Sakharkar,2008-12-01 There is a remarkable shift towards technology and expert competence in the modern medical care which is reshaping the hospital services Though affordability of cost is questionable the need is incontrovertible Hospitals need a sizable investment in resources and professionally qualified personnels for prudent administration and management This book provides information and knowledge needed for hospital management and planning of resources for efficient optimum use The chapters on Intensive Care Unit and services during disaster management situations and handling of biomedical waste shall be highly useful for both administrators and students It explains adequately the concept of quality and efficient services in the hospitals Health Care Administration Lawrence F. Wolper,Jesus J. Pena,1987 **Principles of Hospital Administration** John R. McGibony,1969 Principles of Hospital Administration and the Training of Hospital Executives (Classic Reprint) Committee on the Training of Executives,2015-07-11 Excerpt from Principles of Hospital Administration and the Training of Hospital Executives An interpretation of the principles involved in hospital functions organization and tendencies and a presentation of their relationships to the broad problems and activities of community life aryl to the professional groups should be the basis of training for hospital executives An attempt to merely provide a vocabulary or even considerable information relative to this complex field would probably be insufficient A philosophy of community responsibility in matters of health is rapidly growing and ultimate success depends upon a proper interpretation of the principles involved logical plans of organization and finance to meet the various situations and the development of a group of creative leaders in the field of health economics It is logical to look to the professional groups now identified with health activities they have a responsibility which can not be shifted to develop such leaders and to supply information and advice as to sound methods of meeting the growing demand for adequate health services Obviously attention must be directed primarily to securing leaders and developing sound health policies as rapidly as possible rather than to formulating theoretical courses of study supplying information or meeting superficially the immediate demands although these matters must have proper consideration The hospital can not be separated from the problems of health Security happiness and progress national no less than individual are in considerable measure dependent upon individual health and vigor Health as such is a positive state which within limits can be maintained or restored and it is incumbent upon communities to have within themselves or accessible reasonable provisions for such maintenance and restoration Owing however to the great diversity of conditions of local social economic life and the varying degrees of local public opinion relative to sound health policies attempts to superimpose artificial programs and standards to legislate rather than educate are illogical The problems are as yet essentially local and practical not general or theoretical and the appropriate solution must be sought accordingly About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged
