Raimund And Vienna:

Ferdinand Raimund. - New York (1968). 142 S. 8° John Michalski, 1968 **Hans Christian Andersen and Music**
AnnaHarwell Celenza, 2017-07-05 Hans Christian Andersen was the most prominent Danish author of the nineteenth century. Now known primarily for his fairy tales during his lifetime he was equally famous for his novels, travelogues, poetry, and stage works, and it was through these genres that he most often reflected on the world around him. With the bicentennial of Andersen's birth in 2005, there is still much about the writer that is not yet common knowledge. This book explores a single aspect of that void: his interest in and relationship to the musical culture of nineteenth-century Europe. Why look to Andersen for information about music? To begin with, Andersen had a musical background. He enjoyed a brief career as an opera singer and dancer at the Royal Theater in Copenhagen, and in later years he went on to produce opera libretti for the Danish and German stage. Andersen was also an avid music devotee. He made thirty major European tours during his seventy years, and on each of these trips he regularly attended opera and concert performances, recording his impressions in a series of travel diaries. In short, Andersen was a well-informed listener, and as this book reveals, his reflections on the music of his age serve as valuable sources for the study of music reception in the nineteenth century. Over the course of his life, Andersen embraced and then later rejected performers such as Maria Malibran, Franz Liszt, and Ole Bull, and his interest in opera and instrumental music underwent a series of dramatic transformations. In his final years, Andersen promoted figures as disparate as Wagner and Mendelssohn while strongly objecting to Brahms. Although such changes in taste might be interpreted as indiscriminate by modern-day readers, this study shows that such shifts in opinion were not contradictory but rather quite logical given the social and cultural climate of the age.

Masks of the Prophet Karl GRIMSTAD, 1982-12-15 When the name Hitler is mentioned, nothing occurs to me, so said Karl Kraus. For this leading Viennese Jewish critic and intellectual, the touchstone of art was ethics. How could he be speechless in the face of a threat to all that ethics means? To answer this question, the author makes a detailed chronological study of Kraus's intellectual activity as reflected in his work on the theatre. The results are presented in five chapters, each dealing with a different mask adopted by Kraus during the period 1892-1936. Grimstad considers not only theatre and drama criticism in *Die Fackel* and Kraus's dramatic writings but also biographical data to help uncover the rationale of his work. That rationale is the logic of the theatrical mode in which he lived and wrote. The stage was not only his subject matter; it determined what he would see and say. Grimstad argues that when Kraus wrote, his words were the speech of an actor who was often infatuated with himself and obsessed with the need to overwhelm his rival actors. When Hitler's storm troopers began their march, he could say nothing for the world in which his thought took shape had become a world of theatrics, not Realpolitik. Kraus criticized plays without reading them and performances without seeing them, obsessed with the belief that his was the voice of all that was true, good, and beautiful. Grimstad observes that he was a prophet who confused the divine inspiration with the Thespian urge to play to an audience.

using a mask for each of his roles yet thinking he spoke to all mankind bringing them pure ethos This volume will be of particular interest to those working in the fields of theatre criticism comparative literature German literature and Jewish intellectual history

Foreign Quarterly and Westminster Review ,1843 **Bukovina** Cristina Florea,2025-12-16 The making and remaking of Bukovina a disputed Eastern European borderland from the eighteenth century to the present day Bukovina when it has existed on official maps has always fit uneasily among its neighbors The region is now divided between Romania and Ukraine but has long been a testing ground for successive regimes including the Habsburg Empire independent and later Nazi allied Romania and the Soviet Union as each sought to reshape the region in its own image In this beautifully written and wide ranging book Cristina Florea traces the history of Bukovina showing how this borderland the onetime buffer between Christendom and Islam found itself at the forefront of modern state building and governance projects that eventually extended throughout the rest of Europe Encounters that play out in borderlands have proved crucial to the development of modern state ambitions and governance practices Drawing on a

wide range of archives and published sources in Russian Ukrainian German Romanian French and Yiddish Florea integrates stories of ethnic and linguistic groups rural Ukrainians Romanians and Germans and urban German speaking Jews and Poles who lived side by side in Bukovina all of them navigating constant reconfiguration and reinvention Challenging traditional chronologies in European history she shows that different transformations in the region occurred at different tempos creating a historical palimpsest and a sense among locals that they had lived many lives A two hundred year history of a region shaped by the conflicting pulls of imperial legacies and national ambitions Bukovina reveals the paradoxes of modern history found in a microcosm of Eastern Europe
