Radical Left And American Foreign Policy:

The Radical Left and American Foreign Policy Robert W. Tucker, Washington Center of Foreign Policy Research, 1971
American Foreign Policy Glenn P. Hastedt, 2017-02-01 Glenn Hastedt's clear and succinct introduction to the field prepares students to think about America's changing role in the world and to develop the critical thinking skills needed to participate in the debate about the conduct and content of American foreign policy. He begins by asking: What do we mean by foreign policy and what is the national interest? Next, Hastedt looks to the past and examines the defining experiences that have helped to shape American foreign policy today. Third, he looks at how American foreign policy is made in the current hyperpartisan political climate. Here, Hastedt examines the various institutions and how they come together to make policy as well as the policy instruments available to decision makers. And finally, he encourages students to wonder: What's next? The eleventh edition reflects the latest headlines including more extensive discussions of hybrid warfare, cyber wars, drones, and an assessment of Obama's foreign policy. There are new case studies on ISIS, authorization of force, resolutions, women in combat, the climate agreement, the Iran nuclear agreement, Obama's opening to Cuba, and the future of COIN. And new Historical Lessons boxes feature the War Powers Act, the integration of the military, the Kyoto Agreement, NAFTA, and Afghanistan. This book is accompanied by a learning package designed to enhance the experience of both instructors and students. **Test Bank** The Test Bank includes a variety of test questions and is available in either Word, PDF, or Respondus formats. For every chapter in the text, the Test Bank includes a complete test with a variety of question types including multiple choice, true/false, and essay formats. Check with your university to see if you have a site license to the full program, Respondus 4.0, which offers the option to upload your tests to any of the most popular course management systems such as Blackboard. If you don't have a Respondus license or do not care about having your tests in a course management system, you can use our test bank file in Respondus LE. The LE program is free and can be used to automate the process of creating tests in print format. Visit the Respondus Test Bank Network to download the test bank for either Respondus 4.0 or Respondus LE. If you prefer to use our Test Bank in Word or PDF, please Sign In if you are a registered user or Register, then email us at textbooks@rowman.com. **Companion Website** Accompanying the text is an open access Companion Website designed to reinforce the main topics. For each chapter, flash cards and self-study quizzes help students master the information they learn in the classroom. Students can access the Companion Website from their computer or mobile device at textbooks.rowman.com/hastedt11e.

Beals,2019-06-18 This study of ten fateful decisions made on Indochina between 1961-75 highlights the ascent of the civilian militarists and of strategy over diplomacy in United States policymaking and reveals the inexorably interlinked and escalating character of the decisions and the central purpose of American presidents not to have to face the expected domestic political consequences of defeat in Indochina As a result we were led into a prolonged stalemate in which acting and the management of programs became a more important preoccupation than thinking about our purposes and values in which analysis become wholly subjective and therefore defective and in which decision making occurred in a closed system which did not allow for divergent inputs Imperialism Intervention and Development Andrew Mack,David Plant,Ursula Doyle,2018-11-09

Originally published in 1979 Imperialism Intervention and Development provides an introduction to key issues in international politics in the post World War II era The emphasis is on conflict particularly the confrontation between East and West and the contention between rich industrialised nations and the poor developing nations The book debates the causes of Western intervention expansion and counter revolution in the Third World and the consequences of that intervention for economic development The spectrum and depth of the articles is both comprehensive and varied including examples of mainstream academic perspectives on the issues examined incorporating many of the radical critiques of these mainstream approaches Other more basic material presupposing little prior knowledge in the field is concerned is also included
