

American Revolution Notes: Radical or Moderate

8 pages | 1821 words

Some historians argue that the Revolution was solely aimed at achieving the limited goal of independence from Britain. There was a consensus among the Americans about keeping things as they were once the break from Britain had been accomplished. The Revolution was inevitably viewed as a struggle of liberty versus tyranny between America and Britain. The Revolution was "radical in its character," according to Bancroft, because it hastened the advance of human beings toward a millennium of "everlasting peace" and "universal brotherhood." The imperial school believed that political and constitutional issues brought on the Revolution.

The Progressive historians held that the primary causes were social and economic. Gipson claimed the British were justified in taxing the Americas and tightening the Navigation Acts after 1763, because largely British blood and money had been expended in the "Great War for Empire," 1754-1763 (French and Indian War). Carl L. Becker, Charles A. Beard, Arthur M. Schlesinger Sr., and J. Franklin Jameson stressed class conflict as well as insisted the political or constitutional ideas had an underlying economic basis. Disenchantment of the merchants with British rule, said Schlesinger, arose from the economic reverses they suffered as a result of the strict policy of imperial control enacted by the mother country after the French and Indian War.

The merchant class later became, in Schlesinger's words, "a potent factor o the conservative counterrevolution that led to the establishment of the United States Constitution." In the struggle between colonies and the mother country, the Americans emerged as the "conservatives" because they were trying to keep matters as they were before 1763. Daniel J. Boorstin argued that the revolution was conservative on the imperial as well as the local level because Americans were fighting to retain traditional rights and liberties granted to them under the British constitution.

In refusing to accept the principle of no taxation without representation, Boorstin wrote, the patriots were insisting upon an old liberty, not a new right. The colonists, according to Bailyn, were convinced that there was a sinister plot against liberty in both England and America. Americans believed the conspiracy had succeeded in England and that America represented the last bastion or the defense of English liberties and the freedom of all mankind. Bailyn took issue with the Progressive historians who declared that the patriot leaders were indulging in mere rhetoric when they employed such words as conspiracy, corruption, and slavery.

The colonists meant what they said; the fear of conspiracy against constitutional authority was built into the very structure of politics, and these words represented "real fears, real anxieties, [and] a sense of real danger." Nash concluded that social changes had turned these seaport communities into "crucibles of revolutionary agitation." The increasing poverty and the narrowing of economic opportunities resulted in resentment and rising class consciousness among segments of the artisan class. Some [New Left Historians] pictured the Revolution as a social movement – an internal struggle within the colonies – caused in part by class antagonism.

Gross's conclusion was conservative – that the townspeople had gone to war not...

There was a time when New York was everything to me my mother my mistress my Mecca when I could no more have wanted to live any place else than I could have conceived of myself as a daddy disciplining my boy and dandling my daughter So begins *Nights in the Gardens of Brooklyn* which gives its title to Harvey Swados's collected stories In this beautiful and heartbreaking novella Swados describes a generation aflame with romance and disillusion in search of pleasures and answers and shows how the demands of love and life temper its hopes and fears It is a perennial story told by Swados in straightforward and lyrical prose and with tremendous sympathy and without doubt one of the most enduring achievements of postwar American fiction Harvey Swados's many splendid stories speak of work friendship and family They are about the common world as well as the final loneliness from which the common world cannot protect us And yet Swados as Richard Gilman has written was above all concerned with the breakthrough into true feeling the attainment of moral dignity and the linking up with others through compassion *The Unknown Constellations* Harvey Swados, 1995 **The Port Huron**

Levy,2024-04-22 It is a powerful story the relationship between the 1960s New Left and organized labor was summed up by hardhats confronting students and others over US involvement in Vietnam But the real story goes beyond the Love It or Leave It signs and melees involving blue collar types attacking protesters Peter B Levy challenges these images by exploring the complex relationship between the two groups Early in the 1960s the New Left and labor had cooperated to fight for civil rights and anti poverty programs But diverging opinions on the Vietnam War created a schism that divided these one time allies Levy shows how the war combined with the emergence of the black power movement and the blossoming of the counterculture drove a permanent wedge between the two sides and produced the polarization that remains to this day
