Reese S.J., 1998-02-19

There are one billion Catholics in the world today spread over every continent speaking almost every conceivable language and all answering to a single authority The Vatican is a unique international organization both in terms of its extraordinary power and influence and in terms of its endurance Popes come and go but the elaborate and complex bureaucracy called the Vatican lives on For centuries it has served and sometimes undermined popes it has been praised and blamed for the actions of the pope and for the state of the church Yet an objective examination of the workings of the Vatican has been unavailable until now Drawing on more than a hundred interviews with Vatican officials this book affords a firsthand look at the people the politics and the organization behind the institution Reese brings remarkable clarity to the almost Byzantine bureaucracy of congregations agencies secretariats tribunals nunciature and offices showing how they serve the pope and through him the universal church He gives a lively account of how popes are elected and bishops appointed how dissident theologians are disciplined and civil authorities dealt with Throughout revealing and colorful anecdotes from church history and the present day bring the unique culture of the Vatican to life The Vatican is a fascinating institution a model of continuity and adaptation which remains constant while functioning powerfully in a changing world As never before this book provides a clear objective perspective on how the enormously complex institution surrounding the papacy operates on a day to day level how it has

adapted and endured for close to two thousand years and how it is likely to face the challenges of the next millennium

Medieval Western Christendom Robert Chazan, 2006-11-23 Between the years AD 1000 and 1500 western Christendom absorbed by conquest and attracted through immigration a growing number of Jews This community was to make a valuable contribution to rapidly developing European civilisation but was also to suffer some terrible setbacks culminating in a series of expulsions from the more advanced westerly areas of Europe At the same time vigorous new branches of world Jewry emerged and a rich new Jewish cultural legacy was created In this important historical synthesis Robert Chazan discusses the Jewish experience over a 500 year period across the entire continent of Europe As well as being the story of medieval Jewry the book simultaneously illuminates important aspects of majority life in Europe during this period This book is essential reading for all students of medieval Jewish history and an important reference for any scholar of medieval Europe

Metamorphoses of the City Pierre Manent, 2013-09-23 *Metamorphoses of the City* is a sweeping interpretation of Europe's ambition to generate ever better forms of collective self government from ancient city states and empires to a universal church and the nation state But the nation state is nearing the end of its line Pierre Manent says and what will supplant it remains to be seen **The Ancient Roman City** John E. Handbook on Global Constitutionalism Anthony F. Lang, Antje Wiener, 2023-11-03 This thoroughly revised Handbook presents an up to date political and philosophical history of global constitutionalism By exploring the constitutional like qualities of international affairs it provides key insight into the evolving world order *Shakespeare's Roman Trilogy* Paul A. Cantor, 2017-06-28 Paul A Cantor first probed Shakespeare's

Roman plays *Coriolanus* *Julius Caesar* and *Antony and Cleopatra* in his landmark *Shakespeare's Rome* 1976 With *Shakespeare's Roman Trilogy* he now argues that these plays form an integrated trilogy that portrays the tragedy not simply of their protagonists but of an entire political community Cantor analyzes the way Shakespeare chronicles the rise and fall of

the Roman Republic and the emergence of the Roman Empire The transformation of the ancient city into a cosmopolitan empire marks the end of the era of civic virtue in antiquity but it also opens up new spiritual possibilities that Shakespeare correlates with the rise of Christianity and thus the first stirrings of the medieval and the modern worlds More broadly Cantor places Shakespeare's plays in a long tradition of philosophical speculation about Rome with special emphasis on Machiavelli and Nietzsche two thinkers who provide important clues on how to read Shakespeare's works In a pathbreaking chapter he undertakes the first systematic comparison of Shakespeare and Nietzsche on Rome exploring their central point of contention Did Christianity corrupt the Roman Empire or was the corruption of the Empire the precondition of the rise of Christianity Bringing Shakespeare into dialogue with other major thinkers about Rome Shakespeare's Roman Trilogy reveals the true profundity of the Roman Plays **Avignon and Its Papacy, 1309-1417** Joëlle Rollo-Koster, 2015-08-20 With the arrival of Clement V in 1309 seven popes ruled the Western Church from Avignon until 1378 Joëlle Rollo-Koster traces the compelling story of the transplanted papacy in Avignon the city the popes transformed into their capital Through an engaging blend of political and social history she argues that we should think more positively about the Avignon papacy with its effective governance intellectual creativity and dynamism It is a remarkable tale of an institution growing and defending its prerogatives of people both high and low who produced and served its needs and of the city they built together As the author reconsiders the Avignon papacy 1309-1378 and the Great Western Schism 1378-1417 within the social setting of late medieval Avignon she also recovers the city's urban texture the stamp of its streets the noise of its crowds and celebrations and its people's joys and pains Each chapter focuses on the popes their rules the crises they faced and their administration but also on the history of the city considering the recent historiography to link the life of the administration with that of the city and its people The story of Avignon and its inhabitants is crucial for our understanding of the institutional history of the papacy in the later Middle Ages The author argues that the Avignon papacy and the Schism encouraged fundamental institutional changes in the governance of early modern Europe effective centralization linked to fiscal policy efficient bureaucratic governance court society *société de cour* and conciliarism This fascinating history of a misunderstood era will bring to life what it was like to live in the fourteenth century capital of Christianity Comparative Politics Edward Augustus Freeman, 1873 Persuading Shipwrecked Men Lyn M. Kidson, 2020-09-15 In this work Lyn M Kidson moves away from the traditional interpretation of 1 Timothy as a church manual and argues that the coordinating purpose of the letter is to command certain men and women not to teach an educational program that is being promoted by factional leaders Hymenaeus and Alexander The Roman Spirit in Religion, Thought, and Art Albert Grenier, 1926 The Urban Garden City Sandrine Glatron, Laurence Granchamp, 2018-03-24 This book provides an interdisciplinary overview of the role of gardens in cities throughout different historical periods It shows that thanks to various forms of spatial and social organisation gardens are part of the material urban landscape biodiversity symbolic and social shape and assets of our cities

and are increasingly becoming valued as an order to follow Gardens have long been part of the development of cities serving different purposes through the ages shaping neighborhoods to promote health or hygiene introducing aesthetic or biological elements gathering the citizens around a social purpose and providing food and diversity in times of crisis Highlighting examples that can serve as the basis for comparisons the chapters offer a brief panorama of experiences and models of gardens in the city in the European context and in various periods of history while also discussing issues related to garden cities urban agriculture and community gardens The contributors are university staff from various disciplines in the human and life sciences in discourse with other academics but also with practitioners who are interested in experiences with urban gardens and in promoting an awareness of their spatial social and philosophical goals throughout history The book will appeal to urban geographers sociologists and historians but also to urban ecologists dealing with ecosystem services biodiversity and sustainable development in cities From a more operational standpoint landscape planners and architects are sure to find many of the projects enlightening and inspirational
