Williams, 2011-03-03 This work is an in depth on the ground examination of how prisons impact rural communities including a revealing study of two rural communities that have chosen prisons as an economic development strategy A recent study by the Urban Institute estimates that one third of all counties in the United States house a prison and that our prison and jail population is now over 2.1 million Another report indicates that more than 97 percent of all U.S. prisoners are eventually released and communities are absorbing nearly 650,000 formerly incarcerated individuals each year These figures are particularly alarming considering the fact that rural communities are using prisons as economic development vehicles without fully understanding the effects of these jails on the area This book is the result of author Eric J. Williams ground level research about the effects of prisons upon two rural American communities that lobbied to host maximum security prisons Through hundreds of interviews conducted while living in Florence Colorado and Beeville Texas Williams offers the perspective of local residents on all sides of the issue as well as a social history told mainly from the standpoint of those who lobbied for the prisons

Fire in the Big House Mitchel P. Roth, 2019-10-08 On April 21 1930 Easter Monday some rags caught fire under the Ohio Penitentiary's dry and aging wooden roof shortly after inmates had returned to their locked cells after supper In less than an hour 320 men who came from all corners of Prohibition era America and from as far away as Russia had succumbed to fire and smoke in what remains the deadliest prison disaster in United States history Within 24 hours moviegoers were watching Pathé's newsreel of the fire and in less than a week the first iteration of the weepy ballad *Ohio Prison Fire* was released The deaths brought urgent national and international focus to the horrifying conditions of America's prisons at the time of the fire the Ohio Penitentiary was at almost three times its capacity Yet amid darkening

world politics and the first years of the Great Depression the fire receded from public concern In *Fire in the Big House* Mitchel P Roth does justice to the lives of convicts and guards and puts the conflagration in the context of the rise of the Big House prison model local and state political machinations and American penal history and reform efforts The result is the first comprehensive account of a tragedy whose circumstances violent unrest overcrowding poorly trained and underpaid guards unsanitary conditions inadequate food will be familiar to prison watchdogs today

Big House on the Prairie John M. Eason, 2017-03-06 Now more than ever we need to understand the social political and economic shifts that have driven the United States to triple its prison construction in just over three decades John Eason goes a very considerable distance here in fulfilling this need not by detailing the aftereffects of building huge numbers of prisons but by vividly showing the process by which a community seeks to get a prison built in their area What prompted him to embark on this inquiry was the insistent question of why the rapid expansion

of prisons in America why now and why so many He quickly learned that the prison boom is best understood from the perspective of the rural southern towns where they tend to be placed North Carolina has twice as many prisons as New Jersey though both states have the same number of prisoners And so he sets up shop as it were in Forrest City Arkansas where he moved with his family to begin the splendid fieldwork that led to this book A major part of his story deals with the emergence of the rural ghetto abetted by white flight de industrialization the emergence of public housing and higher proportions of blacks and Latinos How did Forrest City become a site for its prison Eason takes us behind the decision making scenes tracking the impact of stigma a prison in my backyard not a likely desideratum economic development poverty and race while showing power sharing among opposed groups of elite whites vs black race leaders Eason situates the prison within the dynamic shifts rural economies are undergoing and shows how racially diverse communities can achieve the siting and building of prisons in their rural ghetto The result is a full understanding of the ways in which a prison economy takes shape and operates

Corrections John T. Whitehead, Kimberly D. Dodson, Bradley D. Edwards, 2012-09-28 *Corrections Exploring Crime Punishment and Justice in America* provides a thorough introduction to the topic of corrections in America In addition to providing complete coverage of the history and structure of corrections it offers a balanced account of the issues facing the field so that readers can arrive at informed opinions regarding the process and current state of corrections in America The 3e introduces new content and fully updated information on America s correctional system in a lively colorful readable textbook Both instructors and students benefit from the inclusion of pedagogical tools and visual elements that help clarify the material
