must be answered before turning to the normative question of what ought to happen in this situation Accordingly this book explores themes regarding the innate moral capacities of the human person the effects of need pressures and systemic pressures on ethical decision making and the phenomena of distorted motivational drives and distorted behavioral responses It shows how the framing of virtue centered moral identities might act as buffers against moral disengagement strategies and assist in promoting pro social behavior It then specifies the macro social changes required to create such an ethical social climate The book is of interest to social scientists ethicists behavioral scientists educators theologians and moral philosophers In the end this case study of South Africa shows us more broadly how maintaining public morality and social cohesion is a challenge that most modern societies face

Laible, Gustavo Carlo, Laura M. Padilla Walker, 2019-09-30 *The Oxford Handbook of Parenting and Moral Development* provides a collection of state of the art theories and research on the role that parents play in moral development Contributors who are leaders in their fields take a comprehensive yet nuanced approach to considering the complex links between parenting and moral development *In Search of Goodness* Ruth W. Grant, 2011-03-15 The recent spate of books and

articles reflecting on the question of evil might make one forget that the question of just what constitutes goodness is no less urgent or perplexing Everyone wants to think of him or herself as good But what does a good life look like And how do people become good Are there multiple competing possibilities for what counts as a good life all equally worthy Or is there a unified and transcendent conception of the good that should guide our judgment of the possibilities What does a good life look like when it is guided by God How is a good life involved with the lives of others And finally how good is good enough These questions are the focus of *In Search of Goodness* the product of a year long conversation about goodness The eight essays in this volume challenge the dichotomies that usually govern how goodness has been discussed in the past altruism versus egoism reason versus emotion or moral choice versus moral character Instead the contributors seek to expand the terms of the discussion by coming at goodness from a variety of perspectives psychological philosophic literary religious and political In each case they emphasize the lived realities and particulars of moral phenomena taking up examples and illustrations from life literature and film From Achilles and Billy Budd to Oskar Schindler and Shel Silverstein's *The Giving Tree* to Iris Murdoch and the citizens of Flagstaff Arizona readers will find a wealth of thought provoking insights to help them better understand this most basic but complex element of human life and happiness *Liminality in Tourism* Robert S. Bristow, Ian Jenkins, 2021-09-05 Liminality is not typically associated with tourism even though it can be viewed as an intrinsic element of the social cultural experiences of tourism *Liminality in Tourism Spatial and Temporal Considerations* aims to build upon the

tradition of liminality as expounded in social and anthropological disciplines elaborating on the theoretical principles and concepts found within certain aspects of the tourist journey and tourist product The emergence of post modern society has impelled a change in the tourist gaze towards a more experiential and adventuresome globalised experience An important aspect of the tourist phenomenon of liminality is where a transformative experience is triggered by entering a liminoid tourist space leaving the tourist permanently psychologically transformed before returning to normalised society The narrative provides a new perspective on the tourist experience with a provocative examination into the multidimensional aspects of tourism by exploring tourism within the spatial and temporal aspects of liminal landscapes Covid 19 has further changed the rubric of tourism Until the current pandemic tourism has basically been a fun experience In a post pandemic world however the tourist is now facing an unknown future which will almost certainly affect tourism liminality This book presents the reader with a wealth of examples and case studies closely illustrating the association between tourism and liminal experiences The geographical perspectives explore the more subconscious outcomes of destination and tourist product consumption The book should be a useful reader to tourism geography where the theory of liminality can be synthesized into tourist experiences The chapters in this book were originally published as a special issue of the journal Tourism Geographies
