The Risen Adam Virginia Hyde, 2010-11 Showing Lawrence's familiarity with biblical typology from both written and visual sources Virginia Hyde explores its many ironic and paradoxical versions in his works She demonstrates his use of typological precursors of Christ such as Adam and David Moses and Aaron and his development of a coherent cosmology centered on the cross and the Tree of Life These features often take on radically revisionist meanings when informed by Lawrence's interests in theosophy and occult lore Hyde fully recognized Lawrence's intensely dynamic style and examines the ways in which he works creatively with his models Hyde sheds new light on Lawrence's leadership views linking them to patriarchal assumptions inherent in biblical typology She utilizes manuscripts and sketches as well as his traditional works to show that a complex form of biblical symbolism affects both his form and content in

Automatic Timothy Wientzen,2021-08-31 A fascinating study of how behavioral science shaped twentieth century politics and the modernist literary period The advent of the twentieth century famously brought about new personal and political freedoms including radical changes in voting rights and expressions of gender and sexuality Yet writers and cultural critics shared a sense that modern life reduced citizens to automatons capable of interacting with the world in only the most reflexive ways In Automatic Timothy Wientzen asks why modernists were deeply anxious about the role of reflexive behaviors and the susceptibility of bodies to physical stimuli in the new political structures of the twentieth century Engaging with historical thinking about human behaviors that fundamentally changed the nature of political and literary practice Wientzen demonstrates the ways in which a politics of reflex came to shape the intellectual and cultural life of the modernist era Documenting some of the ways that modernist writers and their contemporaries mapped harnessed and intervened in a political sphere dominated by conditioned reflexes Wientzen reads writers like D H Lawrence Rebecca West Wyndham Lewis and Samuel Beckett in conversation with fields that include public relations physiology sociology and vitalism Ultimately he justifies a reckoning with some of the most enduring preoccupations of modernist studies Automatic further emphasizes the role of politics and science in the aesthetic projects of modernist writers At a moment when political enfranchisement and the mass media promised new modes of freedom agency and choice Wientzen argues that the modernist era was beset by apprehension

about the conscription of liberty through the conditioning force of everyday life Analyzing such thinking through a neglected archive about embodiment and reflex reveals modernists responding to the historically novel conditions of political life in the twentieth century conditions that have become entrenched in the politics of our own century **Disco Witches of Fire**
