Maoists in India Nirmalangshu Mukherji,2012-08-06 The Maoists in India delves deep into the decades long battle between the Indian state and Maoist groups one of the most intractable insurgencies in the developing world Nirmalangshu Mukherji uncovers the devastating impact of neoliberalism on India s tribal population armed aggression by the State as well as the impact of the armed struggle by the Maoists Unlike most accounts Mukherji takes an honest and unflinching look at each of the Maoists interventions and critically examines the ideology and programme proposed by their theoreticians and prominent intellectual sympathisers By focussing on the Maoists political philosophy the extent of their democracy as well as the roles of intellectuals Mukherji reaches conclusions about whether their strategy can help to deliver social justice and liberation for India s poor *Radical Political Economy: A Concise Introduction* Charles A. Barone,2015-03-26 This straightforward introduction to radical political economy strikes a balance between breadth and depth and was written for the beginning student and others interested in a relatively short text on radical economics *Chomsky on Democracy and Education* Noam Chomsky,2003 First Published in 2003 Routledge is an imprint of Taylor Francis an informa company **Noam Chomsky** Robert F Barsky,1998-07-31 This biography describes the intellectual and political milieus that helped shape Noam Chomsky a pivotal figure in contemporary linguistics politics cognitive psychology and philosophy It also presents an engaging political history of the last several decades including such events as the Spanish Civil War the dropping of atomic bombs on Hiroshima and Nagasaki and the march on the Pentagon to protest the Vietnam War The book highlights Chomsky s views on the uses and misuses of the university as an institution his assessment of useful political engagement and his doubts about postmodernism Because Chomsky is given ample space to articulate his views on many of the major issues relating to his work both linguistic and political this book reads like the autobiography that Chomsky says he will never write Barsky s account reveals the remarkable consistency in Chomsky s interests and principles over the course of his life The book contains well placed excerpts from Chomsky s published writings and unpublished correspondence including the author s own years long correspondence with Chomsky Not for sale in Canada *Representing Radicals* Tilted Scales Collective,2021-05-04 *Representing Radicals* helps lawyers understand ways to work with radical defendants with an explicit focus on how to help them achieve ends that go beyond traditional legal goals For example many radical defendants want to use their trials to discuss political issues even if doing so could lead to a conviction when a standard criminal defense might lead to an acquittal Understanding radical defendants goals and political priorities is a crucial part of providing them with the most robust criminal defense while helping them strengthen and defend their social movements This book and its precursor *A Tilted Guide to Being a Defendant* are based on the Tilted Scales Collective s belief that lawyers and radical

defendants can work together in shared struggle in ways that strengthen movements when fighting criminal charges The Power to Destroy Michael J. Graetz, 2024-02-13 How the antitax fringe went mainstream and now threatens America's future The postwar United States enjoyed large widely distributed economic rewards and most Americans accepted that taxes were a reasonable price to pay for living in a society of shared prosperity Then in 1978 California enacted Proposition 13 a property tax cap that Ronald Reagan hailed as a second American Revolution setting off an antitax antigovernment wave that has transformed American politics and economic policy In The Power to Destroy Michael Graetz tells the story of the antitax movement and how it holds America hostage undermining the nation's ability to meet basic needs and fix critical problems In 1819 Chief Justice John Marshall declared that the power to tax entails the power to destroy But The Power to Destroy argues that tax opponents now wield this destructive power Attacking the IRS protecting tax loopholes and pushing tax cuts from Reagan to Donald Trump the antitax movement is threatening the nation's social safety net increasing inequality ballooning the national debt and sapping America's financial strength The book chronicles how the movement originated as a fringe enterprise promoted by zealous outsiders using false economic claims and thinly veiled racist rhetoric and how abetted by conservative media and Grover Norquist's taxpayer protection pledge it evolved into a mainstream political force The important story of how the antitax movement came to dominate and distort politics and how it impedes rational budgeting equality and opportunities The Power to Destroy is essential reading for understanding American life today The Rise and Fall of British Liberalism Alan Sykes, 2014-09-25 Here is the first book to cover the history of British Liberalism from its founding doctrines in the later eighteenth century to the final dissolution of the Liberal party into the Liberal Democrats in 1988 The Party dominated British politics for much of the later nineteenth century most notably under Gladstone whose premierships spanned 1868-1894 and during the early twentieth but after the resignation of Lloyd George in 1922 the Liberal Party never held office again The decline of the Party remains a unique phenomenon in British politics and Alan Sykes illuminates its dramatic and peculiar circumstances in this comprehensive study
