President's Column: "The Second Decade" — and Beyond

W. Andrew Collins
University of Minnesota
SRA President

For SRA, 2001 marks not only the beginning of a new millennium, but also the 15th anniversary of our organization. Founded to foster research on "the second decade of life," SRA is now halfway through its own second decade of life!

Those of you who attended the eighth biennial meeting in Chicago last April know that the Society has passed that awkward stage. 1,200 people—more than twice the number who attended our convention in Atlanta in 1990 and one-third more than attended our first San Diego meeting in 1994—came to Chicago. Thanks to the superb leadership of program co-chairs Susan Silverberg Koerner and Bonnie Barber and the support of local arrangements co-chairs Roberta Paikoff and Grayson Holmbeck the program, by any measure, was the most successful in our history.

In 2002, we will meet in New Orleans, and we expect another record-breaking attendance. Co-chairs Andrew Fuligni and Niobe Way are already beginning to plan for another stellar program. Mark your calendars! The dates of the meeting are April 10-14, 2002, and the headquarters hotel is the Hyatt Regency, New Orleans!

Sponsoring consistently stimulating biennial meetings is one sign that SRA is quickly coming of age. Over the coming two years our goal is to help to consolidate and extend SRA's remarkable achievements in three additional

W. Andrew Collins

This second decade will pass swiftly. A productive maturity lies just ahead, especially if SRA can meet the opportunities of the rest of its organizational adolescence.

areas: building our effectiveness in advancing research on adolescence, expanding participation in SRA, and consolidating the financial and organizational gains of recent years.

Advancing research

SRA's foremost purpose is to advance research, most visibly through our biennial meeting and our journal. Like our conferences, *Journal of Research on Adolescence* has established itself as an important and influential scientific journal. Its own second decade is now beginning under new editor continued on page 2

President (1945-1953 : Truman), 1964 Public Papers of the Presidents of the United States: Harry S. Truman, 1948, Volume 4 Truman, Harry S., 1963-01-01 Public Papers of the Presidents of the United States The President on Capitol Hill Jeffrey E. Cohen, 2019-06-11 Can presidents influence whether Congress enacts their agenda Most research on presidential congressional relations suggests that presidents have little if any influence on Congress Instead structural factors like party control largely determine the fate of the president s legislative agenda In The President on Capitol Hill Jeffrey E Cohen challenges this conventional view arguing that existing research has underestimated the president s power to sway Congress and developing a new theory of presidential influence Cohen demonstrates that by taking a position the president converts an issue from a nonpresidential into a presidential one which leads members of Congress to consider the president s views when deciding how to vote Presidential position taking also converts the factors that normally affect roll call voting such as party public opinion and policy type into resources that presidents can leverage to influence the vote By testing all House roll calls from 1877 to 2012 Cohen finds that not only do presidents have more influence than previously thought but through their influence they can affect the substance of public policy The President on Capitol Hill offers a new perspective on presidential congressional relations showing that presidents are not simply captives of larger political forces but rather major players in the legislative process The Myth of Presidential Representation B. Dan Wood, 2009-06-22 The Myth of Presidential Representation evaluates the nature of American presidential representation examining the strongly embedded belief held by the country s founders as well as current American political culture and social science theory that presidents should represent the community at large Citizens expect presidents to reflect prevailing public sentiment and compromise in the national interest Social scientists express these same ideas through theoretical models depicting presidential behavior as driven by centrism and issue stances adhering to the median voter Yet partisanship seems to be a dominant theme of modern American politics Do American presidents adhere to a centrist model of representation as envisioned by the founders Or do presidents typically attempt to lead the public toward their own more partisan positions If so how successful are they What are the consequences of centrist versus partisan presidential representation The Myth of Presidential Representation addresses these questions both theoretically and empirically The Provisional Pulpit Brandon Rottinghaus, 2010-04-07 The cornerstone of the public presidency is the ability of the White House to influence shape and even manipulate public opinion Ultimately although much has been written about presidential leadership of opinion we are still left with many questions pertaining to the success of presidential opinion leadership efforts throughout the modern presidency What is still missing is a systematic sequential approach to describe empirical trends in presidential leadership of public opinion in order to expand on important scholarly

queries to resolve empirical disputes in the literature and to check the accuracy of conventional political wisdom on how when and under what conditions presidents lead public opinion In *The Provisional Pulpit* Brandon Rottinghaus develops a simple theory of presidential leadership arguing that presidential messages are more likely to be received if there are fewer countervailing agents or messages to contradict the president's message He concludes based upon the findings presented in this book that the bully pulpit is largely provisional for modern presidents The more the president can avoid the political echo chamber associated with partisan battles or communications the better the chance the president has to lead public opinion *The Provisional Pulpit* adds an important layer of understanding to the issue of how and under what conditions presidents lead public opinion All modern presidents clearly attempt to lead public opinion often due to factors outside their control they fail This book is an exploration into how and when they succeed **Kenya Gazette**, 1966-09-13 The Kenya Gazette is an official publication of the government of the Republic of Kenya It contains notices of new legislation notices required to be published by law or policy as well as other announcements that are published for general public information It is published every week usually on Friday with occasional releases of special or supplementary editions within the week

Presidential Saber Rattling B. Dan Wood,2012-08-27 The founders of the American republic believed presidents should be wise and virtuous statesmen consistently advocating community interests when conducting American foreign policy Yet the most common theoretical model used today for explaining the behavior of politicians is grounded in self interest rather than community interest This book investigates whether past presidents acted as noble statesmen or were driven by such self interested motivations as re election passion partisanship media frenzy and increasing domestic support The book also examines the consequences for the nation of presidential behavior driven by self interest Between 1945 and 2008 presidents issued 4 269 threats to nineteen different countries Professor B Dan Wood evaluates the causes and consequences of these threats revealing the nature of presidential foreign policy representation and its consistency with the founding fathers intentions
