General David Wooster Jason Edwin Anderson, 2024-09-03 David Wooster Revolutionary War General though woefully understudied was one of the most influential figures in Colonial Connecticut A study of his life is a study of the major events that shaped New England The growth of his military leadership from the 1740s until his death in 1777 was coupled with active civic responsibility and entrepreneurial spirit While raising a family in New Haven Wooster sought active involvement

in colonial politics and at the same time supported and encouraged New Haven's growing influence as a major port city. Tremendously devoted to the ideas of liberty, freedom, equality, and the rights to property, David Wooster epitomized the 18th-century American republican cause, a cause for which he sacrificed everything to defend and help secure. At the point in life when most people reached the age of retirement, as well as the ease of old age, Wooster, sixty-five years old at the outset of the Revolutionary War, once more donned the uniform of his home colony of Connecticut and led troops in the field of battle. He had everything to lose and nothing but liberty and freedom to gain. To him, however, these were more than ample reasons. This first biography of the influential figure is exhaustively researched from primary sources covering Wooster's entire life and entire military and civic careers.

British Intelligence Operations As They Relate To Britain's Defeat At Yorktown, 1781 Major Scott E. Conley, 2014-08-15. This paper examines the role of British intelligence operations during the American Revolutionary War as they apply to the British defeat at Yorktown. It begins with a brief history of British intelligence prior to the war, discusses strategic collection against the burgeoning French-American alliance, examines preconceptions during the planning of the southern campaign, and analyses the tactical intelligence operations of Lord Charles Cornwallis' army from the British victory at Charleston in 1780 through the defeat at Yorktown in 1781. It concludes that at the strategic level, British intelligence accurately monitored French assistance to the Americans but had difficulty using the information to effect meaningful action on the American continent. At the operational level, General Sir Henry Clinton developed an accurate, reliable intelligence system in the northern colonies but was unable to transfer those successes to the southern theater. At the tactical level, General Cornwallis suffered from initial misconception about the degree of loyalist support in the South, lacked a general knowledge of the physical terrain in the southern colonies, and failed to conduct proactive deep reconnaissance during operations.
