Archaeological Laboratory Methods Mark Q. Sutton, Brooke S. Arkush, 2002 *Preserving Field Records* Mary Anne Kenworthy, 1985 Manual of principles materials and techniques for the organisation and preservation of paper records film tape video and machinereadable records *Archival Strategies and Techniques* Michael R. Hill, 1993-09-28 I think that anyone who has an interest in traditional archival research will find this a thoughtful and valuable guide to the many different elements of the research process Theory and Methods His research advice is systematic and thorough and could easily serve for other researchers than sociobiographers In eighty eight pages Hill has managed to pack not only this sound research advice but a critique of archival practices and a six page bibliography The book is certainly worth a read and could give archivists an opportunity to broaden their sociological horizons Archivaria Michael Hill s monograph Archival Strategies

and Techniques depicts a world that some might think would be as dusty as old manuscripts themselves but in the process of describing the excitements joys frustrations and ethical conundrums he has demonstrated that the archival scholar can share thrills and fears with Indiana Jones Hill's book is filled with lively anecdote compelling analysis and a full measure of wit This monograph will be an invaluable companion for anyone planning to spend time in libraries dusty or otherwise Gary Alan Fine University of Georgia Much more than a how to book Michael Hill interprets archives and their use from a Goffmanian sociological perspective As an extra benefit he guides readers through the archival process by drawing on a sociological historical project the recovery of unknown or presently discounted social scientists Any teacher who assigns a term paper to students will want to recommend this book Shulamit Reinharz Brandeis University Michael Hill has produced a lively and for some of us comforting guide to archival research in sociology The book is comforting because among the gems contained within this short monograph is a discussion of the need to recover unknown or presently discounted social scientists as an important epistemological task Network Historical and biographical research is increasingly used by social scientists as an important form of qualitative research This kind of research usually requires the extensive use of formal archives housed in university and government buildings museums and other institutions This concise but practical book provides the rules of the game for the novice on conducting and preparing to work in archives the protocol of using archives and ways of organizing and referencing the useful data from the archive This intriguing volume will interest scholars and students from a wide array of disciplines using this type of research for social analysis Museum Handbook United States. Hohn, 2008 A stunning account of the economic workings of the Third Reich and the reasons ordinary Germans supported the Nazi state In this groundbreaking book historian Gtz Aly addresses one of modern history's greatest conundrums How did Hitler win the allegiance of ordinary Germans The answer is as shocking as it is persuasive by engaging in a campaign of theft on an almost unimaginable scale and by channeling the proceeds into generous social programs Hitler literally bought his people's consent Drawing on secret files and financial records Aly shows that while Jews and citizens of occupied lands

suffered crippling taxation mass looting enslavement and destruction most Germans enjoyed an improved standard of living Buoyed by millions of packages soldiers sent from the front Germans also benefited from the systematic plunder of conquered territory and the transfer of Jewish possessions into their homes and pockets Any qualms were swept away by waves of government handouts tax breaks and preferential legislation Gripping and important Hitler s Beneficiaries makes a radically new contribution to our understanding of Nazi aggression the Holocaust and the complicity of a people
