Dunfield, 1993 A comprehensive English language guide to the city of Osaka for business travellers and tourists alike Second only to Tokyo as a banking and trade centre of Japan Osaka is a centre of tradition and culture as well the home of bunraku puppet theatre for example and is minutes by rail from Japan's ancient capitals of Kyoto and Nara A variety of suggested sightseeing itineraries are included as well as recommended museums restaurants and hotels a list of festival dates and sources of additional information *Paperbound Books in Print*, 1992 *Running the Rails* James

Wolfinger, 2016-06-07 Philadelphia exploded in violence in 1910 The general strike that year was a notable point but not a unique one in a generations long history of conflict between the workers and management at one of the nation's largest privately owned transit systems In *Running the Rails* James Wolfinger uses the history of Philadelphia's sprawling public transportation system to explore how labor relations shifted from the 1880s to the 1960s As transit workers adapted to fast paced technological innovation to keep the city's people and commerce on the move management sought to limit its employees rights Raw violence welfare capitalism race baiting and smear campaigns against unions were among the strategies managers used to control the company's labor force and enhance corporate profits often at the expense of the workers and the city's well being Public service workers and their unions come under frequent attack for being a special interest or a hindrance to the smooth functioning of society This book offers readers a different historically grounded way of thinking about the people who keep their cities running Working in public transit is a difficult job now as it was a century ago The benefits and decent wages Philadelphia public transit workers secured advances that were hard won and well deserved came as a result of fighting for decades against their exploitation Given capital's great power in American society and management's enduring quest to control its workforce it is remarkable to see how much Philadelphia's transit workers achieved *Philadelphia's Rapid Transit* Philadelphia Rapid Transit Company, 2010-04 In 1903 the Philadelphia Rapid Transit Company broke ground on an ambitious project to create the City of Brotherly Love's first high speed rail system When it opened on March 4 1907 the Market Street Subway Elevated Line was greeted with acclaim Running from the suburbs of West Philadelphia on elevated tracks trains ducked underground to reach the city center The line would be joined by the Frankford Elevated in 1922 and merged into today's Market Frankford Line now operated by the Southeastern Pennsylvania Transportation Authority SEPTA Originally printed in 1907 to celebrate the opening of the subway line Philadelphia's Rapid Transit include descriptive text and dozens of rare photos showing the men who built the line The book provides a fascinating glimpse into the construction and design of one of the nation's earliest municipal railway systems This reprint has been slightly reformatted but care has been taken to preserve the integrity of the text *Philadelphia Trolleys*

Allen Meyers, Joel Spivak, 2003 Streetcar service arrived in Philadelphia in the 1850s shortly after the consolidation of the city. After the Civil War the horse drawn omnibus gave way to a comprehensive network of streetcar lines with some routes measuring nineteen miles in length. By 1915 the electrification of the streetcar increased the number of routes in Philadelphia to a total of eighty six. During the trolley's heyday the city provided a vast test track for such companies as J G Brill, Kimball and Gorton Car Manufacturers and the Budd Wheel Company. The Wharton Railroad Switch Company revolutionized the manufacture of switches and tracks. Of the lines that once operated in Philadelphia five are still running today. Philadelphia Trolleys contains a variety of rare images including a postcard of the Point Breeze Amusement Park, photographs of motormen's uniform badges and buttons, architectural drawings, early stock certificates and a photograph of the Toonerville Trolley used in the silent movies produced by Lubin Studios in the 1920s.
