Qaddafi Mohamed A. El-Khawas,1986 **Qaddafi** Mohamed El-Khawas,1987-05 The 20th Century O-Z Frank N. Magill,2013-05-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully annotated bibliography **A History of Social Justice and Political Power in the Middle East** Linda T. Darling,2013-05-02 From ancient Mesopotamia into the 20th century the Circle of Justice as a concept has pervaded Middle Eastern political thought and underpinned the exercise of power in the Middle East The Circle of Justice depicts graphically how a government s justice toward the population generates political power military strength prosperity and good administration This book traces this set of relationships from its earliest appearance in the political writings of the Sumerians through four millennia of Middle Eastern culture It explores how people conceptualized and acted upon this powerful insight how they portrayed it in symbol painting and story and how they transmitted it from one regime to the next Moving towards the modern day the author shows how although the Circle of Justice was largely dropped from political discourse it did not disappear from people s political culture and expectations of government The book demonstrates the Circle s relevance to the Iranian Revolution and the rise of Islamist movements all over the Middle East and suggests how the concept remains relevant in an age of capitalism A must read for students policymakers and ordinary citizens this book will be an important contribution to the areas of political history political theory Middle East studies and Orientalism

Historical Dictionary of Libya Ronald Bruce St John,2014-06-04 Of all the states of the Middle East and North Africa Libya has long been the country about which the least is known It is only in recent times that scholars and the general public alike have begun to appreciate the complexity of Libya s turbulent history including the recent February 17th Revolution in 2011 when protests broke out throughout Libya demanding better living conditions and more job opportunities When the Qaddafi regime responded with force killing scores of unarmed civilians the protesters called for regime change In what came to be known as the February 17th Revolution the Qaddafi regime was overthrown and Qaddafi was killed in October 2011 In July 2012 the Libyan people elected a General National Congress charged with overseeing the drafting of a new constitution and the election of a national government This fifth edition of Historical Dictionary of Libya covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 400 cross referenced entries on important personalities politics economy society conflicts and the culture of Libya This book is an excellent access point for students researchers and anyone wanting to know more about Libya **Political Alienation in**

Libya Mabroka Al-Werfalli, 2022-07-01 How are legitimacy and alienation related When citizens withdraw their loyalty from their political regime and leaders they highlight their alienation The link between legitimacy and alienation is that the regime's claim of legitimacy is in question when a state of political alienation prevails This book examines the extent and effects of political alienation in Libya It provides an insight into the political mindset of the Libyan people leading up to the 2011 protests and the resulting civil war Using a variety of measures the book highlights links between legitimacy and alienation and underlines certain types of political behavior commonly associated with political alienation drawing attention to various causes of indifference and violent behavior associated with political alienation in Libyan society The book's findings reveal that alienation has led to wide spread political apathy as well as low or non-existent levels of political participation among Libyans Every year the percentage of eligible Libyans involved in political activities has declined The Basic Popular Congresses BPCs which work as an essential vehicle for political participation within the Libyan political regime have been treated as immature institutions by the revolutionary leadership who have remained in the eyes of the people the only actor of note As a result these trends are being increasingly interpreted as signs of the gradual exhaustion of a model for which there is no clear alternative in sight

Political Culture in Libya Amal S M Obeidi, Amal Obeidi, 2013-09-05 Few empirical studies of Arab countries have dealt with political culture and political socialisation or focused on people's beliefs values and attitudes towards the government or political leaders mainly because the regimes have been reluctant to allow opinion to be tested The significance of this book is that it assesses the influence of state ideology on the new generation of Libyans and examines their political culture

Religious Anarchism Alexandre J. M. E. Christoyannopoulos, 2009-10-02 Both religion and anarchism have been increasingly politically active of late This edited volume presents twelve chapters of fresh scholarship on diverse facets of the area where they meet religious anarchism The book is structured along three themes early Christian anarchist pioneers including Pelagius Coppe Hungarian Nazarenes and Dutch Christian anarchists Christian anarchist reflections on specific topics such as Kierkegaardian indifference Romans 13 Dalit religious practice and resistance to race and nation religious anarchism in other traditions ranging from Wu Nengzi's Daoism and Rexroth's Zen Buddhism to various currents of Islam including an original Anarca Islamic clinic This unique book therefore furthers scholarship on anarchism on millenarian and revolutionary thinkers and movements and on religion and politics It is also of value to members of the wider public interested in radical politics and in the political implications of religion And of course it is relevant to those interested in any of the specific themes and thinkers focused on within individual chapters In short this book presents a range of innovative perspectives on a web of topics that while held together by the common thread of religious anarchism also speaks to numerous broader themes which have been increasingly prominent in the twenty first century

Dictionary of World Biography: The 20th century, O-Z Frank Northern Magill, Christina J. Moose, Alison Aves, 1999-11 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark

A History of Modern Libya Dirk Vandewalle, 2012-03-23 In the wake of the civil war and Qadhafi's demise the time is ripe for a new edition of Dirk Vandewalle's classic history of Libya The book which was originally published in 2006 traces the country's history back to the 1900s through the Italian occupation in the early twentieth century the Sanusi monarchy and thereafter to the revolution of 1969 and the accession of Qadhafi The following chapters analyse the economics and politics of Qadhafi's revolution offering insights into the man and his ideology as reflected in his Green Book The new edition covers the intervening years since 2005 when courted by the West Qadhafi came in from the cold At home though his people were disillusioned and economic liberalization came too late to forestall revolution In an epilogue the author reflects upon Qadhafi's premiership and the legacy he leaves behind

Educators of the Mediterranean... ..Up Close and Personal Ronald G Sultana, 2012-01-01 A score of prominent educators from South Europe and the Middle East and North Africa region speak about their upbringing their educational and professional journeys their academic achievements and their struggles in order to enhance democracy justice and equity in their countries and across the Mediterranean The interviews in this volume shed light on educational movements challenges and aspirations in a region that is attaining increasing importance geo politically and in comparative and international studies These are powerful and critical voices providing readers with fresh often unexpected insights about contexts cultures and convictions that deserve global attention The interviews with these men and women inform intrigue but above all inspire calling as they do for an earnest commitment to a vision of education as a transformative democratising force In contrast to the global totalising discourse that has increasingly defined education in narrowly economic terms here are the beginnings of alternative agendas inviting citizens to read and decode the world around them and to confront power wherever it lies In doing so the educators in this volume draw upon and put at our disposal a wide array of theoretical lenses nimbly weaving these within a narrative that speaks about a lifetime lived in the hope of making a difference These then are vivid engaging

and reflexive accounts emerging from contexts where democracy has only recently taken root if at all and from a region that has come to symbolize the return of the political and the reclaiming of the public sphere as a site for transformation contestation revolt and hope
