Quantico Charles A. Fleming, Usmc Lieutenant Colonel Charle Fleming, Robin L. Austin, Charles A. Braley, III., Usmc Captain C Braley III, 2014-06-01 This brief history of the Quantico Marine Corps Base Quantico Virginia was initiated in early 1975 at the suggestion of Lieutenant General Edward S Fris U S Marine Corps Retired then the Commanding General Marine Corps Development and Education Command at Quantico This project was begun as the Marine Corps approached its two hundredth anniversary and as the United States moved into its Bicentennial year Because of the Bicentennial spirit and geographical location of the base a decision was made early in the project not to limit it to just Marine Corps activities but to include a summary of the preceding events of this very historical area Many persons who tackle a project of this sort are frustrated by the lack of available information and the necessity for lengthy and extensive research This was not exactly the case with this one The Marine Corps must be one of the most written about organizations in the history of the United States The problem with this project was not the lack of information but the sheer volume of material scattered among hundreds of official and commercial books letters diaries official correspondence personal collections research studies and reports files hidden away in cabinets or boxes and personal recollections of hundreds of Marines former Marines and their families Indeed the biggest problem with this project was the location selection sifting evaluation and compilation of the vast quantities of information available **Quantico** Charles A. Marine corps. History and museums division, 1978 **A Marine's Odyssey** Larry Ritchie Williams, 2017-11-23 Colonel Larry Williams spent twenty seven years in the United States Marine Corps commanding ten units and organizations while serving from Japan and Vietnam to Moscow and Beirut Here is his account It started by a chance discovery and years later was dramatically reoriented by a coin toss As the high school class of 1953 anticipated graduation they chatted in the hallways exchanging ideas about future plans His afternoon and Saturday jobs during high school did not provide enough money for college One day while changing classes he observed a booklet on his homeroom teacher s desk that described the NROTC as how one might earn a commission in the United States Navy and even compete for a college scholarship It contained an application Upon graduation from the University of North Carolina at Chapel Hill four years later he was commissioned a second lieutenant in the Marine Corps preparing to serve the obligated four years payback for his free education It seemed like a good plan but life often has little respect for planning Within three years he was on Okinawa separated from his wife and their two newborns for a thirteen month deployment On his return he joined the faculty at the Army Artillery and Missile School Then it was another thirteen months away this time in Vietnam Reassigned to Frankfurt Germany he commanded Marine Security Guards in twenty seven diplomatic posts in Europe including six behind the Iron Curtain Upon graduation from the Armed Forces Staff College in Norfolk he and a classmate were informed by Headquarters Marine Corps that they both were to be reassigned to WestPac western pacific for a year with one going to Okinawa and the other to Vietnam

Headquarters asked for their preferences Both wanted to return to Vietnam He lost the coin toss and it was back to Okinawa That coin toss was to significantly restructure his career and his life The subsequent years included managing the security at the Naval Air Station Alameda California made turbulent by the prevailing civil rights and antiwar environment contributing to the Marine Corps becoming the only military service to support every dollar spent with explicit cost benefit analysis in spite of opposition by the Army and the DoD fielding a totally new light armor combat capability into the Marine Corps with an innovative acquisition program completing within budget and only 2 25 years from concept to production conducting Arctic exercises in North Norway including a night amphibious landing unseen by Russians just a mountain range away in Murmansk commanding the largest artillery organization in the world and trying unsuccessfully to contribute to a peaceful resolution to conflict in Lebanon in 1983
